

LEARNING TIP: PREPARING FOR YOUR CLASS

DURING CLASS

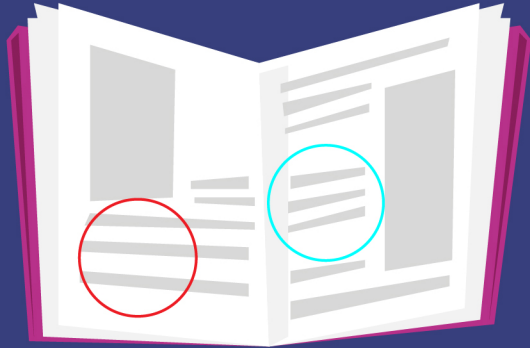

- Arrive early with the intention to learn
- Come prepared with everything you need (pen, paper, etc.)
- Choose your environment
Do I learn best when I sit at the front of the class? The back?
- Take pictures of the board if the professor uses a black board or a white board for handwritten notes
- Minimize distractors
Consider sitting apart from your friends

LEARNING RESOURCES

BEFORE & AFTER...

BEFORE CLASS

Review the materials for the class (uploaded lecture slides, textbook chapters, assigned readings) and ask yourself:

What do I think I know already?

What is new or unfamiliar to me?

AFTER CLASS

As soon as class is over, review all content discussed and ask yourself:

What did I understand?

What is still unclear to me?

Create a plan for how you will tackle your learning
