(a) Report from the Faculty of Arts [00-SCTP-05-52 REVISED]

B.A.; Minor Concentration in Catholic Studies (18 cr.)

The Chair explained that the course prefix has been assigned for the Catholic Studies Program, and that the course proposals have been resubmitted with the new prefix (190). These new courses were approved at the SCTP meeting of May 11, 2000. The Commission des Universités sur les programmes (CUP) report (no. 4, June 1998) was circulated to SCTP members and Professors Farrow and Masi, as this report was referred to by Mr. Berthiaume at the May 11, 2000 SCTP meeting. Professor Crago noted that the Faculty of Religious Studies (FRS) had been consulted by the Faculty of Arts concerning the proposed program and courses, write-offs were received from FRS, but correspondence from FRS dated May 5, 2000 queried course ownership for three courses proposed by the Faculty of Arts. Professor Crago invited Professor Henderson to elaborate on FRS's concerns for the proposed program. Professor Henderson remarked that there was general consensus for support of this new program proposal by FRS, with the exception of courses 190-310 Catholic Intellectual Traditions, 190-315 Catholicism and Moral Culture, and 190-320 Scripture and Catholicism. After reviewing the course descriptions and reading lists for these courses, FRS would like to see these three courses offered under the FRS prefix 260 as they felt they were clearly religious studies content. Professor Crago queried if FRS had the staff to teach the three courses. Professor Henderson responded that there were capable, tenured staff in FRS available to teach these courses. Mr. Berthiaume commented that FRS perceived the reading lists as theology courses, and he queried if philosophy students would perceive these reading lists in a theological point-of-view. Professor Henderson responded that, according to him, these courses were definitely theology courses. Professor Crago queried a recent report submitted by Professor Bruce Trigger of the Faculty of Arts to the Board of Governors concerning the relationship of FRS and the Faculty of Arts. Professor Henderson responded that the report (dubbed the "Trigger Report") proposed that the Faculty of Religious Studies should eventually be incorporated into the Faculty of Arts, but not until after a period of closer collaboration between the two faculties. Professor Masi commented that the timing was right and now was a good time for the change. In response to a query from Professor Spada, Professor Henderson remarked that the rationale in the "Trigger Report" for FRS being incorporated into the Faculty of Arts was that it would be easier to administer. Professor Beraha queried if the students in the proposed program would be well served in this 18-credit program if some of the courses were administered by another faculty. Professor Henderson responded that the students would be well served, the

Catholic Studies Program Chair would not be a tenured position, other courses would be moral courses, and that it would be a good idea to have the three Roman Catholic courses taught by FRS. He referred to the discussion of the CUP report at the May 11 SCTP meeting and commented that CREPUQ would not object if the Faculty of Religious Studies at McGill University offered a minor program in Catholic Studies, even if it overlapped with what was offered by Concordia University. Mr. Berthiaume commented that the Québec government wanted to abolish overlapping programs, and the government might perceive this as McGill failing to comply with their recommendations.

The Chair invited Professors Masi and Zucchi to voice the concerns of the Faculty of Arts. Professor Masi mentioned that one of the formal issues was that FRS offered a limited number of programs, and that B.A. in Religious Studies are the degrees offered by the Faculty of Arts. He commented that the Faculty of Arts definitely had the capability to administer religion and Catholicism programs. Professor Zucchi reiterated that a contribution was received by the Faculty of Arts for an endowed Chair for a Catholic Studies Program. Concerning courses 190-315 and 190-320, changes to the description were verbally requested by Professor Farrow of FRS and these changes were done. Verbal confirmation by FRS was received that these courses were acceptable. Professor Spada queried if any discussions with FRS involved the idea of cross listing courses 190-310, 190-315, and 190-320. Professor Zucchi responded that it was discussed, but FRS has now requested that these three courses be offered under the FRS prefix (260). Professor Masi indicated that the Curriculum Committee of the Faculty of Arts did consider the possibility of cross listing some courses but it was not approved. Professor Henderson remarked that this was not an FTE issue with the Faculty of Religious Studies. The Chair thanked Professors Henderson, Masi, and Zucchi for their attendance at this meeting.

Following further discussion by SCTP, the committee approved this new program as submitted and it will be forwarded to APPC for approval. The Chair commented that a copy of the summary of the “Trigger Report” would accompany the program proposal to APPC.

(b) Report from the Faculty of Management [00-SCTP-05-49 REVISED]

Minor in Technological Entrepreneurship for Science Students (18 cr.)

The Chair indicated that the Faculty revised the title of this proposal from the Minor in Technological Entrepreneurship after consultation, to differentiate the program offered to students in the Faculty of Engineering. She commented that the Faculty of Science requested that the Faculty of Management offer a similar technological entrepreneurship program for Science students as offered to the Engineering students. The committee suggested that the title of the program be revised as follows: “Science Minor in Technological Entrepreneurship.” This new program was approved with this change and it will be forwarded to APPC for discussion.

270-466A,B Tech. Entrepreneurship Project (3 cr.)

The Chair commented that the credit weight for this course was not indicated on the proposal. The committee suggested that the course description be revised to read as follows: “Project involving a small or medium company in the high technology field.” *Secretary’s note:* Confirmation was received from Acting Dean A. Duff of the Faculty of Management that this course was proposed as 3 credits. This new course was approved with this change.

271-210A,B Accounting for Managers (3 cr.)

This new course was approved.

(c) Report from the Faculty of Education [00-SCTP-05-53 REVISED]

Graduate Certificate in Educational Leadership (15 cr.)

The Chair commented that confirmation was received from Associate Dean Mary Maguire of the Faculty of Education that the bullets would be removed from the bulleted courses. The revised program proposal was reviewed. The committee approved this new program and it will be forwarded to FGSR for discussion.

(d) MSE Domains

The Chair explained that this document was distributed to APPC at a recent meeting. The document explained the direction of the various “domains” offered by the McGill School of Environment [MSE] in the four thematic areas. The document also contained registration statistics within the various domains and the growing fields. In response to a question by professor Beraha, the Chair indicated that the gender statistics was useful for the five-year review of the MSE “domains”, which will be submitted to APPC in the future. The Chair explained that the “domain” definition was acceptable by APPC as this was unique nomenclature especially for MSE programs. It was originally thought that these programs would be proposed as majors. Professor Madramootoo remarked that a “domain” could span many multidisciplines and this was a good reason not to propose the “domains” as majors. The Chair explained that an “option” was a choice in a single area, whereas a “domain” encompassed many areas. She commented that APPC requested that the MSE submit a comparison of what other universities offered.

(e) Report from the Faculty of Arts [00-SCTP-03-37 REVISED (06/6)]

Departments of Economics, Geography, Political Science, and Sociology

M.A. in Economics; Non-Thesis - Social Statistics Option (48 cr.)

M.A. in Geography; Social Statistics Option (48 cr.)

M.A. in Political Science; Non-Thesis - Social Statistics Option (48 cr.)

M.A. in Sociology; Non-Thesis - Social Statistics Option (45 cr.)

The committee agreed that the revised side-by-side comparison tables were very well done and much easier to understand. The Chair explained that the Research Paper worth 24 credits already existed in the Department of Political Science and that Professor Rytina was not in a position to make the revision of decreasing the Research Paper to 18 credits [as per the new policy in the Faculty of Graduate Studies and Research (FGSR)]; this is a revision which would have to be done by the Department of Political Science. The committee approved these new options pending a complete set of signatures of all departments involved. These proposals will be forwarded to FGSR for discussion.

The committee noted that alternative Required Courses were listed in the U2 and U3 lists (186-510 OR 186-330 was indicated in both lists). The Chair of the Department should provide the committee with a write-off for the alternative Required Courses to confirm that the content of both courses were almost identical. If they are not identical, then the program would have to be revised to list the alternative courses in the list of Complementary Courses. This write-off should be sent to the SCTP Secretary, Cindy Smith, fax: 4768 or e-mail: CINDY@UMS1.LAN.MCGILL.CA. The Chair of SCTP will approve this program revision on behalf of the committee if all is in order.

FOR INFORMATION ONLY:

The following proposals were reviewed by the Faculty of Science Academic Committee:

- Faculty of Arts: B.A.; Minor Concentration in Science for Arts Students;
- School of Computer Science: Diploma in Information Technology - title correction from the Graduate Diploma in Information Technology.

Correction: January 6, 2000 – minor change for Department of Biology course 177-365 incorrectly indicated the title as “Conservation” on the proposal form (and consequently reported to APPC and Senate as such). The course proposal form should have indicated the title as “Conservation Biology”, as a title change was not proposed for this course.

There being no further business, the meeting adjourned at 4:40 pm.
