## MESSAGE FROM THE PRINCIPAL

---

This Annual Report showcases some of the exceptional ways that McGill University's students, faculty, staff and alumni are implementing our shared vision. Their achievements reflect the ongoing evolution of McGill. Grounded by our mission, and guided by the spirit of learning and discovery, we are exploring new ways of looking at the world. We are focused on five priority areas: student life and learning, research and innovation, community engagement, our work culture, and transforming our physical and virtual campus. We are embracing new challenges. We are finding sustainable approaches to how we live and work. Together, we are building a future that is open, connected, and purposeful.

Bonne lecture,  
**SUZANNE FORTIER, BSc'72, PhD'76**  
PRINCIPAL AND VICE-CHANCELLOR

# YEAR IN REVIEW

---

## JANUARY

McGill research teams lead **three of the top 10 scientific breakthroughs of 2015** as selected by *Québec Science* magazine. The prestigious annual list honours projects spearheaded by: Thomas Szkopek (Department of Electrical and Computer Engineering) and Guillaume Gervais (Department of Physics); Jeffrey Mogil (Department of Psychology); and Christine McCusker (Department of Pediatrics and Research Institute

of the McGill University Health Centre).

McGill's Women's 1 Woodsmen team takes the **top spot at the 56th annual Macdonald College Woodsmen Competition**. The McGill's men team has a strong showing as well, finishing third overall. {01}

Prof. R. Anne McKinney is **named Associate Vice-Principal, Research and Innovation**, with a term beginning on Jan. 1, 2016 and ending on Dec. 31, 2019. Her mandate is to support research

excellence at McGill and increase research performance and research intensity at the University, with a particular emphasis on biomedical and health sciences. {02}

McGill completes the Macdonald Campus Energy Project, **which will reduce greenhouse gas emissions from stationary combustion by 40%**. Project highlights include a heat recovery system, conversion of the most energy-intensive

ventilation systems on campus, and the conversion of the steam network to a low-temperature water loop to allow for the future integration of renewable energy such as geothermal or solar energy.

## FEBRUARY

Distinguished McGill alumnus Victor Goldbloom, BSc'44, MD'45, DipEd'50, DLitt'92, **dies at the age of 92**. A pediatrician by academic training, Goldbloom was a strong supporter of McGill and taught at the University from 1950 to

1970 before fully committing himself to public service.

The Natural Sciences and Engineering Research Council of Canada (NSERC) names McGill astrophysicist Vicky Kaspi the **2016 recipient of the Gerhard Herzberg Canada Gold Medal for Science and Engineering**. Kaspi is the first woman, and one of the youngest researchers, to win NSERC's highest honour. {03}

**Twenty-five McGill researchers are awarded Canada Research Chairs.**

The funding will benefit research in areas such as the genetics of pain and childhood disability, the ecology of the Arctic and engineered quantum systems.

For the eighth year in a row, **McGill is named one of Montreal's Top Employers** for a wide range of factors – including its staff fitness program, athletics facilities, green urban campus and a parental leave that extends the regular provincial plan.

## MARCH

Tobias Rees, Associate Professor of the Social Studies of Medicine, whose work engages with questions of how immunity and self are conceptualized, is **named a Fellow at the Canadian Institute for Advanced Research.**

Student teams from the Faculty of Law finish first in **three national moot competitions this spring:** the Gale Cup, the Laskin Moot, and Le Concours Pierre-Basile Mignault.

McGill's Research and Innovation hosts the 11th annual Bravo gala to **celebrate researchers who have won prizes and awards during the previous year.** In all, 77 laureates are honoured.

BCom student teams from the Desautels Faculty of Management **take first and second places in the Undergraduate Division** at the National Investment Banking Competition in Vancouver. It is recognized as one of the most prestigious

financial case competitions in North America.

The top-ranked Martlets basketball team **captures its fifth consecutive Quebec conference championship** {04} while the top-seeded Redmen basketball team **wins its third Quebec crown in four years.**

## APRIL

McGill honours its leaders in **sustainability** at the sixth-annual Catalyst awards. Students, faculty and staff are recognized for their dedicated and creative efforts to make

the University a more sustainable community. {05}

Prof. Isabelle Daunais, of the Département de langue et littérature françaises, **wins the Canada Council's Killam Prize for the Humanities.**

The Killam Prize is one of the country's most prestigious awards and given annually to five researchers in the respective fields of humanities, social sciences, natural sciences, health sciences and engineering. {06}

Marc Gélinas is appointed **the new Executive Director of McGill Athletics and Recreation.** He is a former pitching prospect for the Pittsburgh Pirates and a McGill alumnus with strong sports leadership background at both the federal and provincial levels.

A team led by Prof. Jake Barralet **receives \$1.65 million from NSERC** to provide nearly 90 students with cross-disciplinary training to prepare them for high-skill jobs in the surgical devices industry.

The project covers all aspects of surgery-related technology, from tools for diagnosis and patient risk reduction to postoperative monitoring and care.

## MAY

Principal Suzanne Fortier **joins as a member of the Global University Leaders Forum (GULF).** McGill becomes the first Canadian university to join the forum, which acts as an intellectual community within the World Economic Forum to advise its leadership on matters relating

to higher education and research, and also serves as a resource for the Forum's members and constituents.

A team of scientists from McGill, the University of Cambridge and Stanford Graduate School of Business **develops a new method of categorizing music.** The researchers learn that people's preference for these musical categories is driven by personality, a finding that has important implications for industry and health professionals.

More than 100 of the **world's most brilliant thinkers take part in the inaugural Simnovate International Summit.** Hosted by McGill's Steinberg Centre for Simulation and Interactive Learning, the Summit encourages participants to immerse themselves in the spirit of breaking conventions and developing new directions for health care by temporarily leaving their day jobs behind and becoming "simnovaters." {07}

McGill **wins two significant international awards for its**

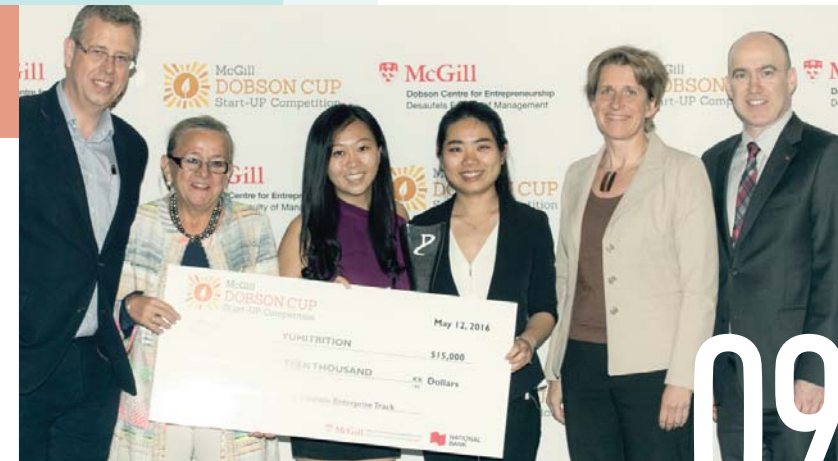

**five-year Sustainable Procurement Strategy.** The Green Electronics Council honours McGill as a 3-Star EPEAT Purchaser, while the Sustainable Purchasing Leadership Council gives McGill an Outstanding Case Study award. {08}

Graham Bell, James McGill Professor of Biology, is **among 50 new Fellows elected to the Royal Society,** the U.K.'s national science academy. The founding president of the Canadian Society for Ecology and

Evolution, Bell is known for his work on experimental evolution, using laboratory populations of microbes to investigate fundamental questions about how organisms adapt through natural selection to novel environments.

## JUNE

After a year of planning and over 150 start-up submissions, the McGill Dobson Centre for Entrepreneurship **awards over \$117,000 in prizes to the winners of the McGill**

**Dobson Cup Start-Up Competition.** This year, a record of 17 winning teams across the four tracks took home cash prizes to support their ideas and take their projects to the next level. {09}

Angelique Mannella is **named McGill's first Associate Vice-Principal of Innovation.** She is responsible for overseeing McGill's innovation agenda, working closely with the faculties and the student body to foster and support the community in building internal

and external partnerships.

Suzelle Barrington, a Bioresource Engineering professor, and John Gruzleski, Emeritus Professor in the Department of Mining, Metals and Materials Engineering, are among 43 new Fellows **inducted into the Canadian Academy of Engineering.**

McGill **wins eight Prix d'Excellence awards at the Canadian Council for the Advancement of Education's national conference** in Saskatoon – five gold and three silver medals – tying

with the University of Alberta for most in the country.

Thirteen members of the McGill community, including three researchers, **are named to or promoted within the Order of Canada**, while seven McGillians **are appointed to the National Order of Quebec**, the province's highest civilian honour.

### JULY

McGill students **take home top prizes at the annual Institute of Food Technologists conference**, the world's

largest gathering of food science professionals. The two teams win for a vegan burger that cooks and tastes like beef and a super-nutritious stew customized to battle calcium-deficiencies in Yemen.

World-renowned pain specialist and medical cannabis researcher Dr. Mark Ware, director of clinical research at the Alan Edwards Pain Management Unit of the McGill University Health Centre (MUHC), is **nominated vice-chair of an important federal task force** that will

provide guidance to the Canadian government as it prepares to introduce legislation to legalize marijuana in spring 2017. {10}

Scientists at the Montreal Neurological Institute and Hospital, led by Alan Evans, **use a powerful tool to identify the first physiological signs of late-onset Alzheimer's disease**. The research underlines the importance of computational power in future neurological breakthroughs. {11}

McGill **ranks first in Canada, and 37<sup>th</sup> globally, in the Nature Index 2016 Rising Stars supplement**, which identifies institutions showing the most significant growth in high-quality scientific research publications over the past four years.

### AUGUST

Three athletes are among a 23-member entourage of McGill graduates and students **participating in the Summer Olympic Games** in Rio de Janeiro, Brazil. The athletes include wrestler Dorothy Yeats,

an engineering student, and a pair of fencers—both recent graduates—Maximilien Van Haaster, BEd Kinesiology'16, and Joseph Polossifakis, BCom'14. One student and four graduates also **serve in an official capacity with Team Canada at the 2016 Paralympic Games**. {12}

Prof. Chris Buddle **begins his five-year term as McGill's Dean of Students**. An award-winning researcher, he has been a member of the Department of Natural Resource Sciences since 2002.

The Monteregie Connection project, led by five McGill researchers, **wins the Mont Saint-Hilaire Nature Centre's Alice E. Johannsen Award of Excellence** in recognition of its research activities, involvement of stakeholders from the area and use of various scenarios for the development of the Vallée-du-Richelieu area.

13

14

16

15

17

**SEPTEMBER**

McGill **earns a Gold rating in sustainability** from the Association for the Advancement of Sustainability in Higher Education's Sustainability Tracking, Assessment and Rating System (STARS).

McGill researchers **garner two of the five prestigious 2016 Trudeau Fellows**.

Catherine Potvin {13} of the Faculty of Science and Adelle Blackett {14} of the Faculty of Law will each receive a total of \$225,000 over the next

three years to support innovative projects designed to address challenges facing both Canadian and global populations.

The Royal Society of Canada (RSC) honours a total of 19 members of McGill University. Ten McGill scholars are **named RSC Fellows**, while another seven scholars **become members of the College of New Scholars, Artists and Scientists**. Additionally, Prof. John A. Hall {15} of the Department of Sociology is **awarded the Innis-Gérin**

**Medal** for his sustained contributions to the social sciences, while Prof. Vijaya Raghavan is **elected President of RSC's Academy of Science**.

Members of the McGill, Montreal and Indigenous communities gather on lower campus for the **official launch of the Provost's Task Force on Indigenous Studies and Indigenous Education**. The Task Force aims to increase Indigenous presence at McGill among students, staff and faculty, and to expand the

University's relationship with the Indigenous communities locally and across Canada. {16}

**OCTOBER**

Celebrated McGill philosopher Charles Taylor is **named the first winner of the \$1-million Berggruen Prize**. Taylor, a professor emeritus, is considered one of the world's foremost philosophers and has collected several major academic prizes in recent years.

McGill administration **creates an Advisory Council on Sustainability** for senior academic leaders, administrators, students, and members-at-large. The council provides strategic advice to position the University as a leading institution on sustainability in North America.

Award-winning bestselling novelist Margaret Atwood **gives the 2016 Beatty Memorial Lecture** in Pollack Hall. Her topic is "Environmental Crisis and the Humanities." {17}

The McGill Board of Governors **approves the appointment of Prof. Brenda Ravenscroft as Dean of the Schulich School of Music**.

**NOVEMBER**

Leonard Cohen, BA'55, DLitt'92, **dies at the age of 82**. The legendary poet and singer-songwriter, whose anthem "Hallelujah" has touched souls around the world, ranks among McGill's most notable alumni.

18

The Institut Nordique du Québec names Murray Humphries, a professor in the Department of Natural Resource Sciences, as **one of its inaugural Northern Research Chairs**. The Institut aims to harness Quebec's academic, industry and community expertise to advance the sustainable development of the North. {18}

19

*The Work of the Dead: A Cultural History of Mortal Remains* by Thomas W. Laqueur **wins the 2016 Cundill Prize in Historical Literature at McGill**. The book offers a compelling and richly detailed account of how and why the living have cared for the dead, from antiquity to the twentieth century.

McGill students Angela Yu, Beatrice Yeung and Aaron Gluck-Thaler **capture Rhodes Scholarships**, bringing to 142 the number of McGill Rhodes Scholars since the awards were created in 1902.

Education professor Claudia Mitchell **wins the SSHRC's Gold Medal** for her 25 years of participatory research in Ethiopia, South Africa and Canada. The award is the SSHRC's highest honour. {19}

20

**DECEMBER**  
Mélodie Daoust of the McGill women's hockey team is named female athlete of the year in the team sports category and among **15 McGill students to receive an athletic financial award** at the 31st annual Quebec Foundation for Athletic Excellence gala. {20}

The Honorable Michael A. Meighen agrees to serve a **second term as Chancellor of McGill University**. Meighen has been Chancellor since July 1, 2014.

McGill receives funding for **16 Canada Research Chairs**, which are granted to outstanding researchers acknowledged by their peers as world leaders in their fields.

The Board of Governors **approves two new senior administration appointments**. Yves Beauchamp joins McGill as the new Vice-Principal (Administration and Finance) and Martha Crago takes on the portfolio of Vice-Principal (Research and Innovation).

Astrophysicist Vicky Kaspi,

BSc'89, retired Supreme Court Justice Morris Fish, BA'59, BCL'62, LLD'01, and philanthropist Lorne Trottier, BEng'70, MEng'73, DSc'06, are among seven McGill alumni **appointed to, or promoted within, the Order of Canada**.

---

# HONORARY DEGREE RECIPIENTS

---

## SPRING 2016

**PAUL T. ANASTAS**, Doctor of Science, is the Teresa and H. John Heinz III Chair in the Practice of Chemistry for the Environment, and the Director of the Center for Green Chemistry and Green Engineering at Yale University.

**ZITA COBB**, Doctor of Letters, is a pioneer in the field of social entrepreneurship and founder of the Shorefast Foundation, which is dedicated to creating cultural and economic resiliency for Fogo Island and Change Islands.

**RUTH DEFRIES**, Doctor of Science, is a renowned scholar and environmental geographer at Columbia University whose research focuses on issues of sustainability, science policy and the impact of the human race on the earth's environment.

**SANDRA DJWA**, Doctor of Letters, is a writer, critic and cultural biographer who has played an integral role in Canada's literary history. She taught Canadian literature at Simon Fraser University, including an appointment as the J.S. Woodsworth Resident Scholar in the Humanities.

**CÉLINE GALIPEAU**, BA'80, Doctor of Letters, was Radio-Canada's first female news anchor and a role model for an entire generation of women aspiring to careers in journalism.

**VINTON GRAY CERF**, Doctor of Science, is an American computer scientist who is recognized as one of the fathers of the TCP/IP protocol suite, which represents the core functionality and architecture that defines the Internet.

**MARIA LABRECQUE DUCHESNEAU**, Doctor of Letters, is the founder of Au coeur des familles agricoles, a non-profit organization that works to meet the needs, both physical and psychological, of the agricultural community, while sensitizing the public to the agricultural environment.

**THE RIGHT HONOURABLE BEVERLEY MCLACHLIN**, Doctor of Laws, was the first female Chief Justice of the Supreme Court of Canada, the longest serving chief justice in the country's history, and the author of some of the court's most important and high-profile rulings.

**SUSAN MCCLARY**, Doctor of Music, is a leading feminist musicologist. Her research focuses on the cultural criticism of music in both the European canon and the contemporary popular genres.

**HENRY PETROSKI**, Doctor of Science, is an internationally recognized engineer, researcher, teacher, author and communicator. He has devoted his career to furthering mankind's understanding of technology and the role of design in modern society.

**LAWRENCE (LARRY) G. ROSSY, BA'65**, Doctor of Laws, is an entrepreneur, philanthropist and CEO of Dollarama, Inc. Under his prescient leadership, his business empire has grown to include over 1000 retail stores across Canada.

**DR. E. FULLER TORREY**, MDCM'63, Doctor of Science, is a research psychiatrist who has distinguished himself through a lifelong commitment to improving mental illness research and mental health care. He was an early proponent of the biological basis of schizophrenia and bipolar disorders.

**ANDREAS WIMMER**, Doctor of Letters, is a professor of sociology and political philosophy at Columbia University. He has helped us more than any other recent scholar to understand state formation, nation building, ethnic conflict and war.

## FALL 2016

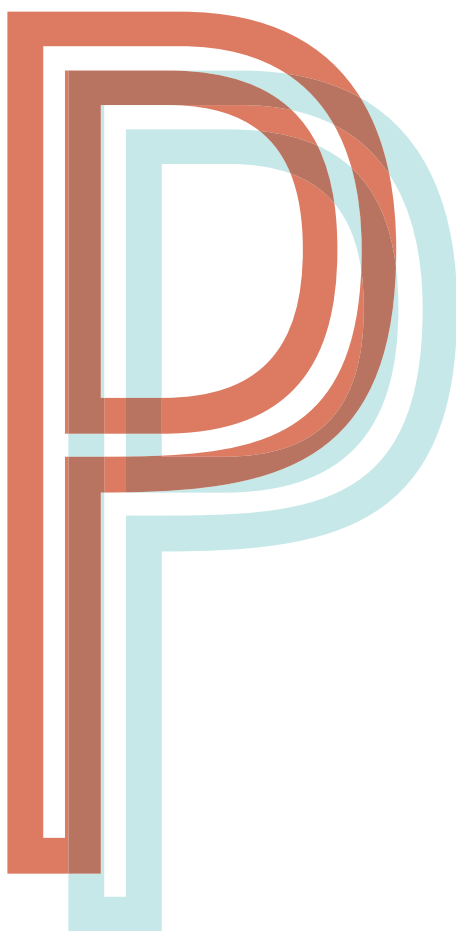

**BERTRAND CESVET**, BA'86, MBA'90, Doctor of Letters, is the chairman and senior partner of creative services firm Sid Lee. Under his leadership, the firm has grown from a small shop in Montreal to an international powerhouse known for its creativity and unique business model.

**JOANNE LIU**, MDCM'91, IMHL'14, Doctor of Science, is the International President of Doctors Without Borders. She has worked with Malian refugees in Mauritania, people affected by the earthquake in Haiti and the tsunami in Indonesia, and war-wounded patients in Syria.

# ALUMNI + DONORS

## 2016 HIGHLIGHTS

### MOST SUCCESSFUL ONE-DAY FUNDRAISER

McGill's first-ever Day of Giving, **MCGILL24**, took place on March 16, 2016.

The campaign raised **OVER \$793,000** for causes across McGill, making it the most successful one-day fundraiser of its kind in Canadian university history.

Of the almost **1,600 DONORS** around the world who supported the campaign, **ONE-THIRD** had never given to McGill before.

### NEW NETWORKING PLATFORM

In August 2016, McGill launched **MCGILLCONNECT**: a career and mentoring platform designed to make it easier for alumni, students, faculty and staff to connect with each other and make the most of McGill's professional networks around the world. More than **4,800 MCGILLIANS** have joined the community since its launch.

### HOMECOMING WEEKEND

Homecoming 2016 took place from October 27-30, 2016.

More than **2,500 ALUMNI** attended **70 EVENTS** downtown and at Mac campus, including **342 GRADUATES** celebrating their **50<sup>TH</sup> CLASS REUNION**.

Alumni returned to campus from countries including France, China and Barbados: in total, almost **ONE IN SIX** Homecoming attendees came from outside of Canada.

### TRANSFORMATIVE GIFT TO OPEN SCIENCE

On December 21, 2016, the Montreal Neurological Institute (MNI) welcomed Prime Minister Justin Trudeau, BA'94, to help celebrate a landmark **\$20-MILLION GIFT** from the **LARRY AND JUDY TANENBAUM FAMILY** to launch the **TANENBAUM OPEN SCIENCE INSTITUTE**. The MNI will be forgoing patents for its discoveries and putting efforts in place to make its research findings – and all the data associated with that research – widely available.

This establishes the MNI as the **FIRST MAJOR RESEARCH INSTITUTE** of its kind to make such a wide-ranging commitment to the philosophy and practice of open science.
