

POSITIONS AVAILABLE

Seeking graduate students (M.Sc. and Ph.D.) and postdoctoral fellows for as early as Summer 2024. Candidates can start later if the positions are still available. For graduate students, tuition assistance and a living allowance will be provided to the qualified individual.

Projects include: water resources management, methane emissions from livestock, reduction of freshwater contamination and flood control in vulnerable areas/populations. Supervision and resources will be provided in a dynamic lab setting.

A CV and unofficial transcripts should be sent to: chandra.madramootoo@mcgill.ca
