

Faculty of Education

School of Information Studies

Annual Report 2007-2008

France Bouthillier
Director

Section I – Description of Unit

The **School of Information Studies (SIS)**, formerly known as the Graduate School of Library and Information Studies, focuses on the identification, acquisition, organization, retrieval and dissemination of information to meet people's needs in diversified information, knowledge and learning environments. It currently offers four graduate programs: Master of Library and Information Studies (MLIS), Graduate Certificate and Graduate Diploma in Library and Information Studies, and Ph.D. (Ad Hoc). The MLIS is a 48-credit course-based program designed to train information professionals and has

been continuously accredited every seven years by the American Library Association since 1927. SIS offers one of the seven accredited MLIS programs in Canada. The main goal of the MLIS program offered at McGill University is to provide the intellectual foundation for careers in archival studies, knowledge management and librarianship.

SIS has comprised nine professors since January 2008 (as one professor retired at that time), an Administrative Assistant, a Student Affairs Coordinator, a Graduate Secretary, and a Professional Associate. The research projects conducted by SIS professors and funded by various grant agencies fall under four clusters: study of information seeking behaviour of various groups; information resources in context; knowledge management and representation; and human computer interaction.

As stated in the School's Strategic Plan, the main goals and objectives for 2007-2008 were:

- To continue developing and reviewing our programs to adequately meet the needs of our constituencies;
- To establish an infrastructure for supporting our research areas;
- To develop new research initiatives both at the national and international levels;
- To revamp the School's website.

After numerous discussions and consultations, the School's new name was approved by Senate in June 2007. This change was critical for better communicating the nature of the School and for modifying our website. Our new website, using the McGill template, is now accessible. The site visit of the CREPUQ's *Commission d'évaluation des projets de programmes* took place in September 2007 as planned, and the School received the formal approval of the official Ph.D. program by the Ministry of Education, Leisure and Sports in August 2008. In terms of infrastructure, discussions and plans about the physical move of the School have continued. Six new research grants have been granted to SIS professors as principal investigators and co-investigators. The goals and objectives for year 2008-2009 will be discussed with the new Dean, Dr. Hélène Perrault, who was appointed in August 2008. It is planned, however, to devote significant time and effort to the re-accreditation of the MLIS program as the External Review Panel visit is scheduled in September 2009; to the renovation and move to the School's new building; to the implementation of the official doctoral program; and to do a publicity campaign for both the MLIS and Ph.D. programs.

Section II. Past year's activities (2007-2008)

Highlights:

New Research Grants and Awards

Professors Kimiz Dalkir and Jamshid Beheshti received a grant from the Social Sciences and Humanities Research Council of Canada (\$36 000) to develop a theoretical model for

knowledge management in higher education particularly in relation to sharing and preserving critical know-how. Professor Joan Bartlett is co-investigator on a collaborative research grant awarded by the Social Sciences and Research Council of Canada (**\$101,654**) with Professor Martin Dawes (Family Medicine, McGill University) as principal investigator and co-investigators from McGill, McMaster and the Université de Montréal. The grant will be used to study refining access to health information using a novel indexing approach. Professor Eun Park received a grant (**\$41, 782**) as a co-investigator with Professor Claudia Mitchell and Naydene de Lange (South Africa) from the National Research Foundation in South Africa to study the digitization and data management of visual data.

Professor Catherine Guastavino is co-investigator on a collaborative research grant awarded by the Fonds de recherche sur la société et la culture (FQRSC) with Professor Fujinaga (Faculty of Music, McGill University) as principal investigator. The grant of **\$59, 454** will be used to study how to best preserve and archive Quebec's heritage musical recordings that were made on a variety of technical supports over a century. The interdisciplinary project aims at investigating audio quality, from a technical and perceptual point of view, in the context of digitization.

Professor Guastavino is also co-investigator on a project funded by the National Sciences and Research Council of Canada, the Consortium for Research and Innovation in Aerospace in Quebec, and CAE and Bombardier corporations, and conducted in collaboration with the Université de Sherbrooke. The funds (**\$891 000**) will be used to develop and implement methods to build an acoustic simulator to emulate the acoustic environment of aircraft cabins and cockpits. Sound reproduction in cockpit simulators and cabin mock-ups is considered an essential component in a virtual environment that adds ambience, emotion, and enhance the sense of presence to the simulation for pilot training. The research will provide a program of systematic evaluation of human responses within a virtual environment. In addition, Professor Guastavino, in collaboration with 22 researchers of the Centre for Interdisciplinary Research in Music Media and Technology (CIRMMT) at McGill University, was instrumental in obtaining a very competitive grant of **\$1,8 M** awarded by FQRSC and the Fonds de recherche sur la nature et les technologies (FQRNT). The grant will provide subsidies to CIRMMT for six years to support its research initiatives. Prof. Catherine Guastavino and her colleagues received the European Acoustics Association (EAA) 2008 award for outstanding scientific results published recently in *Acta Acustica united with Acustica* for their paper "Ecological validity of soundscape reproduction" (2005) v. 91. The award ceremony took place in Paris in July at the Acoustics '08 Conference.

New Ph.D. Program in Information Studies

The official Ph.D. program in information studies was approved following a thorough

assessment by CREPUQ. This new program will be the only one offered in English in Quebec, and only the fourth one offered in Canada.

New Promotions and Appointments

Professors Kimiz Dalkir and Eun Park have been both promoted to the rank of Associate Professor. Professor Dalkir teaches and does research in the area of knowledge management, communities of practice and intellectual capital. Professor Park is active in the area of archival studies, metadata, and management of electronic records. Professor Catherine Guastavino was appointed Associate Director Science and Technology Research at CIRMMT. Professor France Bouthillier has been reappointed as the School's Director for another three-year term ending in 2011.

Dr. Joy Bennett, a professional consultant who is teaching at the School, was appointed as an adjunct professor. In addition, three other experts at McGill were appointed Associate Members: Dr. Richard Virr, Curator of the Rare Book Collection; Dr. Pierre Pluye, professor in the Faculty of Medicine, Mr. Gordon Burr, Senior Archivist, McGill University Archives.; and Ms. Frances Groen, former Director of Libraries was appointed Affiliate Member. Finally, SIS welcomed two new post-doctoral students who were appointed to work with Professor Guastavino, Dr. Emma Murphy from Ireland and Dr. Ilya Frissen from The Netherlands.

New Student Fellowships and Awards

Two doctoral candidates, Mr. Charles-Antoine Julien, who is working with Professor John Leide on a project related to the visualization of information, and Ms. Jillian Tomm, who is supervised by Professor Peter McNally to study the collection of Raymond Klibansky, both received a doctoral fellowship from FQRSC. Ms. Rafa Absar, doctoral student supervised by Professor Guastavino, was awarded a similar fellowship from FQRNT, to study the use and integration of non-speech sounds in multimodal interfaces. Another doctoral student supervised by Professor Joan Bartlett, Ms. Lorie Kloda, was nominated by McGill University for the Eileen Peters Fellowship (\$20 000). Lorie, who is studying the information practices of rehabilitation therapists and who worked as a medical librarian before her doctoral studies, was also awarded the 2008 Thomson Scientific/Medical Library Association Doctoral Fellowship and the Canadian Library Association World Book Award.

Ms. Shazia Ahmad, MLIS'08, was awarded the newly established Teresa Troide Prize for Excellence in Information Studies for the highest academic standing over two years. The award was created last year in memory of Teresa Troide, an alumna of the School who worked as an information specialist at Canadian Pacific and Canadian National Railways, with the generosity of her husband, Professor Lars Troide, from the Department of English at McGill University.

Student Accomplishments

Ms. Janelle Ramsay, MLIS I student, was selected as the 2008 awardee for the SIS

Student representative to the Canadian Library Association Conference in Vancouver. Janelle was also selected for an internship at the United Nations headquarters in New York City.

Ms. Marie-Lou Riberdy, MLIS I student, received the Professional Leadership Award from the Education Graduate Students Society, for her contribution to the School as the president of BASIS (Bilingual Aspirations of the School of Information Studies).

MLIS I student Jennie Ferris has been named one of the winners of McGill's Cut the Red Tape contest. Her entry brought attention to inefficiencies in the process of administering federal student loans at McGill.

Valerie Nessel, doctoral candidate, was awarded the third prize for the Best Doctoral Student Poster at the recent 2008 conference of ALISE (Association for Library and Information Science Education), held in Philadelphia. She was third in the competition comprising over 60 doctoral students.

Ms. Amy Buckland, MLIS' 08, was nominated as one of the Movers and Shakers in the library and information studies community by the *Library Journal*, for her involvement in Second Life, a virtual space where libraries can offer services.

Ms. Trudi Wright, MLIS'08, was selected by SIS and supported by Library and Archives Canada to attend in Quebec City the International Conference of the Round Table on Archives.

International initiatives

Within the Indonesia Social Equity Project, SIS admitted three Indonesian students in the MLIS program. Prof. Guastavino was co-organizer of a special session (Cultural variations in sound/noise assessment) at Acoustics'08 (joint meeting of the 155th Acoustical Society of America (ASA) Meeting, 5th FORUM ACUSTICUM, 9th Congrès Français d'Acoustique) in Paris, and co-organizer a special session on sound quality (SS-ENV-10 Sound quality outdoors) at the 19th ICA (International Congress on Acoustics), in Barcelona, Spain, September 2007. Prof. Park is involved in a project aimed at developing knowledge-based digital government in Korea.

Collaborative activities

The annual conference of the Canadian Association for Information Science, held in Vancouver, was co-chaired by Professors Catherine Guastavino and James Turner, from the École de bibliothéconomie et des sciences de l'information (EBSI), Université de Montréal.

Teaching and Learning

The number of applications for the MLIS degree is still high with 196 applications

received for admission in Fall 2008. As usual, 46% of these applications came from other provinces and 20% came from international applicants. Due to space limitations, we could offer only 108 acceptances.

The average of MLIS course evaluations was again high this year and ranged from 3.9 to 4.16 out of 5 in Winter 2008.

Next Re-accreditation

The next re-accreditation of the MLIS program by the American Library Association is planned for 2010 and the site visit will take place in Fall 2009.

Graduate Students

Tables 1 and 2 show the headcount and WSUs for all the programs offered at SIS. The figures in these tables indicate that the total enrolment and the WSUs have increased significantly since 1999.

Table 1. Student Headcount Report

1999	2000	2001	2002	2003	2004	2005	2006	2007
134	161	164	173	167	164	168	176	182

Table 2. WSU Report

1999	2000	2001	2002	2003	2004	2005	2006	2007	2008
169	202	245	249	265	253	243	258	266	270

Ph.D. Program, Graduate Diploma and Certificate Programs

The Ph.D. (Ad Hoc) Program continues to attract applicants and this reflects the demand for doctoral studies in the LIS field. Currently, there are 22 students enrolled in the doctoral program. At the May Convocation, we had two new doctoral graduates. This brings our total number of doctoral graduates to twelve students over a period of sixteen years since the program was introduced. Hopefully, it will be possible to implement the new program next year as four new courses will have to be developed and approved during the academic year 2008-2009.

Student Funding

The results of the SIS survey among its master's and doctoral students are presented in table 3. They reveal that our students received more than \$524 415 which represents a significant increase, again in comparison to the funding last year (\$438 045) and the

previous year (\$342 480). This increase is explained by additional research assistantships, fellowships, scholarships, Quebec government bursaries, and travel grants awarded to our students.

Table 3. Student Funding at SIS 2007- 2008

Source of funding	Amount
Foreign Scholarships	\$75,000
Research Assistantships	\$103,290
SSHRC	\$39,038
FQRSC	\$39,500
McGill Fellowships	\$25,000
SIS Scholarships & Prizes	\$50,450
Fee waivers	\$ 8,905
Teaching Assistantships	\$9,580
Quebec Government Bursaries	\$62,104
Foreign Government Bursaries	\$49,000
Lectureships	\$20,000
Travel Grants	\$ 2,750
Graduate Assistantships	\$30,298
Indonesian Social Equity Project	\$ 9,500
TOTAL	\$524,415

Research

In 2007-2008, five SIS professors submitted 11 research grant proposals to various funding agencies, individually or collaboratively, and six proposals were approved and funded. Again this year, this represents a very good success rate and an increased involvement of SIS professors in various research teams. Major grants are provided by SSHRC, FQRSC, FQRNT, CFI, NSERC, and CIHR.. This year, seven professors are involved in 17 research projects. The productivity of SIS professors remains high both in terms of publications and presentation at conferences. Forty-five publications were issued in 2007 including 1 digital production, 4 book chapters, 15 refereed journal articles, 20 refereed conference proceedings, abstracts, and posters, and 5 other non –refereed publications.

Table 4. Current Research Grants and Submitted Grant Proposals

Project Title	Principal	Co-Invest	Agency	Start Date/Applcation	Amount current year	Amount to Follow	End Year of Grant
Understanding the selection of and preferences for bioinformatics resources: a study of expert and non-expert scientists	Bartlett	-	SSHRC	2006	\$29 058 (06-07) and \$34 981 (07-08)	\$37 659	2010

Digitization and data management with visual data in social research	De Lange	Park Mitchell	National Research Foundation South Africa	2008	15 516 NEW	\$26 666	2011

Academic Staff

The normal teaching load for professors is four courses per academic year. However, due to administrative responsibilities there are exceptions: the Director, who teaches two three-credit graduate courses; Prof. Beheshti, who was appointed Interim Dean in Fall 2007, did not teach any courses; and Prof. Large who, as the CN-Pratt-Grinstad Chair in Information Studies, teaches two courses per year (Table 5). Prof. McNally has a research stipend for his work on the History of McGill Project, and Prof. Leide had a reduced load of two courses as part of an agreement preceding his retirement planned in January 2009.

The retirement of Prof. Mittermeyer, in January 2008, had an impact on the teaching and advising workload of all professors.

Table 5. Number of students taught/supervised by faculty members 2007-2008

Instructor	Number of courses	Total MLIS Students in courses	Ph.D. supervision	Ph.D. committees	Master's projects
J. Bartlett	4	83	2	2	4
J. Beheshti	-	-	4	7	2
F. Bouthillier	2	79	4	8	1
C. Guastavino	3	97	1	1	2
K. Dalkir	4	80	5	2	3

J. Leide	2	76	2	8	-
P. McNally	2	34	1	1	1
D. Mittermeyer	2	19	-	-	-
E. Park	4	70	1	1	7

Involvement in the community

Faculty members remained very active in the academic and professional communities, attending meetings, chairing committees, and acting as external reviewers and members of boards of directors of various organizations. Prof. Bartlett was elected as Vice President/ President-elect of the Canadian Association for Information Sciences, and Prof. Dalkir remained the Secretary of the same organization. Prof. Bouthillier was appointed as the president of the Canadian Council for Information Studies. Apart from the School committees, faculty members were involved in many University committees including more than 20 committees in the Faculty of Education and other Faculties, and more than 15 committees in the University at large. Faculty members of SIS also acted as pro-deans for more than 10 doctoral oral examinations. SIS professors are equally involved in the community outside of McGill including many editorial boards of academic journals, referees for academic conferences and advisory boards and boards of directors of regional and national organizations and professional associations as listed in Appendix 1.

Professor Beheshti organized and chaired an HCI Education Forum for which he received \$2,000 from the University Summer Session Program to launch a “workshop” on HCI curriculum development. Members of various faculties and departments from McGill and

outside attended and shared their interest for developing such a curriculum (e.g. Departments of Electrical & Computer Engineering, Psychology, Educational and Counselling Psychology, and Integrated Studies in Education, Desautels School of Management, School of Computer Science, Centre for Intelligent Machines, School of Computer Science, Schulich School of Music, Institute of Communications & Culture - University of Toronto, Department of Psychology - University of Michigan, and NRC Institute for Information Technology) .

Appendix I: Honours, Awards and Prizes

Bartlett, Joan

Member, McGill Centre for Bioinformatics (ongoing)
 Reviewer, *Education for Information* (ongoing)
 Reviewer, *American Society for Information Science and Technology Annual Conference* (ongoing)
 Reviewer, *The Canadian Journal of Information and Library Science* (ongoing)
 Reviewer and Program Committee, *Information Interaction in Context Conference* (new)
 Reviewer, *The Canadian Journal of Library and Information and Library Practice and Research* (new)
 Reviewer, Canadian Association for Information Science Annual Conference (ongoing)
 Vice-president/ President-Elect, Canadian Association for Information Science

Beheshti, Jamshid

Member, Editorial Board, *Library and Information Science Research* (ongoing)
 Reviewer, *The Canadian Journal of Information and Library Science* (ongoing)
 Member, Program Committee 2007, Canadian Association for Information Science (ongoing)
 Reviewer, *Journal of the American Society for Information Science* (ongoing)
 Reviewer, American Society for Information Science and Technology Annual Conference (ongoing)
 Reviewer, European Science Foundation (ongoing)
 Member, International Conference on Asian Digital Libraries Program Committee (ongoing)

Bouthillier, France

Member, Editorial Board, *Revue électronique suisse des sciences de l'information* (ongoing)
 Member, Board of Directors, Corporation des bibliothécaires professionnels du Québec (ongoing)
 Member, Advisory Committee, John Abbott College, Information and Library Technologies Program (ongoing)
 Reviewer, Social Sciences and Humanities Research Council of Canada (ongoing)
 Reviewer, *European Journal of Marketing* (ongoing)
 Reviewer, *The Canadian Journal of Information and Library Science* (ongoing)
