This workshop is designed to assist faculty members who aspire to write about their medical education research, innovations, perspectives and experiences. For most, writing is a daunting challenge; we will therefore explore some myths and truths about writing for publication. Effective writing is a skill, not a talent, so we will discuss some of the secrets of successful writers while outlining the steps to writing competence.

This workshop is an Accredited Group Learning Activity as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

Please return your registration form as soon as possible, but no later than **October 3, 2008**, to the **Faculty Development Office**.
