23 LEADERSHIP 2014 > 2015
24 SENATE 2014 > 2015
I love learning about all the amazing things being done in the McGill community. Hardly a day passes that I do not hear about the outstanding achievements of our students, alumni, faculty or staff. The 2015 Annual Report collects many of these accomplishments from the past year, and reflects the hard work and dedication of all the people who are building McGill’s future. Their drive and achievements energize the University as we continue to focus on five priority areas: student life and learning, research and innovation, community engagement, our work culture, and transforming our physical and virtual campus.
It is a time of both transition and endurance. We are implementing a collective vision that recognizes how the needs of our community are changing—just as our hometown, our country and our world are changing, too. At the same time, we draw strength from knowing that our fundamental values have evolved over the last 200 years and are well anchored in our community. We love learning and discovery. We embrace challenge, and are committed to excellence. We explore new ways of looking at the world, and search for sustainable approaches to how we live and work. We act on our deep responsibility to use our knowledge to serve that world.

Together, we are building a future that is open, connected, and purposeful. We are proud of who we are, and excited about what McGill is becoming.

Bonne lecture,

SUZANNE FORTIER, BSc’72, PhD’76
PRINCIPAL AND VICE-CHANCELLOR
YEAR IN REVIEW
OCT. 2014
McGill receives a donation from Bell Let’s Talk to support existing mental health programs and develop additional services for students.

Professor Michael Meaney is selected as the 2014 Klaus J. Jacobs Research Prize laureate in recognition of his groundbreaking achievements in the biology of child brain development.

Vision 2020 Sustainability Strategy officially launches its 23 goals and 14 priority actions relating to topics from green buildings to energy conservation to sustainability research.

Schulich School of Music student Byungchan Lee wins the coveted 2014 Golden Violin Prize.

McGill alumus John O’Keefe is the co-winner of the 2014 Nobel Prize in Medicine for his contribution toward the discovery of cells that make up the brain’s “inner GPS,” allowing humans to orient themselves in space.

奖学金

Design for Living Prize for his work on minimum-cost housing and urban agriculture.

Bartha M. Knoppers, internationally renowned lawyer and director of the Centre of Genomics and Policy at McGill, is one of five local luminaries honoured at the annual Great Montrealers reception.

An international study led by the Research Institute of the McGill University Health Centre identifies a key molecule that affects brain processing and memory. The discovery could have relevance for understanding and treating brain conditions like autism and Alzheimer’s.

The Glen site, one of the largest hospital projects in Canada, is officially handed over to the McGill University Health Centre (MUHC). The Glen is the new home of the Montreal Children’s Hospital, the Royal Victoria Hospital, the Montreal Chest Institute, the Research Institute of the MUHC and the new Cedars Cancer Centre.

DEc. 2014
Joanna Klimczak and Benjamin Mappin-Kasirer become McGill’s 137th and 138th Rhodes Scholars. [05]

The Society for Cultural Anthropology awards the 2014 Bateson Prize to anthropology professor Eduardo Kohn for his book, How Forests Think: Toward an Anthropology Beyond the Human. [05]

McGill’s Model United Nations team is ranked 9th overall in North America. [05]

The 2014 Bloomberg Manulife Prize is awarded to Dr. David J.A. Jenkins. He is the inventor of the glycemic index and inspiration behind low-cholesterol diets. [05]

Roughly 300 university students from across the city take part in a massive snowball fight organized by McGill students on the downtown campus. [06]

Dr. Qutayba Hamid, a member of McGill’s Faculty of Medicine for 20 years, is awarded the Distinguished Scientist award from the Canadian Society of Clinical Investigation. [06]

Québec Science magazine names three projects led by McGill-affiliated researchers to its Top 10 Discoveries of 2014: the identification of a molecule which may help battle depression (Gustavo Turecki), the discovery of a genetic variant that may help protect against Alzheimer’s disease (Judes Poirier), and a technique to increase the toughness of glass (François Barthelat). [06]

JAN. 2015
A McGill research team reveals a network of neurons in the brain that facilitate the ability to pay attention while simultaneously ignoring other distractions. [07]

McGill hosts the Canadian Fair Trade Network national conference. McGill was the first university in Quebec to become a certified Fair Trade Campus. [08]

Famed tenor Ben Heppner joins the voice faculty of the Schulich School of Music. [07]

Feb. 2015
Researchers at the Montreal Neurological Institute and Hospital develop a cancer-detection probe that may extend the life-expectancy of brain cancer patients. [08]

The Princess Royal, Princess Anne, pays a visit to the downtown campus to speak with students involved in international development. [08]
New research from the Montreal Neurological Institute and Hospital shows that a protein commonly found in human cells could trigger cancer cell metastasis, which helps expand the understanding of epithelial cancers.

**MARCH 2015**

The Redmen and Martlets post first-places finishes in both men’s and women’s hockey, and men’s and women’s basketball. This is the second time a single institution has achieved this feat in the history of Canadian Interuniversity Sport.

Neuropsychologist and McGill alumna Dr. Brenda Milner is among 75 laureates honoured at the Bravo gala, McGill’s premier celebration of research excellence, in recognition of being awarded the international Kavli and Dan David Prizes.

The Quebec Government announces it will support a feasibility study to examine McGill’s proposal to transform the former Royal Victoria Hospital into a modern academic and research space.

McGill researchers discover that silver, combined with water and air, can efficiently convert aldehydes into acids—findings that could lead to greener ways to induce chemical conversion reactions.

**APRIL 2015**

World-renowned astrophysicist Vicky Kaspi is awarded the 2015 Killam Prize in Natural Sciences for her cutting-edge work on neuron stars and pulsars.

The Clean Ride Mapper, a new online tool developed at McGill, allows cyclists in Montreal and Toronto to select the least polluted routes to their destination.

McGill’s Office of Sustainability awards Catalyst Prizes to the Divest McGill student group as well as other students, staff and faculty who have made lasting contributions to the University’s sustainability movement.

Researcher Chris Buddle and his team discover that changes to Arctic beetle communities are the key to monitoring climate change in the North.

A study conducted by Queen’s University and McGill concludes that the HPV vaccine shows early benefits in young girls including a significant reduction in cervical dysplasia.

The Schulich School of Music names its New Music Building after Elizabeth Wirth, McGill alumna and philanthropist, whose generous donations will help fund new student initiatives within the Faculty.
McGill students are the recipients of all six 2015 Lieutenant Governor of Quebec Youth Medals for the Montreal region. The awards recognize university-level Quebecers who have distinguished themselves both academically and in their communities.

Faculty members Martha de Francisco, Susan Bartlett and Brigitte Vachon are among the 13 laureates of the YWCA Women of Distinction Awards.

Ava Orthopedics, a company devoted to developing bone-replacing implants, wins first place in the McGill Dobson Cup’s Innovation Driven Enterprise competition. [12]

A team led by Steve Maguire, Director of the Marcel Desautels Institute for Integrated Management, wins the 2014 Dr. Alfred N. and Lynn Manos Page Prize for Integration of Sustainability Issues in Business Curricula for its new Managing for Sustainability major and concentration. [13]

Distinguished alumni are named Top MBA Impact Makers at the MBA 50th Anniversary Gala Dinner: Seymour Schulich, entrepreneur, philanthropist and author; Bertrand Cesvet, executive chairman and senior partner, Sid Lee; and the 2013 Hult Prize team.

The University of Glasgow in Scotland bestows an honorary doctorate on Principal Suzanne Fortier in recognition of her academic leadership and in honour of the intellectual and research ties that bind the two universities.

Cancer researcher and James McGill Professor Michel L. Tremblay is named a Knight (Chevalier) of the Ordre National du Québec.

McGill students, staff and faculty join thousands of Montrealers in a celebratory march to inaugurate the state-of-the-art McGill University Health centre at its new Glen site.

Two teams from McGill’s Food Sciences program capture top honours at the International Food Technologists annual competition for their TiraVerde avocado-based dessert and high-protein Falamus Instant Mix.

Civil engineering student Dori Yeats captures a gold medal in wrestling at the 2015 Pan Am games. [15]
AUG. 2015

A new game-changing study conducted by the Research Institute of the McGill University Health Centre and the Hospital for Sick Children shows strong evidence for genetic causes of cerebral palsy that could have major implications on future counselling, prevention and treatment of children with the condition.

McGill researchers identify the areas of the brain responsible for making decisions related to delaying gratification, findings that further the understanding of eating disorders, ADHD and gambling addiction.

Professor Emeritus Charles Taylor, one of the world’s most celebrated living philosophers, is awarded the Kluge Prize in recognition of his distinguished and influential career. [16]

Alexander Deans and Aditya Mohan are the recipients of McGill’s Schulich Leader Scholarships, a program that encourages promising high school students to embrace the STEM fields—science, technology, engineering and mathematics.

McGill’s Executive Chef Oliver de Volpi and a team of volunteer students and staff make their way into the Guinness Book of World Records with a 3,100-litre giant smoothie.

The Royal Society of Canada honours 14 McGill researchers and scholars with fellowships. Principal Suzanne Fortier is named a Specially Elected Fellow.

Brian Current, Juno-award winning composer and 1996 Schulich alum, is named the winner of the Azrieli Commissioning Competition.

SEPT. 2015

Alexei Simakov, McGill student and Siberian refugee, completes a 6,172-kilometre bike trek from Los Angeles to Toronto to raise funds for Syrian refugees.

The Pierre Elliott Trudeau Foundation grants one of five Trudeau Fellowships to Law professor René Provost. [17]

Young student leaders from across Montreal are celebrated at the first-ever McGill High School Community Leadership Awards, presented by the Social Equity and Diversity Education (SEDE) Office and Enrolment Services. [18]
**HONORARY DEGREE RECIPIENTS**

**FALL 2014**

**Marvin Corber**, Doctor of Laws: volunteer and fundraiser who has participated in numerous campaigns for educational, health care and community organizations. In 2008, he and his wife established the Harriet and Marvin Corber Family Fund to support McGill Management students.

**Robert B. Winsor**, BEng’62, Doctor of Laws: owner, chairman and CEO of Holden America Group. He is also a devoted volunteer to many organizations, including the Nature Conservancy of Canada and the Special Olympics Canada Foundation Board.

**Spring 2015**

**Dame Jocelyn Bell Burnell**, Doctor of Science: groundbreaking researcher and tireless advocate for increasing the number of women working in science.

**The Right Honourable Joe Clark**, Doctor of Laws: Canada’s sixteenth prime minister and a statesman focused on promoting human rights and the democratic process.

**Lorna Crozier**, Doctor of Letters: teacher and Governor General’s Award-winning poet, whose work explores language and memory.

**The Honourable René Dussault**, Doctor of Letters: distinguished jurist, humanitarian and Justice of the Quebec Court of Appeal. Dussault also co-chaired the Royal Commission on Aboriginal Peoples in response to the Oka Crisis.

**Daniel Kahneman**, Doctor of Letters: winner of the 2002 Nobel Prize in Economics. An expert on both the economic decision-making process and hedonic psychology, Kahneman is considered the father of behavioural economics.

**Martti Koskenniemi**, Doctor of Laws: professor of international law at the University of Helsinki and author whose books have inspired students and scholars to challenge assumptions in international law practice.

**Patrick Lane**, Doctor of Letters: poet whose meditations on nature, violence, human frailties and love have won the Dorothy Livesay Poetry Prize and the Governor General’s Award.

**Arthur C. F. Lau**, BArch’62, Doctor of Science: accomplished architect who has contributed to such high-profile projects as Expo ’67 and the Standard Life Centre in Toronto, as well as urban planning projects around the world.

**L. Jacques Ménard**, Doctor of Science: chairman of BMO Nesbitt Burns, president of BMO Financial Group, Québec, and philanthropist who is deeply committed to increasing education opportunities for all Quebecers.

**Nubia Muñoz**, Doctor of Science: cancer researcher and influential proponent for the health and well-being of women living in the world’s poorest countries.

**N. R. Narayana Murthy**, Doctor of Science: entrepreneur known as “the Father of the Indian IT sector and philanthropist whose scholarship program helps underprivileged children pursue their education.

**John O’Keefe**, MA’64, PhD’67, Doctor of Science: co-winner of the 2014 Nobel Prize in Medicine for his discovery of the hippocampus’s “place cell,” which helps the brain orient itself in space.

**Constance Pathy**, LMus’71, LMus’86, Doctor of Music: musician and president of Les Grands Ballets Canadiens, and recipient of the Governor General’s Award for her volunteerism and commitment to the arts.

**Harold Charles Slavkin**, Doctor of Science: leading researcher on the genetics of craniofacial, oral and dental development and lifelong advocate for increased access to health care for underserved populations.

PURPOSEFUL
Tenured and tenure-stream faculty: 1,667
Endowed teaching and research chairs: 177
Canada Research Chairs allotted to McGill: 158
Active members of the Royal Society of Canada: 166

Research Funding 2013-14
(INCLUDING AFFILIATED HOSPITALS*)

**TOTAL: $477.8 M**

- FEDERAL GOVERNMENT: 52.8% ($252.1 M)
- QUEBEC GOVERNMENT: 16.4% ($78.4 M)
- BUSINESS AND ENTERPRISES: 7.7% ($36.8 M)
- ENDOWMENT, INVESTMENT, AND OTHER REVENUE: 6.6% ($31.7 M)
- INTERNATIONAL AND OTHER GOVERNMENTS: 3.6% ($17.4 M)
- NOT-FOR-PROFIT ORGANIZATIONS (INCL. FOUNDATIONS): 12.6% ($60 M)
- INDIVIDUALS: 0.3% ($1.4 M)

*Includes the McGill University Health Centre, the Jewish General Hospital (Lady Davis Institute), the Jewish Rehabilitation Hospital, the Shriners Hospital, the Douglas Mental Health University Institute and St. Mary’s Hospital Center.

90 government- and industry-sponsored RESEARCH CONTRACTS valued at $9.5 MILLION in 2014-15 (excluding affiliated hospitals)

22 LICENCES and options to license granted to the private sector from 2012-15, for a cumulative total of 171 ACTIVE LICENCES

MCGILL HAS A SIZEABLE PATENT ESTATE available for licensing:
62 national and international PATENTS granted to McGill in 2014-15
39,497 STUDENTS [FALL 2014]

- 27,035 UNDERGRADUATES
- 9,246 GRADUATES
- 691 POSTDOCTORAL SCHOLARS
- 1,136 OTHER (NON-CREDIT)
- 1,389 RESIDENTS AND FELLOWS
- 138 RHODES SCHOLARS (MORE THAN ANY OTHER CANADIAN UNIVERSITY)
- 8,930 DEGREES GRANTED IN 2013–14

ENROLMENT

BY MOTHER TONGUE

- ENGLISH 48%
- FRENCH 19%
- OTHER 33%

BY PLACE OF ORIGIN

- QUEBEC 52.5%

</tbody>
</table>

* Depending on program
Each year, our dining halls serve more than **30,000 KILOS OF PRODUCE, 3,000 KILOS OF BEEF, AND 135,000 EGGS** produced on the Macdonald Campus Farm.

**14+ ACRES OF LOCAL LAND** are now growing food for McGill.

Since 2002–2003, McGill has **REDUCED ITS GHG EMISSIONS BY 29%** and its energy intensity by 20%, realizing annual **SAVINGS OF 10%** on its energy costs.

Over the past five years, sustainability-related researchers at McGill have secured more than **$270 MILLION** of funding in national competitions and produced more than **4,000 PEER-REVIEWED PUBLICATIONS**.

**SUSTAINABILITY PROJECTS FUND (SPF)**

Since its creation in 2010, the SPF has allocated **$4.8 MILLION** in seed funding to **150 SUSTAINABILITY-RELATED PROJECTS**.

More than **2,000 VOLUNTEERS** have been mobilized for sustainability projects on McGill’s campuses.

Approximately **250 SUSTAINABILITY-RELATED STUDENT JOBS** have been created.

**MORE THAN 300 STUDENTS** have received course credit for contributing to SPF projects, and approximately **1,700 STUDENTS HAVE TAKEN COURSES** in which SPF projects have been integrated.
FINANCIAL HIGHLIGHTS 2014-2015
