WE CAN CHANGE. WE WILL CHANGE.</p> <p>With glaciers melting, seas rising, and 17 of the 18 hottest years on record coming this century, we know humanity must change and act boldly to solve the climate crisis.</p> <p>The good news is that we know we can. Solar, wind, and other renewable solutions are becoming more affordable every year. And all around the world, countries from China to Chile are seizing the moment, working to cut emissions under the Paris Agreement and create a safe, sustainable, and prosperous future powered by clean energy.</p> <p>At Climate Reality, our job is to ensure we will. Led by Vice President Gore, we use twenty-first century digital tools and activist trainings to share the truth about the crisis and empower everyday people to become powerful forces for change.</p> <p>The result: globally, nearly 27,000 Climate Reality Leaders spreading climate hope and confronting denial everywhere from street corners across the world, to the White House and Parliament Hill in Canada. A growing movement of millions speaking truth to power and fighting for climate solutions at every level. A clean energy revolution accelerating planet-wide.</p> <p>The road forward is clear. The power to change is in our hands.</p> <p>The Climate Reality Project has branches in 10 countries, including Canada.
