Research Assistant in Bio-Statistic

Our research team in epidemiology is currently looking for a research assistant who can provide scientific support in bio-statistics to the team.

As part of that work, this person will:

- Manage databases and perform statistical analyzes
- Contribute to the writing of scientific reports
- Assist in the preparation and submission of grant applications

Knowledge and skills required:

- Hold a M.Sc. in bio-statistics or a related field with experience in bio-statistics.
- Be able to conduct statistical analyzes with SAS, R and STATA statistical software.
- Experience with software for word processing, presentations, and spreadsheets.
- Effective oral and written communication is required, preferably bilingual.
- The candidate must be able to maintain accuracy and attention to detail, to work both independently and collaboratively, assess priorities and have the capacity to carry out different tasks in parallel.
- Experience in research is a major asset.

Location: Centre de Recherche du CHUM  
Salary: Based on experience, + benefits  
Start date: November 2017  
Duration: One year with possibility of extension according to research funds  
Status: Full-time, with the possibility of part-time

If you are interested, please send your CV and cover letter to Julie Lacaille by e-mail to Julie.lacaille.chum@ssss.gouv.qc.ca before October 13th 2017

Please note that only candidates whose CVs have been selected will be contacted.
