

# NEURO COURSE

October 27-28, 2023

Jeanne Timmins Amphitheatre, The Neuro

## 6th NATIONAL NEUROMUSCULAR REVIEW COURSE

Montreal Neurological Institute-Hospital (The Neuro)  
3801 University (Jeanne Timmins Amphitheatre)

### Learning Objectives

- To review the clinical presentation of the most common neurological disorders
- Elaborate an investigation plan when suspecting a neuromuscular disorder
- Review the management of selected neuromuscular disorders

### October 27

8:30 Registration & Continental Breakfast

8:50 Welcome and Opening remarks

Nicolas Dupré, CHU de Québec Université Laval

9:00 Muscular dystrophies

### **Myotonic Dystrophies, FSHD, OPMD and Most Common LGMD**

Nicolas Chrestian, PhD, Centre de recherche du CHU de Québec

10–15-minute Q&A

9:50 Common Pediatric Neuromuscular Disorders: part 1

### **Dystrophinopathies, Congenital Myopathies**

Nicolas Chrestian, PhD, Centre de recherche du CHU de Québec

10–15-minute Q&A

10:40 Refreshment pause

11:00 Common Pediatric Neuromuscular Disorders: part 2

**Spinal Muscular Atrophy, Inherited Polyneuropathies**

Hugh McMillan, MD, McGill University  
10–15-minute Q&A

11:50 Lunch and Meet our Sponsors (Jeanne Timmins foyer)

13:00 Acquired Myopathies

**Inflammatory Myopathies and Toxic Myopathies**

Erin O’Ferrall, The Neuro, McGill University  
10–15-minute Q&A

13:50 Polyneuropathies, ganglionopathies and multiple mononeuropathies

**General approach to Polyneuropathies, Ganglionopathies and Multiple Mononeuropathies**

Rami Massie, MD, The Neuro, McGill University  
10–15-minute Q&A

14:40 Refreshment pause

15:00 Myasthenia Gravis

**Diagnosis and Treatment of Myasthenia Gravis**

Michael W Nicolle MD, Department of Clinical Neurological Sciences, Western University  
10–15-minute Q&A

15:50 Neuromuscular Junction Disorders Other Than Myasthenia Gravis

**Lambert-Eaton, Botulism and Other Toxins, Congenital Myasthenia**

Oliver Blanchard, MD, The Neuro, McGill University  
10–15-minute Q&A

**16:40 Guest Lecture - Approach to Disorders of the Peripheral Nervous System**

Mazen Dimachkie, MD, University of Kansas Medical Center, USA  
10–15-minute Q&A

17:40 Closing remarks – Nicolas Dupre

**17:45 Cocktail & Networking (onsite)**

**Speed-Dating with the Experts**

- Karine Garneau
- Erin O'Ferrall
- Cam-Tu Emilie Nguyen
- Oliver Blanchard
- Rami Massie

**October 28**

8:30 Breakfast à la Montréalaise

8:55 Opening Remarks

Karine Garneau, MD, Université de Montréal

Remarks from a Platinum sponsor - Sanofi

9:00 Metabolic myopathies and channelopathies

**Pompe, McArdle, CPT2, Non-Dystrophic Myotonic Disorders and Periodic Paralysis**

Cam-Tu Nguyen, MD, CHU Sainte-Justine

10–15-minute Q&A

9:50 ALS

**Presentation, Diagnosis and Treatment of ALS + Differential Diagnosis**

Geneviève Matte, MD, Université de Montréal

10–15-minute Q&A

10:40 Refreshment Pause

11:00 AIDP, CIDP and their Variants

Karine Garneau, MD, Université de Montréal

10–15-minute Q&A

11:50 Lunch

13:00 Workshops (3 x 45 minutes)

- a) Genetic cases: Dr. Bernard Brais
- b) Muscle or nerve cases: Dr. Rami Masse
- c) EMG cases: Dr. Karine Garneau

15:15 Closing remarks: Karine Garneau, MD, Université de Montréal
