FACULTY OF ARTS SUMMER JNDERGRADUATE RESEARCH INTERNSHIP AWARDS

Faculty of Arts Undergraduate Research

www.mcgill.ca/aur

😽 McGill

What is ARIA

- Established in 2010, the purpose of the Arts Undergraduate Research Internship Award (ARIA) is to support undergraduate students who undertake research during the summer under the direct supervision of a faculty member. Students contribute to the professor's research agenda while gaining useful academic research skills.
- The Faculty of Arts support Undergraduate Research Internship Awards, each with a value \$2,500. These awards are matched by individual faculty members \$2,000 to provide a total award of \$4,500 to the student.
- The ARIA Program is supported by the generous contributions from McGill alumni and the Arts Student Employment Fund.

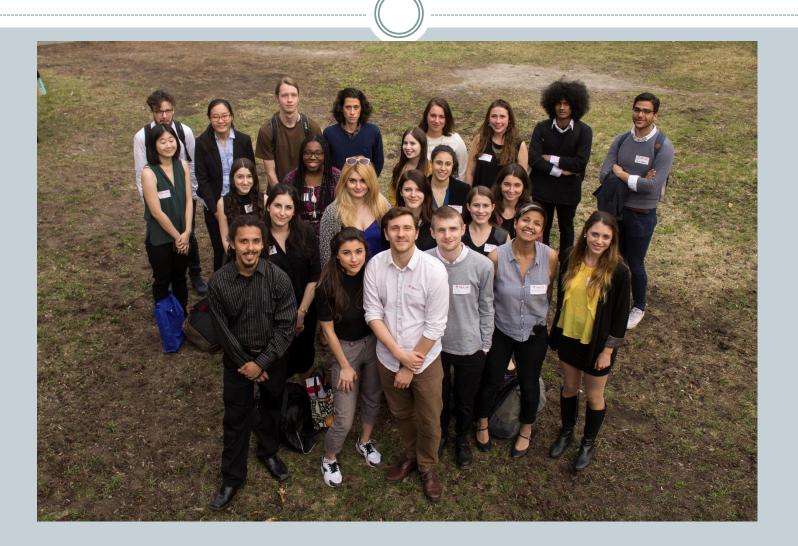

Roundtable

- Congratulations!
- With awards come responsibilities/expectations
 - McGill ambassador : students/donors/departments/faculty
 - Internship: learning goals and outcomes

ARIA Workshop & Responsibilities

Responsibilities for ARIA recipient

Workshops

- ARIA Library Research Workshop: Preparing for a Research Internship (YouTube videos)
- Poster Workshop
- ARIA Summer Zoom meetings Building a research community

• #RemoteARIAProject Facebook post

- A brief description of your research status/result (max.100 words), accompanying with a photo
- Send to <u>aio@mcgill.ca</u> by June 15
- We except at least one post each

McGill Faculty of Arts Internship Office June 26, 2019 · 🕤

Naba Tahir , an ARIA recipient for the Economics department, is nearly two months into her research project with Professor Robert Cairns. They are currently working to propose a climate policy that can reduce emissions of greenhouse gases and can be adopted internationally; however, finding signatories for an international agreement and then ensuring their compliance is easier said than done, but with the use of game theoretical calculus and by looking at the conditions of the political economy within several countries, they have made significant progress in their research proposal. Although she is back home in the states for a few weeks, Naba continues to work through papers and material from the news, and then updates Prof. Cairns in a weekly summary email.

Final Reports

Final Report

ARIA recipients submit a final report and feedback at the end of their ARIA internship discussing their learning over the summer.

• Due by August 20, 2020. Submitted via email to <u>anne.turner@mcgill.ca</u>.

Report Outline (750 words)

- A short outline of your project.
- Tell the reader why you wanted to do an ARIA project.
- What were your learning objectives.
- What were some of the highlights? Give some examples.
- What were some of the challenges that you encountered? How did you overcome them?
- How do you think ARIA has or will shape your future career and education path?
- If applicable, please thank the donor who funded your Award. Your report will be sent to your donor in appreciation of her / his contribution.

Digital photo

• include one photo that represents your research experience and corresponding caption at the end of your final report in Word document.

Responsibilities for ARIA recipient

- RSVP and communication with AIO office
- Responsibilities
 11 weeks / max 25-30 hours per week
 - AUR Event (posters/share experience)
 - Final Reports
 - Facebook posts

ARIA Library Research Workshop

Preparing for a Research internship

Library Workshop

- In these workshops, students learn skills that they will use immediately, and throughout their academic/professional careers.
 - Library Remote Access (18 min)
 - <u>Search Skills</u> (27 min)
 - <u>Scholarship Management</u> (9 min)
 - <u>Sharing Scholarship</u> (7 min)
 - <u>Zotero video course (optional but suggested, 90 min)</u>

• By the end of the workshop ARIA students will have:

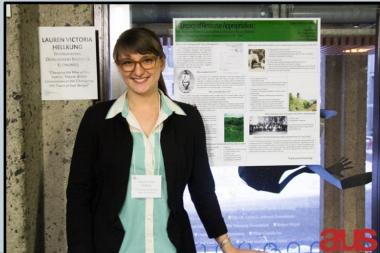

- Translated their research topic into a powerful search strategy that will uncover relevant information.
- Been introduced to the most essential subject-specific library resources relevant to their research topic, and to the variety of library services available to them.
- Been introduced to the bibliographic management software EndNote, and will have populated a database with references related to their research topic.
- Learned how to critically assess the relevance and appropriateness of the information they found.
- Learned about the value of disseminating their research, and about library resources to help them publish.

Poster Presentation

Poster Guidelines

Deadlines

• Poster completed must be submitted to LEA 307 by August 20.

× PDF copy emailed to <u>aio@mcgill.ca</u>

Dimensions

- 48 inches wide and 36 inches tall (maximum)
- Orientation: horizontal

Students must cover the cost of poster printing

- Recommendation use McGill's Printing Service
 - Contact <u>Printing Services</u> and mention it is for the Arts Undergraduate Research Event
 - Alternative printing option: Copy EUS (McConnell Building)
