Dear Friend,

An important mission of the McGill Department of Otolaryngology – Head and Neck Surgery and its oncology program is to provide state-of-the art care for patients with cancers and other disorders of the head and neck. These cancers are unpredictable and may affect the thyroid, throat, voice box, mouth, tongue, and the nasal chambers. Our research programs have led to many new treatments and surgical procedures to combat these potentially fatal diseases. These research programs have offered our patients hope for the future with an attempt to bring us closer to the important cure.

We once again appeal to your generosity and support. We are pleased to announce that the special honoree for this year's campaign is:

Mr. Michael Farber

Michael Farber is the respected Dean of sports commentary currently on the TSN Network and is scheduled to cover the Olympic Games 2014 in Sochi, Russia. He serves as the hockey journalist for Sport Illustrated magazine and has an insightful and heralded CJAD radio segment every morning.

Mr. Farber's personal affliction with throat cancer led him to support the cause for head and neck cancer research. As this year's honoree he will be inviting an illustrious array of sports personalities including Mr. Dave Hodge as the event MC.

Please be a part of our 2014 campaign by giving generously to this wonderful event. By supporting the research fund that honours Mr. Michael Farber, you will become a meaningful part of our efforts to provide our community of patients with the most modern medical care available.

We are very appreciative of the support you have given in previous years, and hope that we can count on you once again.

Thank you in advance for your generosity and we look forward to seeing you at this exciting event at the "**Windsor Ballroom**", **Sunday, May 25, 2014**. Children age 13 and up will be welcomed at 5:30 p.m. to take pictures with the Stanley Cup. The evening gala celebration will commence at 6:30 p.m.

Dr. Saul Frenkiel
