A limited enrolment Management Minor is available to selected Economics Majors and Honours students. Applications are entertained only early in the calendar year, usually February. Students intending to complete a Minor in Management must consult the Economics Department advisor for the Minor for further details and restrictions.

MAJOR CONCENTRATION IN ECONOMICS (36 credits)
[MARS Program Code 8-270000]
The Major Concentration in Economics is a planned sequence of courses designed to permit the student a degree of specialization in economics. It consists of 36 credits in courses approved by the Economics Department.

All students who wish to begin (or continue) a Major Concentration in Economics should see a Majors adviser in the Department of Economics before registering through MARS in each of their university years. Further information may be obtained from any Major adviser; consult the Departmental office for a list of advisers.

Students who are registering for the first time with the Department should attend the orientation meeting before seeing an adviser. It will be held on Wednesday, August 29th at 14:00, room TBA.

A student choosing a Major Concentration in Economics must take 3 6 credits in Economics (excluding courses with numbers below 154-210) of which at least 6 credits must be taken from courses with a 400 or 500 level number. The Economics courses
will normally be taken at McGill and will be selected from the courses shown below. Economics Major Concentration students entering University at the U1 year in September should directly proceed to 154-230D without taking 154-208A,B and 154-209A, B.

**HONOURS PROGRAM**

The Economics Honours program is offered to both B.A. and B.Com. students. All Honours students should consult the handbook describing the Honours programs in Economics, available in the Economics Department Office, 443 Leacock Building. All Honours students must be registered by a Department Honours adviser in each year of their Honours program.

**HONOURS PROGRAM IN ECONOMICS (42 credits)**

These requirements can be met by having passed equivalent courses at CEGEP or elsewhere. Honours students are encouraged, but not required, to take 189-222A,B Calculus III.

**JOINT HONOURS PROGRAM – ECONOMICS COMPONENT**

The Economics Joint Honours programs offered with the Faculty of Management are B.Com. Joint Honours in Economics and Accounting; B.Com. Joint Honours in Economics and Finance (these programs are available only to B.Com students); and a B.A. Joint Honours in Economics and Finance (available only to B.A. students).

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines, see page 53 for a list of available programs.

Prior to registering for each Joint Honours component, students must see advisers in the respective departments for approval of their selection. **Students who neglect to obtain prior approval may jeopardize their graduation.**

Joint Honours students are required to complete the 30 specified credits of Honours courses listed in the Honours Program as well as the mathematics courses. The additional requirements for the two B.Com. Joint Honours programs are described in the Faculty of Management section. The B.A. Joint Honours in Economics and Finance requires 30 credits in Management. These are also described in the booklet on the Honours programs available from the Department of Economics, as well as in the Faculty of Management section of this Calendar.

According to the new Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00. Departments may require a higher program GPA.

**HONOURS STANDING**

To remain in Honours in the U2 year, students are expected to obtain at least a B- in 154-250D. Students who narrowly miss this grade may apply for “redemptive” status. They must make their application by July 15 to the Department of Economics. They will normally be required to write an examination in microeconomic theory, given by the Department in August, as part of their application.

Students who obtain an A in 154-230D may enter the Honours program in their U2 year. Other students who have taken 154-230D may sit an examination in microeconomic theory, comparable to the supplemental examination in 154-250D, given by the Department in August. They must register for this exam by July 15 in the Department of Economics. If they pass this examination with a grade of B-, they may enter the Honours program in their U2 year, and need not take 154-250D.

Normally, to be awarded an Honours degree a student must obtain a 3.00 program GPA in the 42 required and complementary credits in Economics including a 3.00 average GPA in the 30 specified credits of Honours level courses, and must also obtain an overall 3.00 CGPA. For a First Class Honours degree, the minimum requirements are normally a 3.50 average GPA in both the 42 program credits and the 30 specified credits of Honours level courses.

According to the new Faculty regulations, Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00. Departments may require a higher program GPA.

**COURSE DESCRIPTIONS**

Because the Calendar is prepared early in the year, the information on courses may need modification by the time the academic year begins. A supplement is made available at the Departmental office in August and must be consulted prior to registration with the Honours or Majors advisers.
The names of course instructors are listed on the Course Timetable available on infoMcGill via the Web http://www.mcgill.ca/

The Department of English offers a wide variety of courses covering three linked and overlapping areas: literature written in English; drama, including both courses in dramatic literature and courses that introduce the student to the basic elements of theatrical performance; and cultural studies, including analysis of a variety of visual media. These three areas are integrally related, and all students in English Department programs are invited to do work in all three, while concentrating in one of them.

The Literature option provides a grounding in the basic texts and methods of the discipline as well as wide acquaintance with substantial areas of the field.

The Drama and Theatre option tries to place its subject in as broad a social and philosophical context as possible. The Drama and Theatre program is not designed to provide professional theatre training. The aim is rather to encourage students to explore the subject as a liberal arts discipline.

The Cultural Studies option concentrates on analysis of forms of cultural expression and symbolic interaction, and of the various media through which these may be disseminated and transformed. Such study concerns symbolic form, aesthetically based forms of analysis, and the various modes of criticism and theory relevant to media which contain both verbal and non-verbal elements. The aim is above all to hone students' analytical and interpretive skills while introducing them to specific critical approaches to cultural studies. This is not a major in journalism or communications; and while many of our graduates go on to do creative work in a variety of media, instruction in film and video production is not part of the curriculum.

HONOURS PROGRAMS IN ENGLISH
(each 60 credits)
According to the new Faculty regulations, Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00. Departments may require a higher program GPA.

The Honours program in English requires 60 credits. Students intending to apply for Honours should plan to complete as many of the specific requirements of their option as possible within the first two years. Entry to Honours is by application, normally after two terms in a Departmental program, including at least 18 credits of English, with a minimum GPA in all English courses of 3.50. The Faculty of Arts now requires that all students admitted to Honours programs after 2000/2001 complete a second-program minor in addition to their Honours program.

Students intending to apply for Honours or already accepted should consult an Honours advisor regarding their course selections throughout their program. The maintenance of a 3.50 GPA in all English courses is required for continuation in Honours.
With the written approval of an advisor, up to 9 credits may be taken outside the Department. All Honours students must complete at least 6 of their complementary credits at the 500-level. Ideally, 500-level seminars will be relevant to the area of the student's independent study in the Honours Essay course (110-491D), taken without exception in the final year of the program. The Honours Essay is first planned in consultation with a supervisor at the time of application to the Honours program; it is then guided and evaluated by that supervisor during the completion of 110-491D. Graduation with Honours requires 60 credits of English, a minimum GPA in English courses of 3.50, and a minimum mark of B+ on the Honours Essay. For lists of courses fulfilling the options' requirements, please consult the Department of English Website.

**N.B.** For students accepted into the Honours program for 1999/2000 and later: Faculty regulations state that Honours students who have not met the Honours requirements at graduation will not be able to graduate with a Major concentration unless they have completed the requirements for both a Major concentration and a Minor concentration in another discipline.

**JOINT HONOURS PROGRAM – ENGLISH COMPONENT** (36 credits) [Program revisions awaiting University approval]

According to the new Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00. Departments may require a higher program GPA.

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from two Arts disciplines; see page 53 for a list of available programs.

Applications to do a Joint Honours Program in English and another subject in the Faculty of Arts occur once a minimum of 9 credits, and no more than 18 credits, have been completed in English. There are normally two possible application dates for Joint Honours in English: either by the end of January (by which time first-term courses are completed and the grades are available), or at the same time as the Honours application date, typically in mid-April. (Only students who will have completed more than 18 credits in English by the end of January may apply in the Fall.)

Applications will be considered by the Department’s Honours Committee on the basis of the student’s GPA in English courses, at a minimum of 3.50; the application form available in the Department’s General Office (Arts 155); and the specific submissions described and required by that form. The latter will take some time to prepare, and allowance for that (at least several weeks) must be made in order to meet the application deadline. Incomplete applications will not be considered.

Acceptance into Joint Honours English may be conditional on particular revisions to the Program Course Proposal to be submitted with the application form, and which then goes on file in the General Office with the other submissions. Only course choices
that are appropriate, given the nature of the Joint Honours program proposed, including the Honours Essay if applicable, will be approved. In order to graduate with Joint Honours, all subsequent course substitutions in the initially approved Joint Honours English program must be endorsed by the Joint Honours advisor at the point they are made (i.e. at the start of each term) and entered on the Program Course Proposal with the advisor's initialed approval. Students who neglect to obtain such approvals jeopardize their graduation.

The maintenance of a 3.50 GPA in English courses is required for continuation in Joint Honours. (N.B. students already admitted to Joint Honours on the basis of a minimum CGPA of 3.40 must maintain a 3.40 program GPA for continuation and graduation in Joint Honours.) Each academic year there is a special advisor for Joint Honours students, and the receptionist in the General Office can provide his or her name and contact information. The Department’s website provides additional information on the Joint Honours program and applications, and that should also be consulted prior to contacting the advisor.

Joint Honours Program Descriptions

**400 level.** All Joint Honours students’ programs of study shall include 6 credits of study at the 400 level or above.

**Advanced study.** All Joint Honours students shall undertake at least 6 credits of advanced study, and in order of preference this consists of:

a. 110-491, an Honours Essay, or
b. Two 500-level courses

(For very rare cases, a third alternative may be approved at the discretion of the Joint Honours advisor, but only when it is formally recommended for the joint subject according to the description of that Joint Honours program in the University Calendar, as for, e.g., Anthropology: 3 credits of essay work combined with 3 credits in the joint subject, to create a joint essay.)

The Geography Department offers programs in both Arts and Science. To avoid duplication, course descriptions that are of special interest to Science students appear in the Faculty of Science section 11.12. Many Arts students choose to take some of these courses. Consult the Science entry for listings of all B.Sc. Geography programs, a list of teaching staff, an outline of the nature of Geography and the opportunities for study in this discipline.

Students planning to enter a B.A. program in Geography or a Joint Honours program should telephone (514) 398-4111 for an appointment with a departmental adviser. Students should consult the Department of Geography Undergraduate Handbook, which is available from the departmental office.

The World Commission on Environment and Development has identified the evidence and possible consequences of currently widespread land use practices which cannot be sustained. Geography is an integrative discipline concerned with the relations between culture systems and resource bases. Students interested in understanding, or working towards the resolution of, our environmental “crisis” should select courses which deal with (1) the dynamics of natural systems (courses in the physical geography of terrestrial, atmospheric and hydrological systems); (2) the dynamics of human systems (courses in cultural, social, economic, political and urban geography); (3) the context of development and land use changes; and (4) practical skills such as Geographical Information Systems cartography, remote sensing, image analysis and resource management.

PREREQUISITES

There are no departmental prerequisites for entrance to the B.A. Major Concentrations or Honours programs in Geography. It is helpful for Arts students to include 6 credits of Mathematics in their CEGEP or pre-university programs. A student who has completed college or pre-university geography courses fully equivalent to those of first year university may, with an adviser’s approval, substitute other courses as part of the Major Concentrations or Honours programs. Freshman Program B.A. students are invited to take 183-205 for science credit, 183-200 for social science credit.

183-381 (3) Evolution of Geography
183-491D/N 6 Honours Research and Reading

* Where both departments require an Honours Thesis, the student has the option of submitting the thesis to either department. If the thesis is submitted to the other department, then the student must register for 183-492D.N. In some cases, it is required that the thesis be jointly supervised by faculty of both departments.

disciplines can combine Joint Honours Program components from any two Arts disciplines, see page 53 for a list of available programs. Prior to registering for each Joint Honours component, students must see advisers in the respective departments for approval of their selection. Departmental advisers will only approve combinations that are feasible, given the nature of the research project that would be involved. Students who neglect to obtain prior approval may jeopardize their graduation.

4 credits from a coherent set of Geography courses approved by the student’s advisor. A field course is desirable.

The Department of Hispanic Studies offers courses on literature, intellectual history and the civilization of Spain and Hispanic America, as well as in the Spanish and Portuguese languages. The Department and its programs are committed to expanding the liberal arts background of students by helping to develop the skills of communication and critical reasoning, and by providing insight into the culture of other regional, linguistic and national groups.

McGill University has bilateral exchange agreements with the Universidad de Salamanca (Spain), the Universidad Nacional Autónoma de México, and the Universidad de las Américas, Puebla (Mexico), as well as with other leading universities in the Spanish and Portuguese-speaking world which allow student and faculty exchanges, and other collaborative ventures. Further information about these exchanges may be obtained from the Department. Application forms are available from the Student Exchange Officer in the Admissions, Recruitment and Registrar’s Office, James Building Annex.

The Department collaborates closely with the Program in Latin-American Studies and the Program in Caribbean Studies, and students are encouraged to consult that program’s listing.

UNDERGRADUATE PROGRAMS
The Department of Hispanic Studies offers the following undergraduate programs and concentrations, which permit students to pursue a variety of intellectual and pre-professional options:

Minor Concentration in Spanish Literature and Culture (Expandable)
Minor Concentration in Spanish-American Literature and Culture (Expandable)
Minor Concentration in Hispanic Languages (Expandable)
Major Concentration in Hispanic Literature and Culture
Major Concentration in Hispanic Languages

Joint Honours Program in Hispanic Studies

Students who envision graduate studies upon completion of the B.A. are strongly advised to pursue a program of Honours or Joint Honours. Although the Major and Minor Concentrations form an important part of the multi-track B.A. in Arts, this general degree does not provide the specialized training called for by most graduate programs in the Humanities and Social Sciences.

In today's world, people who can research thoroughly, write effectively, speak eloquently, and think clearly are in great demand. Recent graduates of our programs are currently pursuing careers in a variety of professions, including law, business, journalism, academia, finance, government, the arts, science, education, and medicine. All have benefited as professionals, individuals, and citizens from their study of history. The study of History develops skills in research, writing, and critical thinking and provides a context for understanding the present world. History requires and develops flexible thinking as it normally employs inductive reasoning. Historians usually begin with a specific, temporally and spatially defined issue and try to determine a pattern in the chaos. They move from the particular to the general and since historians usually begin with an open-ended question, they often find themselves borrowing from other disciplines to understand the problem.

MAJOR CONCENTRATION IN HISTORY (36 credits)  
[MARS Program Code B-570000]  
Director: Professor Pierre Bouille  
In order to give students freedom to choose suitable thematic and geographic concentrations, all courses in History programs are placed into the category “Complementary Courses”. These are to be chosen with an adviser.  
Complementary Courses (36 credits)  
36 credits in History, 24 credits (minimum) at the 300-level or above,  
with a minimum of 6 credits from at least two of the following areas: Canada; North America (which may or may not include Canada); Europe; Asia/Africa/Latin America;  
3 credits in history of the pre-1800 period;  
3 credits in history of the post-1800 period.  
Students are strongly urged to distribute their history courses as follows: Year 1 - 12 credits; Year 2 - 12 credits; Year 3 - 12 credits.  
The History Major Concentration is designed to provide both flexibility and breadth for our students. Each student will pursue an individually distinct program according to his or her interests and intellectual concerns. Students who choose a Major Concentration in History should consult an adviser in the Department before registering for their courses. Students are advised that no more than 12 credits taken at another university will be accepted within their Major program.  

HONOURS PROGRAM IN HISTORY (60 credits)  
[MARS Program Code 2-570000]  
Director: Professor Catherine Desbarats  
In order to give students freedom to choose suitable concentrations, all courses in History programs are placed into the category “Complementary Courses”. These are to be chosen with an adviser.  
Complementary Courses (60 credits)  
60 credits in History, at least 42 credits of which must be at the 300 level or above, distributed as follows:  
42 credits (minimum) in the student’s chosen concentration such as Africa/Asia/Latin America; Canada, Europe, North America, Ancient History; or in an approved theme such as Colonialism, History of Medicine, War and Society. 6 credits (minimum) must be seminar credits  
18 credits (maximum) outside the student’s chosen concentration, 6 of which must be seminar credits  
Students must maintain a 3.30 grade point average in their program and have no less than a “B” in any program course. In addition, and in accordance with Faculty of Arts rules, students must maintain an overall CGPA of 3.00.  
The purpose of the Honours program is to give students an opportunity to study an area or theme of history in some depth. Each Honours student’s program is worked out to suit the student’s specific needs within the general framework of the program. The rules of the program are designed to lead the student from introductory courses to more advanced courses while, at the same time, enabling the student to acquire ancillary skills which are necessary for historical research in particular areas.  
The full Honours student normally takes 60 credits in history over a three-year period, 42 credits to be selected from within an area or theme including at least one of two seminars or the tutorial option. If a student must acquire a language or other ancillary skill, or if there is a strong case for taking a historically oriented course in another discipline, the history requirement may be diminished. (See note at the end of the statement.)  
The first year of the program is devoted primarily to introductory history courses (12 - 1 credits) to obtain a general perspective on the past. These courses are important prerequisites for upper year courses.  
In the second year students begin to specialize by taking a seminar or, if necessary, by beginning the two-year tutorial method. Note that the second seminar is normally taken in the third year. A seminar is a class composed of Honours students who pursue advanced studies in a specific area. A tutorial is a series of classes in which the student works individually or in small groups with a member of staff. The tutorial route is designed for those students who wish to concentrate on projects not accommodated by the seminar offerings. Students taking tutorials instead of seminars, work with one member of staff over a period of two years. As in other courses, evaluations and marks during each of the two years are based on the student’s written and oral work. At the end of the second tutorial year, a project is presented which is usually a substantial piece of work based on primary sources.  
Students may enter Honours as early as their U1 year.  

JOINT HONOURS PROGRAM – HISTORY COMPONENT  
(36 credits)  
[MARS Program Code 0-570000]  
Complementary Courses (36 credits)  
36 credits in History, 24 credits (minimum) at the 300 level or above.  
24 credits (minimum) in History in the student’s chosen concentration such as Africa/Asia/Latin America; Canada, Europe, North America; or in an approved theme such as Colonialism, History of Medicine, War and Society. 6 of these must be seminar credits  
12 credits (maximum) in History outside the student’s chosen field  
Students must maintain a 3.30 grade point average in their program and have no less than a “B” in any program course. In addition, and in accordance with Faculty of Arts rules, students must maintain an overall CGPA of 3.00.  
In a few cases Joint Honours students enter one of the two-year tutorials.  
Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines, see page 53 for a list of available programs.  
Prior to registering for each Joint Honours component, students must see advisers in the respective departments for approval of their selection. Departmental advisers will only approve combinations that are feasible, given the nature of the research project that would be involved. Students who neglect to obtain prior approval may jeopardize their graduation.  

NOTE: Not as an encouragement for deviation from the programs outlined above, but in recognition of compelling circumstances and academically legitimate wishes on the part of the students, the possibilities for deviation from the usual 60 credit requirement are defined as follows. No more than 12 historically oriented credits may be taken, in exceptional cases, outside the Department of History, or outside the University. A maximum of six credits, taken as a summer course may be accepted within the limits of the 12 credits outside the Department if strong academic reasons favour it. History courses taken at CEGEPs cannot be part of the 60 credit requirement. In Joint Honours programs, no more than six credits may be taken outside the Department. Full Honours Students may take one advanced language course in each of their U2 and U3 years and have them count in their 60 credit requirement, if these language courses are necessary and relevant to their program. Introductory language courses cannot be accepted as part of the Honours course requirements. Bilingual students will not be permitted to take language courses in one of their two languages as part of their Honours program requirements.

Kristin Norget (Anthropology), Storrs McCall (Philosophy), Natalie Polzer (Religious Studies), Josef Schmidt (German Studies), Michael Silverthorne (Classics/History), Jessie Tzeng (Sociology), David Williams (English)

Humanistic Studies provides a broad liberal arts education that is personally enriching. It is also practical in its goal of developing the analytical, critical, and contextual thinking skills that are vital for the creation, expression and transmission of ideas. Humanistic Studies is not a department, but a program wherein students are advised and guided by professors from each of the disciplines involved. It has been designed so that students can devise individual interdisciplinary concentrations or explore one of the core humanistic subjects in more depth. The fundamental assumption of Humanistic Studies is that human knowledge as acquired and developed in the university is cumulative and interconnected. A historical sense is crucial for an understanding of the continuity and changes in human thinking and other human activity. Students are encouraged to seek links between and among subjects in the arts – for example, literature, history, philosophy, religion, music, history of fine arts – the social sciences, and natural sciences.

Advising
Students are strongly encouraged to seek advising. Courses should be "clustered" so that different fields complement each other or are interconnected. Students are strongly advised to take this program in tandem with concentrations in language and literature.

Orientation Meeting
New students should attend the orientation meeting which will be held on Wednesday, August 29, 2001 at 11:30 in Arts 145. The general philosophy of the program will be discussed, sample clusters provided, and advising sessions scheduled.
