MONTREAL LIGHT MICROSCOPY COURSE  
AUGUST 15-19, 2016

---

**Please Save the Date**

**August 15 - 19, 2016**

**Montreal Light Microscopy Course – MLMC Frontiers**

[www.abif-mlmc.ca](http://www.abif-mlmc.ca)

December 2015

Dear Colleague,

Please mark your calendar – the 5-day advanced level MLMC will be held from **August 15-19, 2016**, and we sincerely hope you will join us and pass the information on to others who may be interested.

Keynote Lecture:

**Julie A. Theriot**, PhD, Biochemistry and Microbiology & Immunology, from Stanford University, will speak on *Measuring cytoskeletal dynamics and mechanical forces in rapidly moving cells*.

The goal of the MLMC Frontiers advanced course is to educate researchers and provide them with a comprehensive foundation of knowledge and training in modern light microscopy technologies. Program details will be provided in the New Year.

Thank you once again for your participation at a previous MLMC.

Please accept our warmest wishes for the holidays!

We will be in touch with more details about the MLMC 2016 advanced edition early in the New Year.

All the very best from the Program Committee,

Claire Brown, PhD

Lisa Cameron, PhD

Pina Colarusso, PhD

James Jonkman, MSc

Paul Maddox, PhD

Thomas Stroh, PhD

Erika (Tse-Luen) Wee, PhD
