**Unité d’embauche / Hiring Unit:**

L’École d’Urbanisme
School of Urban Planning

**Titre de cours / Course Title:**

Research Methods for Planners: Introduction to Geographic Information Systems

**Single / Subject Code:**

URBP 633

**Session / Term:**

Fall 2017

**Endroit / Location:**

McGill Downtown Campus

**Horaire / Schedule:**

Weeks 5, 6, 7 and 8 of Fall 2017 term

**Enseignement partagé / Team teaching:**

X Yes
No

**Si oui, nombre de crédits/CEUs**

If yes, number of credits/CEUs

1 credit

**Mode de livraison / Method of Delivery:**

X Face-to-Face

2 hours class + 3 hours lab per week

**Éducation / Education:**

Minimum Qualifications: Masters degree in Urban Planning or related field

**Expérience / Experience:**

GIS analysis; map creation in GIS; knowledge of various GIS packages

**Autre(s) exigence(s) de qualifications / Other qualification requirement(s):**

Previous teaching experience is an advantage.

The objective of the 4 week module is for the students – most of whom will never have used a GIS system - to become familiar with the GIS environment, load a base map, find and load external data, join the two, produce a decent map with proper legend, north arrow, labels etc... In the process, some other basic concepts may be introduced and discussed.
