Words from the Chairman
Michael Shevell

"It was the best of times, it was the worst of times, it was the age of wisdom, it was the age of foolishness, it was the epoch of belief, it was the epoch of incredulity, it was the season of Light, it was the season of Darkness, it was the spring of hope, it was the winter of despair, we had everything before us, we had nothing before us, we were all going direct to Heaven, we were all going direct the other way--in short the period was so like the present period,"

I have found writing the introduction to the current edition of the Newsletter particularly challenging. Indeed I have procrastinated so much to the consternation of Sylvie who does such a wonderful job of putting this Newsletter together. Yet my mind kept returning to the opening lines of Dickens’ "A Tale of Two Cities" quoted above. It seems a particularly apt summary of where we find ourselves at this moment in our institutional history. There is the bright shining beacon on the hill that is a new hospital, that truly is but a once in a century occurrence. On the other hand, there are financial limitations at both the hospital and university levels that are, in the observations of members more senior than I, the worst they have encountered in their professional careers. We know these limitations will impact on what we do and indeed some health professionals have lost their jobs. If that was not enough, there is the malodorous stench of allegations of financial malfeasance that keeps being dredged up over and over again.

What we need to keep firmly in mind is that we as a Department continue to deliver in all aspects of our academic mission. We have not faltered on this road. The quality of the care we provide has never ever been questioned. Indeed, we continue to be innovative and cutting edge. Our recent Renewal event that focused on Patient Safety is an example of this innovation and passion. We continue to have the highest ranked clerkship experience for the Faculty of Medicine. We continue to attract the very best students for residency training in pediatrics with a success rate on Royal College examinations that is unblemished. Research wise we were the most successful institution provincially in the last round of salary support funding. If that was not spectacular enough, one of our research staff received the single largest operating grant in dollar value in institutional history this past spring. We punch well above our weight provincially, nationally and internationally in any metric of academic success and this is only possible because of our members. The pages of this newsletter bear eloquent testimony to our collective success.

I am not known to mince words nor will I begin to do so now or into the future. These are difficult times. But we will survive and I firmly believe that “what does not kill you makes you stronger”. If we remain focused on our values of compassion in care, innovation, integrity, transparency, collegiality, accountability, and a commitment to improving and striving for excellence in all that we do, we can only emerge stronger. Indeed we will survive to thrive.

Have a great summer everyone! You have most certainly earned it.

Michael

Staff Updates

Dr. Claire Leblanc has been appointed as Director, Division of Pediatric Rheumatology, effective March 1, 2013.

Dr. Bruce Mazer has stepped down as Interim Director, Division of Pediatric Rheumatology, effective February 28, 2013.

Dr. John Mitchell has been appointed as Director, Division of Pediatric Endocrinology and Metabolism, effective July 1, 2013.

Dr. Constantin Polychronakos will be stepping down as Director, Division of Pediatric Endocrinology and Metabolism, effective July 1, 2013, at the end of his third five-year mandate.

Dr. David Mitchell has been appointed as Associate Director, Division of Pediatric Hematology-Oncology, effective June 1, 2013.

Dr. Ruth Russell has been appointed as Director of the newly approved Training Program in the Division of Child Psychiatry of the McGill University Department of Psychiatry.

Recruitment

Dr. Kolya Eppert has accepted a position as Full-Time Assistant Professor, Tenure Track, in the Department of Pediatrics, Faculty of Medicine, effective January 1, 2013. He has research, teaching and other academic duties in the Division of Pediatric Hematology-Oncoology and is an active member of the MUHC and MCH Research Institutes. Dr. Eppert obtained his Bachelor of Science (Biology-Chemistry) at the University of New Brunswick (1993) and obtained his M.Sc. at University of Toronto.
(1998), followed by a Ph.D. in the Department of Molecular and Medical Genetics (2005) at University of Toronto. His research affiliations have been with the Department of Molecular Genetics at the University of Toronto, the Program in Cancer Stem Cells at Ontario Institute for Cancer Research and at various institutions in Ontario.

**Dr. Anne-Marie Goyette** has accepted a position as Full-Time Assistant Professor Clinical (Contract Academic Staff) in the Department of Pediatrics, at McGill University and as staff physician within the Division of General Pediatrics and Child Development Program of the Montreal Children's Hospital of the MUHC, **effective April 1st, 2013**. Originally an occupational therapist, Dr. Goyette obtained her medical degree from the University of Montreal (2006). She completed her Pediatrics Residency at the Children's Hospital of Eastern Ontario (2006-2010), followed by her Fellowship training at McGill University (2010-2012) in Developmental-Behavioral Pediatrics.

**Dr. Raphael Paquin** has accepted a position as Full-Time Assistant Professor Clinical (Contract Academic Staff) in the Department of Pediatrics, at McGill University and as staff physician within the Division of Emergency Medicine of the Montreal Children’s Hospital of the MUHC, **effective April 1st, 2013**. Dr. Paquin obtained his medical degree from the University of Montreal (2005) and has acquired expertise in Pediatric Emergency Medicine. He completed his first year residency in Family Medicine at Hôpital Maisonneuve-Rosemont, followed by Pediatrics Residency at the University of Saskatchewan at the Royal University Hospital Saskatoon (2006-2008), and at Centre hospitalier Sainte-Justine (2008-2009). He completed his Pediatric Emergency Medicine Fellowship at the Alberta Children’s Hospital, University of Calgary (2009-2011).

**Dr. Catherine Vézina** has accepted a position as Full-Time Assistant Professor Clinical (Contract Academic Staff) in the Department of Pediatrics, at McGill University and as staff physician within the Division of Hematology-Oncology of the Montreal Children’s Hospital of the MUHC, **effective February 4, 2013**. Dr. Vézina obtained her medical degree from the Université Laval (2004). She completed her Pediatrics Residency at the Université de Sherbrooke (2007), followed by her fellowship training in Pediatric Hematology-Oncology at McGill University (2011). In 2012, Dr. Vézina completed her formation complémentaire in hemostasis at Hôpital Ste-Justine and the Université de Montréal.

---

**Division Directors’ Review**

**Dr. Larry Lands’** mandate, as Director of Pediatric Respiratory Medicine, has been renewed for a period of five years, ending in August 2017.

**Temporary Replacement**

**Dr. Harold Rich** is doing a temporary replacement for **Dr. Mylene Dandavino**, from January 1, 2013 to July 31, 2013.

**Dr. Lisa Anne Rasmussen** is doing a temporary replacement for **Dr. Maryam Oskou**, from October 1, 2012 to September 1, 2013.

**Dr. Jennifer Turnbull** is doing a temporary replacement for **Dr. Suzanne Vaillancourt**, from February 20, 2013 to September 30, 2013.

**Dr. Samir Hussain** is doing a temporary replacement for **Dr. Maala Bhatt**, from January 21, 2013 to June 21, 2013.

**Ms. Alessandra Tedeschi** is doing a temporary replacement for **Ms. Olga Dolghi**, as McGill Administrative and Student Affairs Coordinator, effective April 1, 2013 to March 31, 2014.

**Parental Leave**

**Dr. Marie-Emmanuelle Dilenge** is on parental leave as of January 30, 2013 to January 1, 2014.

**CONGRATULATIONS TO**

**Dr. Frederick Andermann** for having marked an extraordinary milestone representing 50 years of service at the MUHC.

**Dr. Alice Chan-Yip** for having been awarded the Queen Elizabeth II Diamond Jubilee Medal. This medal is awarded to Dr. Chan-Yip in recognition of her rank as an appointee to the Order of Canada and her contributions to McGill University.

**Dr. Aurore Côté** for having marked an extraordinary milestone representing 25 years of service at the MUHC.

**Dr. Patricia Forbes** for having marked an extraordinary milestone representing 45 years of service at the MUHC.

**Dr. Hy Goldman** for having been awarded the Queen Elizabeth II Diamond Jubilee Medal. This medal is awarded to Dr. Goldman in recognition of his dedicated service to his peers, to his community and to Canada.

**Dr. Richard Gosselin** for having been named to the Faculty Honour List for Educational Excellence in recognition of his contributions to teaching in the Faculty of Medicine.
**and to...**

**Dr. Ronald Gottesman** for having marked an extraordinary milestone representing 25 years of service at the MUHC.

**Dr. Lily Hechtman** for having marked an extraordinary milestone representing 40 years of service at the MUHC.

**Dr. Christos Karatzios** for having been the recipient of the 6th Annual Hellenic Achievement Award by The Socrates Educational Foundation (SEF).

**Dr. Johanne Morel** for having marked an extraordinary milestone representing 25 years of service at the MUHC.

**Dr. Augustin O’Gorman** for having marked an extraordinary milestone representing 40 years of service at the MUHC.

**Dr. Gary Pekeles** for having been one of the recipients of this year’s CPS Life Membership Award in recognition of his long-time service to the CPS. In addition, Dr. Pekeles has represented the CPS at a Decision Meeting (the city of choice by the International Congress of Pediatrics members for hosting the 2016 ICP Congress). Having presented very strong arguments in favor of Vancouver, the latter was the final choice for the site hosting the 28th ICP.

**Dr. Janet Rennick** for having been selected to receive a 2011-2012 Ingram School of Nursing Award for Excellence in Preceptorship/Advising.

**Dr. Celia Rodd** for having been selected as this year’s recipient of the Paige and Bernard Kaplan Award given by the pediatric residents annually to a staff member for teaching excellence.

**Dr. Rima Rozen** for having been awarded the Queen Elizabeth II Diamond Jubilee Medal. This medal is awarded to Dr. Rozen in recognition of her dedicated service to her peers, to her community and to Canada.

**Sylvie Sahyoun** for having marked an extraordinary milestone representing 25 years of service at the MUHC.

**Dr. Ernest Seidman** for having been honored with the renewal of his Tier 1 Canada Research Chair in Immune Mediated Gastrointestinal Disorders.

**Dr. Stephen Treherne** for having marked an extraordinary milestone representing 25 years of service at the MUHC.

**Dr. Davinia Withington** for her 20 years of service in the McGill Anesthesia Department.

**Dr. Betty Zylbergold-Shonfeld** for having marked an extraordinary milestone representing 30 years of service at the MUHC.

---

**CONGRATULATIONS TO THE DELIGHTED PARENTS**

**Olga Dolghi* and her husband Alexei on their baby girl (Rusandra), born on March 4, 2013.**

*Olga is the Administrative Student Affairs Coordinator – PGME.

**Dr. Emmett Francoeur and his wife Patty O’Connor on the wedding of their daughter Maeve Francoeur to Greg Dobney on September 15, 2012, as well as the wedding of their son, Dr. Conall Francoeur to Julie Dunn, on February 16, 2013.**

---

**Weekly Departmental Acknowledgements**

**January 2013**

11 - PICU (9D) and NICU (9C) teams, house staff, nursing together with palliative care, social work and pastoral services

18 - Dr. Sherif Emil

25 - Dr. Margaret Berry

**February 2013**

1 - Mher Barbarian, Samantha Dankoff, Juan Irahetza, Alicia Lambrinakos-Raymond, Maya Leitner & Nina Nouraeyen

8 - Dr. Christine Lejtenyi

15 - Dr. Holly Agostino

22 - Drs. Genevieve Bernard, Nancy Braverman, Indra Gupta and Nada Jabado

**March 2013**

1 - Dr. Anne-Marie Sbrocchi and her team

6 - Dr. Evelyn Constantin

15 - Dr. Preetha Krishnamoorthy

22 - Dr. Richard Gosselin

29 - Dr. John Mitchell

**April 2013**

5 - Dr. Shuvo Ghosh

12 - Dr. Laurie Plotnick

19 - Drs. Claudette Bardin & Chris Karatzios (Dancing with the Docs)

26 - Dr. Nada Jabado

**May 2013**

3 - Drs. Moshe Ben-Shoshan, Patricia Li, & Maryam Oskoui

10 - Dr. Janet Rennick

17 - Dr. Meranda Nakha

26 - Debbie Friedman
MCGILL FACULTY OF MEDICINE

NEWS FROM THE MCGILL PEDIATRIC RESIDENCY PROGRAM COMMITTEE (RCP)

In this bulletin, I would like to first take the opportunity to report on the Royal College's Accreditation visit of the Pediatrics program, which took place in March. The reviewers commented on various positive aspects of the program, including the culture of teaching and learning in the Department of Pediatrics, our openness to residents' input, a strong simulation program, the access to a diverse patient population, and the resident led RHALY (Residents for Healthy Active Living in Youth) program.

Two areas were identified which will require improvement: the further development of one45 forms for each rotation, which is now a Royal College requirement, and the further improvement of Information technology resources. The reviewers recommended the full accreditation of the Pediatrics program, recommendation which requires final approval from the Royal College later this fall.

Secondly, we will be welcoming our new R1s in June. From June 17th to 21st, the graduates from schools other than McGill will be participating to an orientation week at the MCH, during which they will act as observers on our various Clinical Teaching Units and meet with representatives from various health professions. On June 27th, we'll have our Annual Welcoming Party, where each of you is invited. Information on time and location will be provided in late June. Our Annual R1 orientation day will take place the following day, on Friday June 28th. Last, all of the R1s will be taking the Neonatal Resuscitation Program (NRP) at the Simulation Center on Tuesday July 2nd, before they officially start on their various rotations on Wednesday July 3rd.

Last, a word about our finishing R4s: Robert Sternszus and Elisa Ruano-Cea will both be starting a fellowship in Academic Pediatrics at the MCH, doubled by a Masters in Health Sciences Education, while Ahlam Mazi and Majed Al Abdulhafid will enter a specialty program at McGill, respectively in Pediatric Respiriology and in Pediatric Critical Care. Good luck to each of our finishing seniors!

Richard Gosselin
Director, Pediatric Residency Program

CONGRATULATIONS TO THE NEW CHIEF RESIDENTS

Dr. Nina Nouraeyan and Dr. Olivier Drouin have been selected as Chief Residents in Pediatrics, for the period from March 18, 2013 to May 9, 2014.

NEW APPOINTMENTS - CONGRATULATIONS TO

Dr. Ronald Gottesman for having been appointed as Interim Director of the Arnold and Blema Steinberg Medical Simulation Centre, Faculty of Medicine, McGill University.

CONGRATULATIONS TO THE FOLLOWING STAFF MEMBERS ON THEIR PROMOTION

Dr. Nancy Braverman on having been granted a tenure-track position with reappointment to the rank of Associate Professor, both effective June 1, 2013.

Dr. Evelyn Constantin on her promotion to the rank of Associate Professor (Clinical) Contract Academic Staff, effective February 1, 2013.

Dr. Preetha Krishnamoorthy on her promotion to the rank of Associate Professor (Clinical) Contract Academic Staff, effective February 1, 2013.

Dr. John Mitchell on his promotion to the rank of Associate Professor (Clinical) Contract Academic Staff, effective February 1, 2013.

MCGILL GLOBAL CHILD HEALTH PROGRAM

McGill Middle East Program in Civil Society and Peace Building (MMEP)

Dr. Martin Bitzan, in collaboration with the McGill Middle East Program in Civil Society and Peace Building (MMEP) and the McGill Global Health Program visited An-Najah University in the Westbank City of Nablus between January 6 and 8, 2013 in response of the request by the An-Najah Faculty of Medicine to have some of their young pediatric faculty trained in specialties of need. Heading this list are Developmental Pediatrics and Nephrology, but others may follow. An-Najah is the largest and highest ranking, full-fledged Palestinian University with 57% female students, including a faculty of Medicine with a vibrant core of medical students and various residency programs. A modern teaching and referral hospital is under construction. Hosted by the dynamic Vice Dean for graduate studies, Dr. Musmar, and Deputy President of strategic affairs, Dr. K. Rassas, Dr. Bitzan witnessed the need for subspecialists to build the type of facilities we take for granted and that are essential to serve the local population. In addition to giving lectures to medical students and pediatric residents and rounding with the pediatric team on select renal patients, he spent time...

PEdiATRIC ResiDENT & FELLOw RESEARCH COMPETITION

CONGRATULATIONS TO

Dr. Maude Millette (Endocrinology) for having been first runner-up at the 25th Annual National Pediatric Resident and Fellow Research Competition in Winnipeg on May 9, 2013.
Discussing the framework of post-graduate medical education at McGill and how to proceed with select, high-caliber trainee candidates. The impression of the visit and the potential for meaningful academic exchanges was only marred by unusually heavy rains and cold. It is hoped that by involving the MMCP in the envisioned collaboration will keep communication lines open between other McGill partners in the region, specifically with Ben Gurion University in Beer Sheva, Israel.

THE MONTREAL CHILDREN’S HOSPITAL (MCH) OF THE McGILL UNIVERSITY HEALTH CENTRE (MUHC)

MCH-CPDP Executive Committee
The elected members forming the 2013-2014 Executive Committee are:
Dr. Lila Amirali
Dr. Richard Haber
Dr. Christos Karatzios
Dr. Catherine Millar
Dr. Véronique Morinville
Dr. Melvin Schloss

MCH-CPDP
The new Vice-Chair for the MCH CPDP was elected by acclamation on May 31, 2013.
Congratulations to Dr. Catherine Millar.

Exemption from the Royal College Accreditation
Remarkably, 5 residency training programs (MER, Neurology, CCM, Rheumatology and Nephrology) in the Department of Pediatrics were exempted from going through the Royal College Accreditation.
Congrats on this accomplishment!

MCH Endocrinologist Motivates Students to Pursue a Career in Medicine
The Montreal Children’s Hospital hosted a two-hour event for over 30 high school students from the English Montreal School board on Thursday, January 17, 2013. The students, who are all interested in pursuing careers in medicine, had the opportunity to speak with Preetha Krishnamoorthy. The latter spoke frankly about her career and the importance of balancing a busy family life.

World Masters Cross Country Ski Championship!
Dr. Geoff Dougherty participated in the World Masters Cross Country Ski Championship in Asiago, Italy, from February 13 to February 23, 2013. He skied three races: 10, 30 and 45 kms.

THE RESEARCH INSTITUTE AT THE MONTREAL CHILDREN’S HOSPITAL OF THE McGILL UNIVERSITY HEALTH CENTRE

EXTERNAL FUNDING RESULTS
Dr. Moshe Ben-Shoshan has received a Junior 1 Chercheur-boursier clinicien career award and an establishment grant from the Fonds de recherche–Santé Québec (FRQS) in support of his research entitled “Anaphylaxie induite par l'alimentation : taux, les causes et la gestion.”
Dr. Geneviève Bernard has been awarded a grant of $453,883 over a three-year term from the Canadian Institutes of Health Research (CIHR) to study “Clinical, molecular and pathophysiological characterization of Pol 111-related leukodystrophies.”

Dr. Nancy Braverman has received a grant of $698,311 for a three-year term from the CIHR in support of “The peroxisome biogenesis disorders: From bench to bedside.” A comparable grant, written by Dr. Braverman, was approved for a recent Alberta Innovates Health Solutions award valued at $2.5 million over a five-year term.

Drs. Karen Brown and Guilherme Sant’Anna, in collaboration with principal investigator Dr. Robert Kearney of McGill University and colleagues from McGill and Wayne State universities, have received a grant of $570,760 from the CIHR in support of “Prediction of extubation readiness in extreme preterm infants by the automated analysis of cardiorespiratory behavior.”

Dr. Kolja Eppert has been awarded a Tier 2 Canada Research Chair from the CIHR for a five-year term.

Dr. Beth Foster has received a Senior Chercheur-boursier clinicien career award from the FRQS in support of her research entitled “Optimiser l’observance aux medicaments chez les jeunes receveurs d’une greffe.” Dr. Foster’s application for this award was one of two awarded in Quebec (the other went to Dr. Caroline Quach) in the senior chercheur-clinicien clinical and epidemiological category.

Dr. Patricia Fontela has received a Career Development Salary Award from the CIHR Canadian Child Health Clinician Scientist Program in support of “Procalcitonin: a new test to improve safety of antimicrobial prescription in pediatric intensive care units.”

Dr. Isabelle Gagnon leads a recently approved team grant from the CIHR and FRQS entitled “Generating innovation through the use of common data: Improving the diagnosis and treatment of pediatric and adolescent mild traumatic brain injury in Canada.” Valued at $1.37 million over a five-year term, the project comprises 23 investigators from several sites in Ontario, Quebec, Alberta and British Colombia. Dr. Gagnon is also co-investigator on a newly funded five-year team grant worth $1.27 million, led by Dr. Roger Zemek of the Child Health Clinician Scientist Program in support of “Biomarkers for pediatric glioblastoma through genomics and epigenomics.”

Dr. Maryam Oskoui has received a Junior 1 Chercheur-boursier clinicien career award and an establishment grant from the FRQS in support of her research program “Prévalence et utilisation des soins de santé chez les enfants atteints de paralysie cérébrale au Québec.”

Dr. Indra Gupta has been awarded a grant of $590,440 over a five-year term from the CIHR to study “Vesico-ureteric reflux and reflux nephropathy: from mouse models to childhood disease.” In addition, Dr. Gupta has received a five-year grant of $673,530 from the CIHR in collaboration with principal investigator Dr. Tomako Takano of McGill University to study “Role of PhoG Diazp peroxisome biogenesis disorders: From bench to bedside.” Further, together with co-investigator, Dr. Aimee Ryan, Dr. Gupta has received a two-year grant of $100,000 to study “Claudin function in kidney development and in disease.”

Dr. Nada Jabado has received a five-year grant of $788,500 from the CIHR in support of “Role of chromatin remodeling in the genesis of pediatric and young adult astrocytomas.” In addition, she leads a team of investigators across Canada that has received a grant of more than $5 million over a four-year term from Genome Canada/Genome Quebec in partnership with the CIHR, Canadian Stem cell Consortium, McGill University, the Montreal Children’s Hospital Foundation and the Foundation of Stars. This project studies “Biomarkers for pediatric glioblastoma through genomics and epigenomics.”

Dr. Patricia Li has received a Junior 1 Chercheur-boursier clinicien career award and an establishment grant from the FRQS in support of her research program “La qualité des services de première ligne chez les enfants au Québec et au Canada : recherche appliquée sur les services de santé visant à évaluer l’organisation de la première ligne et à améliorer la prestation des soins.” Furthermore, Dr. Li has received a three-year project grant of $270,000 from the FRQS in support of “Association entre la réforme des services de première ligne, la qualité des soins et l’utilisation des services d’urgence chez les enfants vulnérables au Québec, Canada : une étude populationnelle.” This study will be undertaken in collaboration with Dr. Aurore Côté and colleagues from McGill and Laval universities.

Dr. Caroline Quach has received a Senior Chercheur-boursier clinicien career award from the FRQS in support of her research program “Évaluation d’une intervention de promotion de la vaccination en maternité au Québec.”
Finally, she has been awarded a three-year grant of $122,812 from the Canadian Cystic Fibrosis Foundation for “Safety of live-attenuated influenza vaccine in patients with Cystic Fibrosis.”

Dr. Saleem Razak, in collaboration with principal investigator Dr. Cynthia Whitehead from the University of Toronto and colleagues from the universities of Toronto and Victoria, has received a three-year grant of $242, 261 from the CIHR in support of “Better education for better teamwork: Understanding the discourses to improve the practices of interprofessional education.”

Dr. Janet Rennick has received a Junior 2 Chercheur-boursier clinicien career award from the FRQS in support of her study, “Comprendre et prévenir les séquelles psychologiques chez les enfants gravement malades.”

AWARDS AND HONOURS
Congratulations to...

Dr. Lily Hechtman, who received the Transcontinental Research Award of Excellence from the Montreal Children’s Hospital Foundation. This prize is awarded to a researcher whose initiatives have made a unique and significant contribution to pediatric care.

IN MEMORIUM

Dr. Claude Gervais died tragically in an accident on December 11, 2012, while on vacation in St-Vincent with her husband Dr. Ray Wiss and their two daughters Michelle and Julianne.

Dr. Gervais went to medical school in Sherbrooke and did her pediatric residency at the Montreal Children’s Hospital. She then practised in Val d’Or for several years before moving to Sudbury where she taught at the medical school. She worked as a Clinical Assistant at the NICU of the RVH and at the Neonatal Follow-Up Clinic of the MCH. Dr. Gervais will always be remembered for her casual grace and easygoing smile, her red hair, and her stories about her husband and two little girls back home in Sudbury. During her years at the MUHC, she was greatly admired and respected for her degree of commitment to the patients. Our condolences go out to her family.

OUR CONDOLENCES GO OUT TO

Dr. Bernard Rosenblatt on the loss of his father, Mr. Henry Rosenblatt, who passed away on February 20, 2013.

Dr. Charles Rohlicek on the loss of his mother, Mrs. Milada Rohlicek, who passed away on March 16, 2013.

DEPARTMENTAL GENERAL ANNUAL MEETING

Wednesday, November 27, 2013
8:00 a.m.

Forbes-Cushing Amphitheatre (D-182)

Breakfast will be served at 7:30 a.m.

YOU ARE ALL ENCOURAGED TO ATTEND

Department of Pediatrics NEWSLETTER is published by the Office of the Chair of the MCH, Department of Pediatrics.
