Description of Project:

The Department of Integrated Studies in Education (DISE), Faculty of Education, McGill University is putting out a call for the P. Lantz Initiative for Excellence in Education & the Arts: Artist in Residence (AiR) For more information about the P. Lantz Initiative for Excellence in Education & the Arts, see our website: <http://knowledge-through-the-arts.ca/>. This is the third year of the Artist in Residence program in DISE.

Primary Duties:

The role of the Artist in Residence will be to work with students, faculty and staff in building their understanding of the multifaceted-practices of art, and the ways in which the arts can be integral to building knowledge across disciplines. We are particularly interested in artists with projects that will

(a) support professors across various disciplinary areas in Education wanting to integrate arts themes, strategies and assignments; (b) contribute to mentoring undergraduate and graduate students in the arts; (c) contribute to coordinating and planning exhibitions, digital display, and other art spaces in the Faculty, and organizing art events including workshops, presentations, panels, and/or various other types of arts-related scholarly activities, and (d) contributing to communication and coordination across specialized arts courses as well as others taught in the Faculty on themes related to pedagogy and social change.

Education/Experience:

The ideal candidate will have a strong background in any visual medium or the performing arts and experience in working with community groups and students.

Additional Information:

The Artist in Residence will normally be in place for two semesters, although this can be flexible. In addition to an office and full access to the academic resources and intellectual community in DISE, the AiR will also be able to access internet and library facilities provided through McGill. While the AiR may hold other positions at the same time, she/he will be expected to spend a significant portion of her/his period of residence (at least 14 hours per week) at DISE, working with the community of Education. The successful applicant will not normally be an existing member of the Faculty of Education teaching staff or student body and will not normally hold a tenure-track or tenured academic position at another institution. Applications should specify if any specific equipment or materials are required which the artist is not in a position to supply, or any other costs associated with his/her project.

HOW TO APPLY:

Applications should include a cover letter, curriculum vitae, a proposal (2-4 pages) focusing in particular on what project(s) would be undertaken while in residency, and an e-portfolio that documents their production and shows connections to community based practice. Applications should include the names of two people who would be willing to provide a reference. Preference will be given to applications that support engagement and interaction with Education students and faculty.

Please submit your complete application and all inquiries to:
