Improving Zebrafish Welfare:
The Role of Husbandry and System Design

Join us on Tuesday, March 14th for a Seminar
hosted by

RI-MUHC

Date: March 14th | Time: 9:00 am – 10:30 pm
Location: ES1.1129 – Glen Site
Research Institute Auditorium
Hosted by: Josh Ejdelman

RSVP by March 10th to Brendan Delbos: brendand@aquaneering.com
Brendan mobile: 757-773-1535  Aquaneering Headquarters: 858-578-2028

Refreshments will be provided

We will discuss ways to optimize zebrafish health and welfare through:

System Design and Operation
Water Quality Management
Feeding Techniques
Breeding
Q&A Session at the End of the Presentation

This event is open to postdocs, graduate students, and others interested in learning more about improving zebrafish welfare.
