Dean’s Welcome

To Graduate Students and Postdoctoral Fellows:

I am extremely pleased to welcome you to McGill University. With over 250 Doctoral and Master’s degree programs, McGill is committed to providing world-class graduate education and postdoctoral training in a full range of academic disciplines and professions. Graduate and Postdoctoral Studies (GPS) works in collaboration with the Faculties and other administrative and academic units to deliver the very highest level of teaching and research across the University. GPS is responsible for the admission and registration of graduate students, disbursing graduate fellowships, supporting postdoctoral fellows, and facilitating the graduation process, including the examination of theses.

As a student-centered research institution, McGill places singular importance upon the quality of graduate education and postdoctoral training. As Associate Provost (Graduate Education), as well as Dean of Graduate and Postdoctoral Studies, I work closely with the central administration, Faculties, graduate students, professors, researchers, postdoctoral fellows, and staff to enhance the graduate and postdoctoral experience and provide a supportive, stimulating, and enriching academic environment.

McGill is ranked as one of Canada’s most intensive research universities and among the world’s top 25. We recognize that these successes come not only from our outstanding faculty members, but also from the quality of our graduate students and postdoctoral fellows – a community into which we are very happy to welcome you.

I invite you to join us in advancing this heritage of excellence at McGill.

Martin Kreiswirth, Ph.D.
Associate Provost (Graduate Education)
Dean, Graduate and Postdoctoral Studies

2 Graduate Student Financial Support

McGill University is committed to helping graduate students finance their education and offers research students the most competitive and generous funding levels in Quebec. We are doing our utmost to provide you with a dependable income for the duration of your graduate studies, through both fellowships and bursaries. Upon admission to McGill, research students are accepted our offer of admission. This funding comes from a number of sources, which may include McGill graduate fellowships, departmental and faculty awards, stipends from research grants or contracts, teaching and research employment, and, in certain cases, exemptions from tuition and ancillary fees. Course-based and professional Master's students are eligible for need-based financial support and some internal fellowships and bursaries.

The following information is intended to help you to understand and provide detailed information on the various forms of graduate student support available at McGill. If you have any questions regarding graduate student support, please contact your Graduate Program Coordinator who will be more than happy to help you find the answers.

External Fellowships
Funding from external sources may form an important complement to the funding package offered to you by McGill. In the 2007 funding year, Federal and Quebec government agencies granted over 20 million dollars in direct awards to students pursuing graduate studies at McGill. External Fellowships are available from various sources, including government departments and agencies, foundations and private companies. The value of awards offered by these agencies varies from $15,000 to $50,000 per year, and up to $50,000 for health professionals. These awards are often renewable. The deadlines to apply for the majority of external fellowships fall between October and November for fellowships tenable in September of the following year. To view a list of the agencies offering graduate student funding opportunities and individual application deadlines, please see section 3, “External Fellowships.”

For information on funding opportunities to support graduate study and research outside of Canada, please see section 4, “Exchange and Travelling Fellowships.”

Loans and Bursaries
Loans and/or bursaries are administered by the province in which you are legally resident, and are usually restricted to full-time, Canadian students (although certain categories of permanent residents may also be eligible). Most loans are granted exclusively on the basis of financial need. To find out more about the application procedures for government loan programs please see section 6, “Student Financial Assistance” or contact the McGill Student Aid Office at 514-398-6013 or by email at student.aid@mcgill.ca.

2.1 Information for International Students and Fellows
International students on study permits comprise up to 25 per cent of the graduate student population at McGill University and are integral to maintaining McGill’s standing as a world-class, research intensive institution. McGill is committed to supporting its international students and addressing the unique financial concerns of this group. As an international student, you may find yourself ineligible for certain awards and bursaries that are only available to Canadian students. To help offset this imbalance, McGill offers a number of tuition differential awards and international fee waivers to certain groups of students. These are available through several different programs.

1. MIDAs: McGill devotes approximately $3 million in funding directed at international full-time doctoral students. Through the McGill International Doctoral Awards (MIDAs) program, McGill undertakes to pay the international tuition supplement on the student's behalf, so that eligible international students will pay tuition equal to that of Quebec students. All international doctoral students whose tuition is not paid by an external source (such as through a fellowship involving the direct payment of tuition or a third party billing contract) are eligible for this program. No application is necessary and each full-time, eligible student is automatically granted an award that makes up the difference between international and Quebec tuition.

2. McGill is allotted a number of Differential Fee Waivers (DFWs) from the Quebec Government that are allocated by individual departments to Master's students in the summer term.

3. If you are in a program where your fees are assessed per credit, you may be exempt from the international tuition supplement for certain French language and literature courses.
GRADUATE FELLOWSHIPS AND AWARDS

4. All students from France and a limited number of students from countries party to bilateral agreements with Quebec may be granted exemptions from differential fees. With the exception of French citizens, students must apply to their home country for an exemption concurrent with their application for admission. Please consult section 2.1.1, "Exemptions from the International Tuition Supplement" to determine whether you are eligible for this program.

There are a number of funding programs aimed specifically at international students embarking on study in Canada. These include: the Quebec Merit Fellowships for International Doctoral Students (Programme de bourses d'excellence pour étudiant étranger - PBEEE); the Canadian Commonwealth Scholarship and Fellowship Program; the Government of Canada Awards to Foreign Nationals; the Organization of American States; the Canada-U.S. Fulbright program; and the German Academic Exchange Program (DAAD). International students can also be nominated by McGill University for the prestigious Vanier Canadian Graduate Scholarship program (please refer to section 3, "External Fellowships" for further information). Applications for some of these programs must be made through the government of your home country, usually via the Ministry of Education.

Opportunities for employment for international students are now more plentiful than in past years, as immigration officials are authorized to issue work permits for off-campus employment under certain circumstances. For details concerning eligibility and procedure, please consult the International Student Services website at www.mcgill.ca/internationalstudents/workopportunities.

You can find additional information on opportunities for financial assistance available to international graduate students and fellows in the UNESCO publication Study Abroad, available on the web at www.unesco.org/education/studyingabroad/networking/study.pdf. The Canadian Bureau for International Education (CBIE) also produces a free brochure entitled Destination Education Canada, available at www.destineducation.ca. As an international student you will also be pleased to learn that the new Post-Graduation Work Permit Program makes it easier than ever to gain employment in Canada following the completion of your degree. Through this program you can obtain a work permit tenable for three years, with no restriction on the type of employment and no requirement for a job offer or company sponsorship.

2.1.1 Exemptions from the International Tuition Supplement

McGill International Doctoral Awards (MIDAs)
All full-time international Ph.D./D.Mus./D.C.L. students registered in years 1 to 4 (Ph.D. 1 to Ph.D. 5) whose tuition is not paid by an external agency (such as through a fellowship involving direct payment or a third-party billing contract) are automatically granted McGill International Doctoral Awards (MIDAs). The value of the MIDA equals the difference between international and Quebec tuition; no application is necessary.

Internal DFWs
McGill University is allocated a number of Differential Fee Waivers (DFWs) that it allocates through the departments. Summer DFWs are allocated by nomination to eligible Master's degree students and students newly admitted into a Ph.D. program in the Summer term; Fall and Winter DFWs are automatically allocated to eligible students in accordance with the applicable regulations, registers on a full time basis at least for the Fall and Winter trimesters and pays the tuition fees on the prescribed registration dates.

All French citizens and a limited number of citizens of a country in the list found at www.mels.gouv.qc.ca/ens-sup/ens-univ/droits_scolarite-A_pays-organisations.pdf are eligible for such exemptions.

To apply for an exemption of this type, a student must meet the following conditions: be a citizen of one of the aforementioned countries or governments; be admitted to a program of studies at a post-secondary institution in Quebec; be registered on a full-time basis according to the applicable rules at that institution; like any international student, be the holder of a valid passport and residence permit as prescribed by the applicable immigration rules; and, except for French citizens, be recommended for an exemption by the relevant authorities in his or her country – usually the department of education – according to the official procedure described in the next paragraph.

Foreign governments or the bodies that represent them must send, usually through their consulates in Quebec or their embassy in Ottawa, to the Direction des affaires étudiantes et de la coopération du Ministère de l'Éducation du Québec, before June 15 of each year for the next autumn registrations and before November 15 for the next winter registrations, a list of the candidates that they recommend be exempted from the requirement to pay supplemental tuition fees, along with the proof of admission or registration for each new exemption proposed. The Ministère de l'Éducation then establishes, according to the provisions of the agreement, the final list of the persons to benefit from the exemption during the future trimester concerned. At least 80 per cent of the exemptions that are awarded must be for registrations in French-speaking institutions.

For more information and the necessary application materials, see the following MELS websites:

3 External Fellowships

This section contains general information on the major funding agencies providing the majority of external awards to Canadian, Quebec or international students and postdocs. A large number of other sources provide external funding. A section on industrial fellowships offers information for students who wish to fund studies and research in partnership with non-university organization in the private (and sometimes public) sector.

3.1 Federal Fellowships for Canadian Students and Postdocs

Graduate and postdoctoral fellowships from the Federal Government granting Councils are normally open only to Canadian citizens or permanent residents of Canada for research-based studies at the Master’s, Doctoral and Postdoctoral levels. Exceptions on funding for international students will be covered in section 3.5, “External Fellowships for International Students and Postdocs”. Competition rules and regulations are updated annually and available on the agency websites.

Deadlines are normally in the fall of the year prior to the academic year for which funding is requested. Several competitions involve a pre-selection by the university where the student is registered in the year or term of application. Students and postdocs may only apply to one federal agency per competition year (August to July); students in disciplines that border the mandate of several agencies (e.g., psychology, geography, cell and molecular biology) must select the agency that funds the specific proposed research.

NSERC - NATURAL SCIENCES AND ENGINEERING RESEARCH COUNCIL OF CANADA

Funds Master’s, Doctoral and Postdoctoral research-based studies in the Natural Sciences and Engineering.

Master’s and Doctoral competitions involve a pre-selection by the university where the student was registered in the year of application. Postdoctoral applications are direct to the agency. Deadlines are normally in October.

Vanier Scholarships have a stipend of $50,000 per annum, and are tenable for up to 36 months. The Vanier Scholarships are administered by the three federal founding agencies: the Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council (NSERC), and the Social Sciences and Humanities Research Council (SSHRC). Candidates must be nominated by the Canadian University where they plan to study; McGill University undergoes a pre-selection process. Timing of future competitions is still in discussion at the time of publication.

Value: $50,000.

Agency information: www.vanier.gc.ca

McGill pre-selection information: www.mcgill.ca/gps

3.2 Provincial Fellowships for Quebec Students and Postdocs

Graduate and postdoctoral fellowships from the Quebec Government granting agencies are normally open only to Canadian citizens or permanent residents of Canada who are Quebec residents for research-based studies at the Master’s, Doctoral and Postdoctoral levels.

Exceptions on funding for international students will be covered in section 3.5, “External Fellowships for International Students and Postdocs”. Competition rules and regulations are updated annually and available on the agency websites.

Deadlines are normally in October of the year prior to the academic year for which funding is requested. Applications are online, with supporting documents sent directly to the agency. Students...
and postdocs may only apply to one Quebec agency per competition; students in disciplines that border the mandate of several agencies (e.g., psychology, geography, cell and molecular biology) must select the agency that funds the specific proposed research.

7.2 External Postdoctoral Fellowships

Please refer to section 3, “External Fellowships” for information on postdoctoral opportunities.

8 Exchange and Travelling Fellowships

Information on funding opportunities for graduate study and research outside of Canada is contained in many of the reference books and directories listed in section 2.2, “Further Information”. One of the most comprehensive publications is UNESCO’s “Study Abroad”, available for consultation at the McLennan Library and many national libraries around the world.

Embassies, consulates and commissions of foreign countries located in Canada also are excellent sources of information on funding opportunities for students intending to study abroad. Addresses and telephone numbers of all diplomatic representatives in Canada can be obtained from the Department of Foreign Affairs and International Trade Canada in Ottawa at 613-996-4376 www.international.gc.ca/education. Another helpful site is www.educationau-incanada.ca. For McGill students seeking funding for graduate study outside Canada, the graduate awards offices of foreign universities themselves are often the best source of information. The McLennan Library has a vast collection of foreign university catalogues. The French embassy in Ottawa has a complete website on France-Canada exchange programs at http://ambafrance-ca.org.

McGill University has signed a number of agreements with universities in other countries, many of which include a student exchange component. As a member of the Conference of Rectors and Principals of Quebec Universities (CREPUQ), McGill also participates in a number of student exchange programs with designated universities in the United States and Europe. Further information on such programs may be obtained from the Student Exchange Officer, McGill University, Service Point, 3415 McTavish Street, Montreal, QC, H3A 1Y1. Telephone: 514-398-8342.
