

The Biology Equity Diversity and Inclusion committee will host:

An Information session on

OPPORTUNITIES FOR BIPOC STUDENTS IN BIOLOGY

*Black, Indigenous and People of color

We will dive into:

1

Summer internship awards for BIPOC students

Are you interested in doing science? We offer summer awards for students to gain valuable hands-on experience in the lab, or in the field, for Summer 2022. We will discuss in detail how to apply for these awards and answer all of your questions!

2

Mentorship program

Our special guests from STEMM diversity @ McGill will talk about their mentorship program. STEMM Diversity is a student run initiative housed in the Redpath Museum that promotes underrepresented groups in STEMM (science, technology, engineering, math, and medicine).

February 17th, 2022 | 7 to 8 PM
