

Program of the 2016 Leo and Rachel Hendlisz Award event
Tuesday, December 13, 2016, 3:30-5:30 PM
Bowerman room (B-1127), Dobell Pavilion

An event to celebrate the great research accomplished by the students and postdocs of the Douglas Institute Research Centre! Don't miss it!

- 3:30 PM Introduction
- 3:40-5:10 PM Oral presentations by the top-ranking applicants
- 3:40 PM Elsa Isingrini (Giros)
Resilience to chronic stress is mediated by noradrenergic regulation of dopamine neurons
- 3:55 PM Angela Tam (Breitner)
Common effects of amnesic mild cognitive impairment on resting-state connectivity across four independent studies
- 4:10 PM Sonya Deschênes (Schmitz)
Prediabetes, depressive and anxiety symptoms, and risk of type 2 diabetes: A community-based cohort study
- 4:25 PM Richard Boyce (Williams)
Causal evidence for the role of REM sleep theta rhythm in contextual memory consolidation
- 4:40 PM Dorothee Schoemaker (Pruessner)
Hippocampus and amygdala volumes from magnetic resonance images in children: Assessing accuracy of FreeSurfer and FSL against manual segmentation
- 4:55 PM Angélica Torres-Berrío (Flores)
DCC confers susceptibility to depression-like behaviors in humans and mice and is regulated by miR-218

- NB: • The list is not according to the ranking in the competition.
• Another well-ranked candidate, Leila Salem (Crocker), cannot be present.

- 5:10 PM Announcement of the 2016 Leo and Rachel Hendlisz Award winners
- 5:15 PM Cocktails in honour of the awardees
