A Freaky Fridays Special Event
Co-hosted by the Department of Physics

Where: Auditorium Redpath Museum, 859 Sherbrooke Street West, Metro McGill or Peel. Seating is limited. No reservations necessary.
When: Friday, January 19, 2007, 4 PM
Cost: $5 at the door. The proceeds from this series will fund the construction of a giant origami Pteranodon to be suspended above the Museum's dinosaur.

Big Questions and More Big Questions...

Freaky Fridays and the Department of Physics are proud to present segments of Big Questions and More Big Questions, the critically acclaimed science television series produced by ABC Australia, featuring renowned physicist Paul Davies The showing will be introduced by Professor Gil Holder of the Department of Physics.

Paul Davies will be at McGill University on Thursday, January 25th, 2007 to participate in the second annual Lorne Trottier Public Science Symposium, A Cosmic Coincidence: Why is the Universe Just Right for Life?, along with Professors David Gross, George Efstathiou and Leonard Susskind. The Department is also hosting an online Big Question Contest. The winning entrant will be invited to attend the Symposium to ask their Big Question of these giants of physics.

To enter the online contest visit: http://www.physics.mcgill.ca/events/trottier-symposium/bigcontest.html
