MONTREAL IS THE #1 STUDENT CITY IN THE WORLD! (click to learn more)
Welcome to the McGill community

Congratulations on being admitted to McGill University. Starting a new chapter in your life is exciting but also involves logistical challenges that we are happy to assist you with. This essential guide provides you with information you will need about registering, settling into campus life, and getting to know the Macdonald Campus community.

Studying at McGill’s Macdonald Campus is much more than spending time in lecture halls and classrooms—your courses will likely include laboratories, trips to fields and forests, and exposure to active learning classrooms. Because we offer an intimate educational setting, you will get to know your classmates very well, and you will discover that your professors and the Macdonald staff are accessible, friendly and eager to help.

We really want you to feel at home quickly, so don’t be afraid to ask for help or advice! The Student Affairs Office in Laird Hall will help you navigate your academic program. The Student Services Office assists you with information about career options, financial aid and also provides mental and physical health services. Get involved with the Students’ Society, or check out the Athletics facilities and the Arboretum. Be sure to explore the local community of Ste-Anne-de-Bellevue, and also take advantage of all that Montreal has to offer. It is important to attend classes, but also to have fun, pursue your hobbies, explore your surroundings and build a network of peers and friends! The friends you make at university will be the social network surrounding you for many years to come, so introducing yourself to that other new student sitting next to you in class is the first step towards building your own community.

I wish you every success as you embark on your academic program and this new chapter in your life.

Sincerely,
Anja Geitmann, PhD
Dean, Faculty of Agricultural and Environmental Sciences

Minors: Will you be 18 by the start of classes?

If you won’t be 18 years old by the time you travel to Canada, you must have a legal custodian in Montreal before starting immigration procedures to study at McGill. For details: www.mcgill.ca/internationalstudents/immigration-documents/documents/minors.

For International Students already in Canada: please see www.mcgill.ca/internationalstudents/immigration-documents/documents/international-students-already-canada-0
