

INTERNSHIP OPPORTUNITY WITH ELIMU SUMMER 2022

POSITION:	Intern (2 Positions)
LOCATION:	Kianyaga, Mt. Kenya region, Kenya
DESCRIPTION OF HOST	Elimu is a Kenyan NGO founded by McGill Professor Matthieu Chemin in 2006, which
ORGANIZATION:	undertakes the rigorous evaluation of development projects in order to identify the most effective ways to reduce poverty. Elimu uses randomized experiments to achieve this goal.
	Elimu is partnering with the Kiangurwe community to generate micro-hydro electricity for the community. With affordable electricity, farmers may use water pumps for irrigating high value crops, microentrepreneurs could start businesses, women may save on household chores, children may spend more time doing homework with proper lighting. Elimu's goal is to rigorously evaluate the potential benefits of access to electricity and compare them to the costs of running such an operation, in order to inform decision makers and other African communities about the desirability of such a project. Elimu is also looking into testing the effects of productive electrical appliances that could be used with this electricity, such as mobile money, digital finance, or communication apps.
	In 2015, Elimu launched an online tutoring program where, by receiving online tutoring from university students in developed countries, students in developing countries should increase their grades, learn how to use computers, and gain exposure to new people and environments. Our research has now entered an experimental stage where we provide weekly online tutoring sessions between McGill students and 25 randomly chosen grade 6 students via Zoom.
	In another project, Elimu has tested the effects of access to legal institutions for small scale farmers engaged in land conflicts on their security of property rights and investment. We now hope to combine this approach with the remote aspect of the tutoring project described above, whereby law students from McGill in conjunction with law students from Kenya would give legal aid to small scale farmers. We call this project "remote legal aid".
