Excellence in Healthcare and Lifelong Learning

Message from the Associate Dean

Dear Colleagues,

On behalf of the McGill University Faculty of Medicine Office for Continuing Professional Development, I invite you to join us for the 2019-2020 Thursday Evening Learning Series (TELS) as well as the Wednesday E-Learning Series (WELS). Through the concerted efforts of our dynamic scientific committee and guest faculty, supported by our dedicated administrative staff, we have created a program whose aim is to serve the educational needs of family physicians, other specialists, trainees, and allied health care professionals. Through our varied and stimulating content, including 72 lectures within 14 different disciplines, we seek to fulfil our mission of supporting health care providers in caring for diverse patient populations.

Our courses are designed to fit the learner. For individuals who prefer in-person learning, the TELS course can be attended in person on Thursday evenings. For those who favour the convenience and flexibility of a webinar, TELS can also be viewed live online via our website. The WELS course is accessed exclusively online on Wednesdays at the lunch hour. In an era of rapidly changing medical knowledge, where continuing professional development is crucial for the maintenance of competence and mandatory for licensure, both courses meet the accreditation/certification criteria of the College of Family Physicians of Canada and the Royal College of Physicians and Surgeons of Canada. As such, participants may claim Mainpro+® or MOC Section 1 credits. I invite you to consult our website for more information.

Whether you are at home, at the office, or on campus, we look forward to your participation. Register today!

Best regards,

Leonora Lalla

About the Programs

LEARNING OBJECTIVES

At the conclusion of this activity, participants will be able to:

- demonstrate their competence in a wide variety of family and general practice subjects.
- outline knowledge of new investigations, management strategies and therapies.
- provide practical office-based screening and disease prevention strategies.
- optimize communication and collaboration with other professionals in a team-based inter-professional model.

ACCREDITATION

These series meet the accreditation/certification criteria of:

- The College of Family Physicians of Canada (Mainpro+®).
- The Royal College of Physicians and Surgeons of Canada (MOC).
- Le Conseil Québécois de Développement Professionnel Continu des Médecins (CQDPCM): 2016 Code of Ethics for parties involved in Continuing Medical Education.

POTENTIAL CONFLICT OF INTEREST & COURSE DEVELOPMENT

All CPD educational programs are developed by a Scientific Planning Committee (SPC) and McGill Guest Faculty. Speakers, moderators and SPC members are mandated to disclose to the audience any real or apparent conflict(s) of interest. All decisions about the programs' content and presenters are made exclusively by the SPC.

Additional notes:

- Presentations are delivered in English. Questions may be asked in either English or French.
- Certificates will be provided by the end of each season.
