Ph.D. Students Course Requirements

Ph.D. students are required to take one of the following courses:

Anat 663D - Histology (9 credits)
Anat 690D - Cell and Developmental Biology (6 credits)

During the first year, Ph.D. students will take Histology (Anat 663D) or Cell and Developmental Biology (Anat 690D). After consultation with their Supervisor, students may choose to take complementary courses selected to suit individual requirements. In addition, they will be required to take a Comprehensive Examination (Anat 701D) after 18 months of the start of their graduate training.
