New Plenary Session Announced!

Judy Cameron, Professor of Psychiatry and Director of Science Outreach at the University of Pittsburgh, is coming to Calgary for this year's Conference! Dr. Cameron brings a wealth of knowledge and research on the neurobiology of childhood adversity and its implications for adult mental health, and we're delighted to have her present on ***How Life Experiences Shape Brain Development and Why Does It Matter?***

Oral Presentation Highlights

The CCMHC Conference features over 50 concurrent presentations including:

- Mental Health Supports for Teen Parents Project
- Designing Models for Rapid Access to Youth Mental Health Services in Canada

- Understanding Clinician Perspectives on Collaborative Care Implementation and Evaluation
- The East Calgary Family Care Clinic: A Model for Mental Health Integration into the Medical Home
- Improving Quality of Life Through Managing Emotions Group
- Common Mental Disorders and Chronic Medical Conditions: How Can We Improve Patients' Mental Health Care Experience?

Pre-Conference Session
