

# Save the Date

OCTOBER 2013

17 18 19

VASCULAR  
VASCULAIRE 2013 

Attend **LIVE** at  
Vascular 2013 at  
Palais des Congrès  
de Montréal  
or watch **ONLINE**  
across Canada at  
**www.iv13.ca**

Further information will be provided shortly by your local representative

## Overall Objectives

After completing this program, participants will be able to:

### Diabetes and Cardiovascular Disease

- Describe the mechanisms and manifestations of cardiovascular disease (CVD) in patients with type 2 diabetes (T2D)
- Analyze the impact of current antihyperglycemic agents and/or regimens, as well as the additional theoretical benefits of incretins, on cardiovascular risk
- Review the potential clinical implications of ongoing and planned trials on cardiovascular risk reduction in patients with type 2 diabetes

### Stroke Prevention in Atrial Fibrillation

- Identify how limitations in current treatment for stroke prevention in atrial fibrillation affect management and outcomes of patients on anticoagulation therapy
- Compare and contrast the profile of oral anticoagulation agents to determine how to best manage stroke prevention
- Recognize and manage the clinical challenges of anticoagulation in atrial fibrillation

**Thursday, October 17** • Two Options: 12:00 p.m. - 1:00 p.m. (EST) or 3:00 p.m. - 4:00 p.m. (EST)

**Diabetes and CV Risk: Is Glucose the Culprit?**

Lawrence A. Leiter, MD

**Hitting the Airwaves with Options to Reduce the Risk of Stroke in Patients with Atrial Fibrillation**

David Gladstone, MD

**Friday, October 18** • Two Options: 12:00 p.m. - 1:00 p.m. (EST) or 3:00 p.m. - 4:00 p.m. (EST)

**On-Air Navigation through the Oral Anticoagulant Landscape**

Justin Ezekowitz, MD  
Jeff Habert, MD

**Streaming Data from Trials to Practice for CVD in Type 2 Diabetes**

Alice Y. Y. Cheng, MD (12:00 p.m.)  
Jean C. Grégoire, MD (3:00 p.m.)

**Saturday, October 19** • Two Options: 12:00 p.m. - 1:00 p.m. (EST) or 3:00 p.m. - 4:00 p.m. (EST)

**Online Timeline: CV Outcomes in Patients with Type 2 Diabetes**

Jacques Genest, MD

**Real-Time Topics: Managing Challenges and Complications with new oral anticoagulants**

André Roussin, MD
