Department of Anatomy and Cell Biology
GRADUATE RESEARCH ENHANCEMENT AND TRAVEL AWARD
APPLICATION FORM

Student Name: ____________________________

Year (ex: PhD2): __________________________

Supervisor Name: _________________________

Conference Name: _________________________

Conference Location (City, Province/State, and Country): _______________________________________________________________________

Dates of Travel: __________________________

Presentation Type (please attach the abstract): Oral [ ] Poster [ ]

Approximate Budget:

Transportation: __________________________

Lodging: ________________________________

Conference Registration: __________________________

Other (please specify): __________________________

Total: __________________

Have you previously received a GREAT Award? Yes [ ] No [ ]

If yes, please indicate what year(s)/term(s) you received the award, and the amount given:

____________________________________________________________________

Briefly explain how you will benefit from attending this meeting:

____________________________________________________________________
Graduate Research Enhancement and Travel Awards  
*(GREAT Awards)*

**Anatomy and Cell Biology**

GREAT award funds are allocated to Faculties to be disbursed to graduate students. These awards cover dissemination of research through graduate student presentations at conferences, and other graduate student research-enhancement activities, such as travel for fieldwork, archival inquiry and extra-mural collaborative research.

For the academic year 2019-2020, the department of Anatomy and Cell Biology has been allocated $3,162.

**Eligibility:**
- Any Master’s student (MSc 1-3) or Doctoral student (PhD 1-7) in good standing, registered full time, and not in time limitation. For further information, please visit [https://www.mcgill.ca/gps/funding/fac-staff/awards/great](https://www.mcgill.ca/gps/funding/fac-staff/awards/great)

- Applicants must not have access to a major source of travel funds, such as funds provided by CIHR Doctoral Research Awards.

- Applicants must declare any other source of travel funds in the application. If the candidate is successful in obtaining additional funding (i.e. award from the conference), he/she must return any double reimbursement to the Anatomy GREAT reward funds.

- Criteria used in the selection process for the Graduate Research Enhancement and Travel (GREAT) Award may vary depending on the number of applicants, the funds requested, and the available funds. Preference may be given to students applying for an oral presentation, students applying to attend an international conference, students who have not previously received a GREAT Award, and students who may otherwise not be able to attend the conference. The award amount will be announced after all applications are submitted.

**Complete applications should be submitted by the below listed deadlines:**

**September 1, 2019:** For any conference/research related travel between October 1, 2019 and March 31, 2020

**March 1, 2020:** For any conference/research related travel between April 1, 2020 and September 30, 2020

**Complete applications should be submitted via email to:**

Joelle Denomy-Hasilo, Graduate Program Coordinator (GPC)  
Department of Anatomy and Cell Biology  
e-mail: studentaffairs.acb@mcgill.ca

_The GPC will process payments to the awardees' bank accounts as award payments. Awardee is bound to inform his/her supervisor when payment is received. Awardee must also declare after his trip any awards obtained at the conference._
