9th Annual Symposium
PROGRAM

Chair: Van-Thanh-Van Nguyen
Director, Brace Centre for Water Resources Management

10:00 Integrating Hydrological Modelling and Stakeholder Engagement for Climate Change Adaptation
Prof. Susan Gaskin, McGill University, Canada

10:30 Climate Change Research Work at Victoria University in Australia
Professor Chris Perera, Victoria University, Australia

11:00 Present and Future Changes in Precipitation in Denmark – When Changes Exceed Expectations
Professor Karsten Arnbjerg-Nielsen, Technical University of Denmark, Denmark

11:30 Group Built Social-Economic Environmental System Dynamic Models for Participatory Watershed Management
Professor Jan Adamowski, McGill University, Canada

12:00 BREAK

13:15 KEYNOTE LECTURE: Water Policies under Stress: A Case Study of the Murray Darling Basin
Professor John Langford, University of Melbourne, Australia

14:00 Tracking the Fate and Transport of EDCs and PPCPs in Natural Waters
Professor Wu-Seng Lung, University of Virginia, USA

14:30 Wastewater Treatment Paradigm Shift: Mixed-culture Biotechnology for Material and Energy Recovery
Professor Dominic Frigon, McGill University, Canada

15:00 Drinking Water Disinfection by UV Technology
Professor Jiangyong Hu, National University of Singapore, Singapore

15:30 Climate Impacts on Water Resources in Australia
Dr. Stephen P. Charles, CSIRO, Australia

16:00 Uncertainty from Dynamic Downscaling: Inter-comparison of Regional Climate Models for Quebec region
Dr. Philippe Gachon, Environment Canada, Canada

16:30 Some Recent Advances in Statistical Downscaling of Extreme Hydrologic Processes for Climate-Related Impact and Adaptation Studies
Professor Van-Thanh-Van Nguyen, McGill University, Canada

17:00 LIGHT REFRESHMENTS

September 23, 2010
10:00 to 17:00 hrs
New Residence Hall
Prince Arthur B
3625 Avenue du Parc
Montréal, Qc

All are welcome to attend.

Brace Centre

brace@mcgill.ca

McGill

Objectives
To present recent advances in research and to provide a forum for discussing, sharing experiences, and making connection on various issues related to climate and its effects on water resources management.
