McGill Brace Centre for Water Resource Management

24th Eastern Canadian Symposium of the Canadian Association for Water Quality

and

8th Annual Symposium of the McGill Brace Centre

McGill University

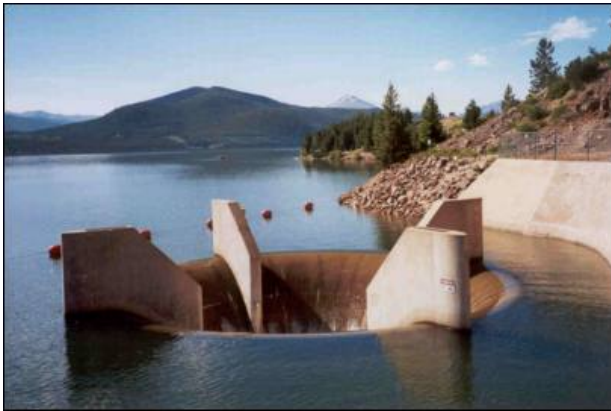

Friday, November 7, 2008

Canadian Association for Water Quality (CAWQ)

The CAWQ is a non-governmental, non-profit organization for scientists, engineers, technologists, managers, practitioners, and students engaged in research on water quality or on control or treatment of water contamination.

Founded in 1967, CAWQ is the Canadian national member, jointly with the Canadian Water and Wastewater Association, of the International Water Association (IWA).

McGill Brace Centre for Water Resource Management

The Brace Centre for Water Resources Management brings together staff from several McGill faculties, to undertake research, teaching, specialized training, and policy and strategic studies in water resources management, both in Canada and internationally.
