

RÉUNION SCIENTIFIQUE PEDIATRIC MEDICAL GRAND ROUNDS

The Donald Cohen Lectureship in Childhood Autism

Thinking Differently About Autism Spectrum Disorder

Présenté par | Presented by

Evdokia Anagnostou, MD

Child Neurologist and Senior Clinician Scientist, Autism Research Centre, Holland Bloorview Kids Rehabilitation Hospital
Associate Professor, Department of Paediatrics, University of Toronto
Canada Research Chair (Tier II) in Translational Therapeutics in Autism

Mercredi, le 8 mars, 2017 | 8h00-9h00
Wednesday, March 8, 2017 | 8:00-9:00 a.m.

CUSM Auditorium de l'Institut de recherche, Salle E.S1.1129
MUHC Research Institute Auditorium, room E.S1.1129

Objectifs:

- 1- Examiner les nouvelles approches en matière de conceptualisation des troubles du spectre de l'autisme (TSA);
- 2- Discuter des signes précurseurs de chevauchements biologiques dans les troubles neurodéveloppementaux;
- 3- Examiner les premiers résultats des essais cliniques portant sur les troubles du spectre de l'autisme.

Objectives:

- 1- Review new approaches to conceptualizing ASD;
- 2- Discuss early evidence of biological overlap across neurodevelopmental disorders;
- 3- Review early findings finding from clinical trials in Autism spectrum disorder.
