

## WEDNESDAY

	ROOM 1	ROOM 2	ROOM 3	ROOM 4	ROOM 5
Time	<b>PARALLEL SESSION 1:</b> RECARIBE meeting (Waste Management)	<b>PARALLEL SESSION 2:</b> Centers for Disease Control (CDC)/ Water Safety Planning – experiences in the Caribbean region	<b>PARALLEL SESSION 3:</b> Integrated Watershed and Coastal Areas Management	<b>PARALLEL SESSION 4:</b> Caribbean Sustainable Energy Forum	<b>PARALLEL SESSION 5:</b> Water Resources and Coastal Zone Management
9.00	Opening: Greetings and Recognitions	Christopher Cox and Savitri Jetoo: Water Safety Planning (WSP) Demonstration Initiative for Linden Guyana	Lessons Learned workshop (closed session)	David Ince: More than Dollars and Cents: Why Renewable Energy has been Slow to Take-off in the Caribbean	Jason Alexander: Doubts about droughts? Elements of a suitable National Drought Policy for Trinidad and Tobago
9.30	Allan Hunt: Green and Clean Islands, New Perspectives on Old Issues	Laverne Walker: Wetland wastewater treatment plants as a best practice for rural settlements on impervious soils in St. Lucia	Lessons Learned workshop (closed session)	Duane Rowe: Feed-in-tariff schemes (FiTs)	Joanna Richards: The Development of the SPI and NDVI for 3 study sites in Jamaica, with an investigation into their use in understanding soil water during water stressed conditions in Jamaica
10.00	Garfield Murray: Roles & Functions of the National Solid Waste Management Authority in Jamaica	Ashok Sookdeo: Safe Water Initiative Project: Ministry of Health, Guyana	Lessons Learned workshop (closed session)	Detlef Loy: Policy achievements and perspectives for RE electricity generation in the Caribbean	Mark Barnett: The Impact of the Present Drought on NWC Water Supply Services to Kingston and St. Andrew
<b>10.30</b>	<b>Break</b>	<b>Break</b>	<b>Break</b>	<b>Break</b>	<b>Break</b>
11.00	Hubert Urlin: Informal Waste Separation and Waste Diversion - The Guyana Experience	CDC	Lessons Learned workshop (closed session)	Maxine Nestor: CARICOM Presentation	Jacob Opadeyi and Paulette Bynoe: Quantitative Assessment of the Impact of Land use on the Biophysical Characteristics of Demerara Sub-Watershed in Guyana
11.30	Charlotte McDevitt: Sustainable Waste Management within the British Virgin Islands	CDC	Lessons Learned workshop (closed session)	Chinyere Nwaogwugwu: Trading Carbon Offsets- A Caribbean Tale	Joanna Richards: An investigation into the feasibility of using SWAT at the sub-basin level for simulating hydrologic conditions in Jamaica
12.00	May Cornwall: Waste-to-Energy is Coming to the United States Virgin Islands	CDC	Lessons Learned workshop (closed session)	Ales Dakic: Case study of renewable energy support incentives of Germany and United Kingdom and the applicability to the Caribbean	Jacob Opadeyi and Paulette Bynoe: Development of a Watershed Management Plan for the Demerara Sub-Watershed in Guyana
<b>12.30</b>	<b>Lunch</b>	<b>Lunch</b>	<b>Lunch</b>	<b>Lunch</b>	<b>Lunch</b>
<b>13.00</b>	<b>Lunch</b>	<b>Lunch</b>	<b>Lunch</b>	<b>Lunch</b>	<b>Lunch</b>
<b>13.30</b>	<b>Lunch</b>	<b>Lunch</b>	<b>Lunch</b>	<b>Lunch</b>	<b>Lunch</b>

14.00	Magnus Rundquist: Integration of Energy from Waste (EfW) in the Caribbean	CDC	Lessons Learned workshop (closed session)	Benjamin Jargstof: Are Hurricanes a Development Constraint for Wind Energy in the Caribbean	Natalie Boodram: Riverine riparian buffers for water quality protection in Trinidad
14.30	Morrison Burns: A management option for landfill leachate	CDC	Lessons Learned workshop (closed session)	Sven Homscheid: Hydropower development in the Caribbean - Lessons learned from projects in St. Vincent and Dominica	Angel Gonzales: Phytoplankton as biological quality element in the monitoring program of Cienfuegos Bay, Cuba.
15.00	Michael Dorsch: New Geosynthetic Materials Enhance Sustainability – From Solar and Synthetic-Turf Landfill Caps to Fresh Water Conservation.	CDC	Lessons Learned workshop (closed session)	Anthony Chen: Small Scale Wind and Photovoltaics Feasibility	Kwame Emmanuel: Sustainable freshwater management and public perception: The case of Barbados
<b>15.30</b>	<b>Break</b>	<b>Break</b>	<b>Break</b>	<b>Break</b>	<b>Break</b>
16.00	Clarkston Trott: Hazardous Waste Management Practices in Bermuda	CDC	Lessons Learned workshop (closed session)	Darlene Field: A Cost analysis of Photovoltaic Technologies under Jamaica's Climatic Conditions	Richard Huber: EcoEconomics and Management Effectiveness of Marine Parks and Environs in the Caribbean
16.30	Ed Nesselbeck: Hazardous Waste Roundtable Discussion	CDC	Lessons Learned workshop (closed session)	Anthony Coleman: Building a Local Solar Panel: Issues and Experiences	Anthony Mckenzie: Beach access rights and justice – a case for equity considerations in resource allocation
17.00	Ed Nesselbeck: Hazardous Waste Roundtable Discussion	CDC	Lessons Learned workshop (closed session)	Maikel Oerbekke: Solar Cooling and Integrated Energy Efficiency to Increase Overall Savings	María E. Castellanos González: Public Awareness through non-formal environmental education in coastal communities

# THURSDAY

	ROOM 1	ROOM 2	ROOM 3	ROOM 4	ROOM 5
<b>Time</b>	<b>PARALLEL SESSION 1 continued: ReCaribe meeting (Waste Management)</b>	<b>PARALLEL SESSION 6: Environmental Health and Water Quality</b>	<b>PARALLEL SESSION 3 continued: Integrated Watershed and Coastal Areas Management</b>	<b>PARALLEL SESSION 4 continued: Caribbean Sustainable Energy Forum</b>	<b>PARALLEL SESSION 7: Climate Change/Appropriate technology</b>
9.00	Karen Alleyne: PLAS-CRETE: Manufacture of Construction Blocks with shredded PET and HDPE	Shermaine Clauzel: Integrated Eco-Health Assessment in the Americas	Lessons Learned workshop (Open session)	Ernie Stapleton: Renewable Energy Development on Nevis - Lessons Learned	Pisi Seluganiu: Water Variability and Climate Change Related Response Measures in Tuvalu
9.30	Ashok Sookdeo: Biomedical Waste Management in Guyana	Martin Forde: Assessing exposure to Persistent Organic Pollutants (POPs) in the Caribbean	Lessons Learned workshop (Open session)	Herbert Samuel: Welectricity. Energy Efficiency, meet Social Networking™: A new approach to household energy efficiency.	Benjamin Jargstorf: What is the 'Green Paradox' and what it could mean for the Caribbean?
10.00	Navarine Hylton: Implementation of Alternative (Non-Incineration) Medical Waste Treatment Technology in Jamaica	Nebojsa Fieskovic: Intelligent Energy Efficiency Control in Hospitals	Lessons Learned workshop (Open session)	Bill Meade: Performance Contracting for Energy Services in the Caribbean Hotel Industry	Denise Simmons & Paulette Bynoe: Energy Efficiency and Carbon Emission Reduction: a review of Guyana's Low Carbon Development Strategy (LCDS) (climate change)
10.30	Break	Break	Break	Break	Break
11.00	Ed Nesselbeck: Biodryer Green Waste Systems	A.O. Al-Jasser: Pipe service age effect on water quality in during water transmission and distribution	Lessons Learned workshop (Open session)	Elliot Edwards: Energy Efficiency in Typical Caribbean Office Buildings	Jorge Gonzalez: Climate Changes in the Caribbean and Implications on the renewable energy resources for the region
11.30	Andy Wade: Getting the most out of E-waste and Florescent Lamp Recycling	Sandy Nettles: Proper Well Construction Techniques and Well Field Management in the Caribbean	Lessons Learned workshop (Open session)	Leonard Duane: Energy Efficiency Study of Government Buildings	Maria Protz: Communication" – The Missing "C" in Community-based Coping with Climate Change in the Caribbean
12.00	Randy Brown: ReCaribe Planning Discussion and Closing	May Cornwall: Wastewater infrastructure rehabilitation in the USVI	Metiek Ngirchchol: Developing Integrated Water Resource Management in the Republic of Palau	Rawley Isaac: Geothermal Development in Nevis	Judy Daniel: Are our laws and institutions ready for climate change?

12.30	Lunch	Lunch	Lunch	Lunch	Lunch
13.00	Lunch	Lunch	Lunch	Lunch	Lunch
13.30	Lunch	Lunch	Lunch	Lunch	Lunch
14.00	CUNY/CARIB-EST	Nilsia Johnson: Assessment of Wastewater Treatment Plants in Jamaica by the Ministry of Health	Lisa Kirkland: A Model for Sustainable Watershed Management: The Case of Drivers River, Portland, Jamaica	CHENACT Meeting	Pablo Rosenthal: Our Planet: Using innovation to highlight the need to use and manage natural resources efficiently in the Caribbean
14.30	CUNY/CARIB-EST	Laverne Walker and Alex DuBoulay: Mainstreaming Saint Lucia's National Plan of Action through a North West Coast Water Quality Demonstration Project	Marko Tosic: Watershed Modeling in the Caribbean: Application of Geographic Information Systems in the Assessment and Management of Land-Based Sources of Marine Pollution	CHENACT Meeting	Marc Sandy: Sustaining the development of industry in Trinidad and Tobago: Renewable Energy, Energy Efficiency and Green Manufacturing.
15.00	CUNY/CARIB-EST	Marilyn Rameet Samad: Analysis of the Nutritional Content of Duckweed and the Quality of Water that Supports its Growth.	Alex Ifill: Using GIS to monitor the potential Impact of Development on Water Supply and Coastal Zone Management in Barbados	CHENACT Meeting	Natalie Boodram: An Approach to Sustainable Consumption and Production in the Caribbean
15.30	<b>Break</b>	<b>Break</b>	<b>Break</b>	<b>Break</b>	<b>Break</b>
16.00	CUNY/CARIB-EST	Gurpal Toor: Connections between Land Use Changes and Water Quality in a Subtropical Urban Coastal Watershed in Florida, USA	Trevor Thompson & Marie Claire St. Jacques: National Water Information Systems: A tool to support integrated water resources management in the Caribbean	CHENACT Meeting	Ruben Contreras: Cellulosic Ethanol Technology as Waste Management tool – the Belize Potential
16.30	CUNY/CARIB-EST	Alex DuBoulay: Development of Recreational water standards for St. Lucia	Halla Sahely: Combining sound science, legal action and stakeholder involvement to protect a vulnerable coastal aquifer on the island of St. Kitts	CHENACT Meeting	Kevin Harris: Solar Powered Automated Greenhouse Irrigation System Installation
17.00	CUNY/CARIB-EST	Natalie Boodram: Environmental Flows for Caribbean Rivers	Angel Perez: Capacity building with a new paradigm in environmental management: The Integrated Watershed and Coastal Area Management in Cienfuegos, Cuba.	CHENACT Meeting	Christopher Cox: Rainwater harvesting in the Caribbean
