

Anatomy & Cell Biology Honours Program Application

Students who are interested in completing the Anatomy & Cell Biology Honours program should first review the [program requirements](#) on the departmental website carefully and discuss this program option with the [ACB program advisor](#).

Once you have decided to pursue the ACB Honours program, please complete the form below and submit it to: undergradadvisor.acb@mcgill.ca.

Name

ID number

Date of application

McGill email address

Current academic year

Is your current CGPA 3.2 or above?

U1

Yes

U2

No

U3

In which semester are you planning to switch to the Honours program?

In which semester are you planning to complete BIOL 301?

In which semester(s) are you planning to complete the ANAT 432 Honours Research Project?

Why are you interested in the ACB Honours program option?

Students in the ACB Honours program must complete the **9-credit [ANAT 432 Honours Research Project](#)** with a supervisor in the Department of Anatomy and Cell Biology.

**Consult the faculty lists found in the [department Directory](#).*

Please list the names of at least three different ACB faculty members with whom you are interested in completing your ANAT 432 project:

Students in the ACB Honours program must complete [21 credits of Complementary Courses](#): **18 credits from the AAC list** and **3 credits from the BOC list** (with at least **6 credits** at the **400-level and above**).

**Remember that you may not be able to register for all of your first choices if they are popular courses, (i.e. ANAT 514, ANAT 541, EXMD 504, BIOT 505, etc.), so also plan which backup courses you will take, if necessary.*

Please list the courses you're planning to take to fulfill these requirements and indicate in which semester you will register for each course:
