

McGill University
Department of Chemical Engineering

UNDERGRADUATE STUDENT HANDBOOK

for students entering the B.Eng. program
in Chemical Engineering in September 2012 or January 2013

(updated in April 2013)

Montreal, August 2012

McGill University
Department of Chemical Engineering

UNDERGRADUATE STUDENT HANDBOOK

for students entering the B.Eng. program
in Chemical Engineering in September 2012 or January 2013

Much information concerning courses and regulations is contained in the current University Calendar, which you are advised to consult for additional information or any changes that may occur during your stay within the department.

Prof. S. Omanovic, Chairman - Undergraduate Curriculum Committee

Prof. E. Jones - Undergraduate Curriculum Committee

Prof. J.-L. Meunier - Undergraduate Curriculum Committee

TABLE OF CONTENTS

I. TEACHING PERSONNEL IN CHEMICAL ENGINEERING	4
II. DEPARTMENTAL ASSISTANCE TO STUDENTS	5
a) Academic Advisors	5
b) Undergraduate Curriculum Committee (UCC)	5
c) Canadian Society for Chemical Engineering. (C.S.Ch.E) Student Chapter	5

Prof. V.Yargeau, ing.	4160	514-398-2273

II. DEPARTMENTAL ASSISTANCE TO STUDENTS

a) Academic Advisors

Each student has an Academic Adviser to assist in the choice of courses, in the timely progress and completion of all requirements for graduation, as well as to answer questions which may arise while at McGill. It is, however, the student's responsibility, as part of a pre-graduation procedure, to provide proof that all requirements for the degree are fulfilled. The Academic Advisors for new students entering in 2012-2013 are Professors Milan Maric, Viviane Yargeau and Elizabeth Jones.

b) Undergraduate Curriculum Committee (UCC)

The committee is composed of four students elected by their classes (U1, U2, U3 and U4), the president of the CSChE McGill Student Chapter, the VP Academic and three staff members. The committee provides a forum for all matters involving undergraduate student/staff interactions.

Elections are held in September (U1) and in March (U2, U3 and U4). For the Academic Year 2012-2013, the membership is:

U4	- Rana Nasrallah
U3	- Steven Paolasini
U2	- Selina Liu
VP Academic	- Husam Al-Rameeni
CSChE St.Ch	- David Lye
Staff	- Professors S. Omanovic (Chairman), E. Jones, and J.-L. Meunier

c) Canadian Society for Chemical Engineering. (C.S.Ch.E) Student Chapter

The President of the Student Chapter in 2012-2013 will be David Lye. Prof. Richard Leask, will be the Faculty Advisor for the Student Chapter. The role and activities of the Student Chapter are described in the University Announcement.

d) Financial Aid and Scholarships

Bursaries and loans are applied for through the Student Aid Office, Brown Student Services Bldg., Suite 3200, 3600 McTavish St. (<http://www.mcgill.ca/studentaid/>). The primary criterion is financial need.

The scholarships awarded through the department and/or the Faculty of Engineering, primarily for outstanding academic achievements, do not require an application by students.

e) Facilities in the Department

There are three breakout rooms that are available to Chemical Engineering Undergraduate students in the space across the hallway from Lab 1160. These rooms can accommodate up to 8 people and two of the rooms have flat screen displays for presentations. These rooms are meant for team work, design meetings, preparation of presentations or for work on projects. They are not social rooms. Please see Ms. Jo-Ann Gadsby on floor 3A for access. Undergraduate students can also use Room Wong 1130 for course and research related meetings and presentations. The room has to be booked in advance through Ms. Jo-Ann Gadsby.

The department owns a substantial amount of equipment in its undergraduate and research laboratories. Specialized department services are provided by:

Undergraduate Laboratories	- Wong 4200 - Mr. F. Caporuscio
Lab. Equipment & Supplies Stores	- Wong 3270 - Ms. M. Gorman
Workshop	- Wong 3260 - Mr. M. Ouellet
Electronics Shop	- Wong 3250 - Mr. G. Lepkyj
Analytical Laboratory	- Wong 4200 - Mr. R. Roy
	- Wong 4200 - Mr. A. Golsztajn
Secretarial Office	- Wong 3060 - Ms. E. Musgrave

f) Handbook of Chemical Engineering

An electronic copy of Perry's Chemical Engineers' Handbook is available on the Knovel's web-site (www.knovel.com). The handbook is accessible through the McGill Library web-site.

III. MISCELLANEOUS INFORMATION**a) French**

A knowledge of French, essential for engineers to work and communicate effectively in Quebec, is a valuable additional qualification to maintain your ability to move freely in Canada, and provides an important additional attribute for working and travelling internationally. If you do not have a working knowledge of French, you will greatly reduce your opportunities for summer or permanent jobs with companies with Quebec operations. It is also necessary for an engineer to show competence in French to become a member of the Order of Engineers of Quebec and thus to be licensed to practice as a professional engineer. Moreover, we live in a dynamic French milieu whose social and cultural riches cannot be enjoyed without a knowledge of French. It is, therefore, highly advantageous to acquire or improve your ability in French during your years at McGill.

The needs of individual students in this area vary widely. Some need beginner's courses while others require practice in speaking or technical vocabulary, etc. A number of ways of improving skills in French are:

- Write Technical Paper I and/or II in French. Allowance is made in marking of grammar and style when French is not your first language.
- Take Free Elective courses at UQAM, Ecole Polytechnique or U. de Montreal under the Montreal universities exchange of credits scheme. See Registrar's Office for the necessary form.
- Take one or more French Department courses.
- Be a member of a laboratory group which communicates internally and externally (wherever possible) in French.
- Arrange a French discussion or practice group.
- Use all opportunities available (e.g. shopping, television, internet, newspapers, radio) to practice and improve your French.

b) Photocopying

Numerous coin-operated and card-operated copying machines are available in the Wong and McConnell Buildings and Libraries.

c) Oral Presentations

Most classrooms are equipped with projectors for the use of computers in presentations. Other projectors are also available to students from the Instructional Communications Center (ICC, 688 Sherbrooke St. W. Room 285).

IV. COURSE ORGANIZATION

a) Course Progress

At the first advising session, new students should note the Graduation Requirements form (p.28-30) which can be used to plan and follow their progress at McGill. Students will record on the form all additional admissions requirements, exemptions or advanced credits (see Section V below) and course marks. This form will eventually be turned in to the Adviser as part of a pregraduation procedure.

Progress and remaining requirements to complete towards graduation can be seen on Minerva/Student/Student Records Menu/Degree Evaluation.

b) Course Loads and Length of Program

The normal course load per semester is 15-18 credits. Students taking 11 credits or less per semester are registered as part-time students. Students receiving certain bursaries and loans may be required to maintain full time status. Check with your financing provider prior to taking less than 12 credits in one semester. A student who wishes to register for

more than 18 credits in a term may only do so with special permission of the Undergraduate Program Coordinator.

Students on probationary standing (see Announcement for criteria and conditions for proceeding) must take a reduced load of no more than 13 credits per semester including repeated courses. The exact number of credits will be recommended by the Academic Adviser on the basis of the difficulties experienced by the student. Care should be taken in the choice of courses for a reduced load to try and meet pre-requisites for courses to be taken in following semesters or years. For example, CEP2 (CHEE 204 (given in Winter)) in the second semester, is a pre-requisite for both Fluid Mechanics (CHEE 314 (given in Fall)) and Separation Processes (CHEE 351 (given in Winter)).

c) Course Change Deadlines (2012-2013)

	<u>Fall 2012 Semester</u>	<u>Winter 2013 Semester</u>
Last day for changing courses (no financial penalty and no entry on transcript)	Sept. 18 (Tuesday)	Jan. 22 (Tuesday)
Last day for withdrawal (with a W)	Sept. 25 (Tuesday)	Jan. 29 (Tuesday)

Beyond this time, student names will appear on the examination lists, and in the event of students not taking the examination, they will be given a "J" grade.

d) Course Grades

Course grades (see the University Calendar under General University Information and Regulations) are defined as follows:

- 1) Grades of A, A-, B+, B, B- and C+ indicate the extent to which ability superior to that required to qualify for the professional degree is demonstrated.
- 2) A grade of C (satisfactory) implies achievement at a level of performance consistent with awarding a B.Eng. degree and thus with the practice of the engineering profession.
- 3) Grades of D and F indicate the extent of deficiency below the required level.

The procedure used to arrive at the letter grades is decided by each instructor in a way appropriate to that course. Note that, in contrast to the Faculties of Arts and Science, in the Faculty of Engineering there is no general relationship between the course grade and percentage marks which may be used for assignments, quizzes, end of term examinations, etc. However, at the beginning of the semester, each course instructor will explain the general terms of the procedure for arriving at a course grade.

e) Reassessment of a Grade

The present guidelines are summarized below:

- 1) A student may request the professor to review the course grade. The professor will check that the entire student's work has been marked and that the computation of the grade has been correctly performed. If omissions and errors are discovered, these will be corrected by report to the Associate Dean for Student Affairs.
- 2) A student may request a re-read of the final examination on payment of a \$35 fee. An alternate examiner will then re-evaluate the exam and recalculate the grade with the aid of information provided by the examiner. If the course grade is improved, the fee is refunded. The request for a re-read must be made through the Associate Dean for Student Affairs on or before the last working day of March, July, and November for the Fall, Winter, and Summer courses, respectively. It should be noted that as final exams are normally only one component of the course grade and as some courses do not have a final exam, the final examination re-read is little used in the Faculty of Engineering.

f) Standings

In the Faculty of Engineering, a decision on the student's academic standing is based on the CGPA (Cumulative Grade Point Average) according to the criteria listed below:

Satisfactory standing: CGPA of 2.00 or better

Probationary standing: CGPA between 1.20 and 1.99

Unsatisfactory standing: CGPA less than 1.20 or failure to meet the conditions of Probationary standing as described below (if this is the student's first term, the student is normally readmitted to Probationary Standing by Faculty decision).

Note: The Faculty makes academic standing decisions after the completion of each term (Fall, Winter and Summer) based on academic results to date. Thus, if a student has been granted permission to defer one or more examinations, the standing decision will be made regardless of such deferrals.

Satisfactory Standing - Students in satisfactory standing may proceed, with the following conditions:

All core courses in which D or F grades were obtained must either be repeated successfully (grade C or better) or be replaced by an alternative approved course which is completed successfully. All other courses in which F grades were obtained must either be repeated successfully at some point before graduation or be replaced by some alternative approved course which is completed successfully before graduation. Students in poor academic standing are strongly urged to contact the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre to discuss their situation. An adviser is available to help guide students and to provide useful advice to help students achieve their goals. Helpful workshops are provided by Student Services, e.g., study skills, stress management, test anxiety. Students who are experiencing difficulties are encouraged to explore these avenues.

Probationary Standing - Students placed on Probationary Standing may proceed with their studies under the following conditions:

Students must reduce their credit load to a maximum of 13 credits per term and must achieve at the end of the term either a CGPA of 2.00 or better, or a term GPA (TGPA) of 2.50 or better in order to continue. If you have already registered for more than 13 credits, you are required to meet with an Adviser in your department/school in order to assist you in decreasing your credit load prior to the add/drop deadline of the subsequent term. A student whose TGPA is 2.50 or better, but whose CGPA is less than 2.00, may continue on with his/her studies but will remain on Probationary Standing. Failure to achieve either the TGPA or CGPA requirements noted above will result in the student being placed on "Unsatisfactory Standing" (see below). Students will remain on probationary standing until they achieve a CGPA equal to or exceeding 2.00, at which time their standing will be changed to "satisfactory". Students placed on Probationary Standing who need to reduce their credit load but are unable to drop course(s) must complete a Course Authorization Form and submit it to the Faculty of Engineering, Student Affairs Office in the Engineering Student Centre. The course(s) will then be deleted manually from the student's record.

Unsatisfactory Standing - Students who have been placed on Unsatisfactory Standing will be asked to withdraw from the Faculty of Engineering for a minimum of one term. Courses for which the student is currently registered will be deleted automatically from the student's record by the Faculty. Students whose most recent academic standing is currently unsatisfactory as indicated on Minerva, and who wish to return to the Faculty of Engineering after a compulsory absence of a minimum of one term away, must apply for readmission on Minerva, no later than November 1 (Winter term) and June 1 (Fall term), at: www.mcgill.ca/engineering/student/sao/current/faculty_transfer_readmission. Upon readmission, the student will be placed back on Probationary Standing. While on probation the student must reduce his/her credit load to a maximum of 13 credits per term, and must meet or exceed a TGPA greater than or equal to 2.50 or a CGPA greater than or equal to 2.00. A student will remain on probationary standing until they achieve a CGPA greater than or equal to 2.00, at which time their standing will be changed to "satisfactory". Students who fail to achieve the required TGPA will be permanently withdrawn from the program with no chance of readmission. In addition, students who have returned to satisfactory standing, but whose CGPA falls below 2.00 in a subsequent term, will be required to permanently withdraw from the program with no chance of readmission.

g) Readmission

A student wishing to return after an absence of a portion of an academic year or more must make application in writing to the Office of the Associate Dean of Engineering (not to the Admissions Office) to be readmitted, stating the reasons for his/her absence from the University, giving a summary of activities during that period.

Students who withdrew because of illness must provide some indication that they are ready to resume studies.

h) Summer Courses

Summer course offerings are published in the Summer Session Announcement available in the early winter of the corresponding year. Normally very few engineering courses are offered. CHEM 212 and 234 are usually offered. A considerable number of courses are offered in management (Faculty of Management) and in French (Faculty of Arts and Centre for Continuing Education). Note that prior approval must be obtained from the Academic Adviser for any course that is to count for degree credit.

Research Seminar Courses CHEE 494, CHEE 495, CHEE 496 and Project Courses CHEE 363 and CHEE 464 are also available in the summer if arrangements can be made with an academic staff member of the Chemical Engineering Department.

i) Definition of Advanced Credit and Exemption

Students who have previously taken a required course in the program may be granted advanced credit or exemption for that course. For exemption, the credits of the course must be replaced by an equal or higher number of credits of another course having the same accreditation category breakdown (e.g. Basic Science, Mathematics, Engineering Science, Engineering Design, Complementary Studies). No replacement is needed for advanced credits.

There is no equivalence between Science Math courses and Engineering Math courses for students who do not hold a degree in Science.

Computer courses taken outside McGill, while a student is registered in Engineering, do not count for credit.

j) Pre-requisites

Students must have the required pre-requisite in their academic history in order to register in a course through Minerva. In exceptional cases pre-requisites may be overridden for individual students by using the Student Registration Permit Override Form.

V. SPECIFIC PROGRAM REQUIREMENTS

A. GENERAL

a) Introduction

This Handbook states the rules applicable to students entering the first year of the program in September 2012 or January 2013.

b) Classification of Courses

The program includes several categories of courses:

- 1) Required Departmental courses
- 2) Technical Complementary (TC) courses
- 3) Required Non-departmental courses
- 4) Complementary Studies (CS)
- 5) Free Electives

Courses in categories 1), 2) and 3) are referred to as "core" courses.

c) Total and Distribution of Credit Requirements

See following pages.

CURRICULUM FOR THE B.ENG. DEGREE IN CHEMICAL ENGINEERING

REQUIRED COURSES

Non-Departmental Courses		Course Credit	
CHEM 212	Introductory Organic Chemistry	4	
CHEM 234	Topics in Organic Chemistry	3	
MATH 262	Intermediate Calculus	3	
MATH 263	Ordinary Differential Equations for Engineers	3	
MATH 264	Advanced Calculus for Engineers	3	
FACC 100	Introduction to the Engineering Profession	1	
FACC 300	Engineering Economy	3	
FACC 400	Engineering Professional Practice	1	
COMP 208	Computers in Engineering	3	24
Chemical Engineering Courses			
CHEE 200	Chemical Engineering Principles 1	3	
CHEE 204	Chemical Engineering Principles 2	3	
CHEE 220	Chemical Engineering Thermodynamics	3	
CHEE 231	Data Analysis and Design of Experiments	3	
CHEE 291	Instrumentation and Measurement 1	4	
CHEE 310	Physical Chemistry for Engineers	3	
CHEE 314	Fluid Mechanics	3	
CHEE 315	Heat and Mass Transfer	3	
CHEE 351	Separation Processes	3	
CHEE 360	Technical Paper	1	
CHEE 370	Elements of Biotechnology	3	
CHEE 380	Materials Science	3	
CHEE 390	Computational Methods in Chemical Engineering	3	
CHEE 400	Principles of Energy Conversion	3	
CHEE 401	Energy Systems Engineering	3	
CHEE 423	Chemical Reaction Engineering	3	
CHEE 440	Process Modelling	3	
CHEE 453	Process Design	4	
CHEE 455	Process Control	3	
CHEE 456	Design Project 1	2	
CHEE 457	Design Project 2	5	
CHEE 474	Biochemical Engineering	3	
CHEE 484	Materials Engineering	3	
CHEE 491	Instrumentation and Measurement 2	4	74

COMPLEMENTARY COURSES**Technical Complementary Courses (TC) Course Credit**

Courses to be selected from those approved by the Department (see list below) 9

Complementary Studies (CS)

9 credits from Group A and Group B of Faculty Announcement
See courses notes in Appendix A 9

TOTAL 116**d) Departmental Technical Complementary Courses**

For up-to-date curriculum, please consult the University Calendar.

The purpose of this requirement is to provide students with an area of specialization within the broad field of chemical engineering. Alternatively, students use the technical complementaries to increase the breadth of their chemical engineering training.

At least two courses (5-7 credits) must be chosen from the list below. The remaining course(s) (2-4 credits) may be taken from other suitable undergraduate courses in the Faculty of Engineering, with departmental permission. Note that many of the technical complementaries are offered only in alternate years. Students should, therefore, plan their complementaries as far ahead as possible.

The following courses are offered as Technical Complementary (TC). Consult Minerva for TCs that are offered in 2012/2013.

BIOT 505	(3)	Selected Topics in Biotechnology*
CHEE 363	(2)	Projects Chemical Engineering 1**
CHEE 438	(3)	Engineering Principles in Pulp and Paper Processes
CHEE 452	(3)	Particulate Systems
CHEE 458	(3)	Computer Applications
CHEE 464	(2)	Projects Chemical Engineering 2**
CHEE 487	(3)	Chemical Processing: Electronics Industry
CHEE 494	(3)	Research Project and Seminar 1**
CHEE 495	(4)	Research Project and Seminar 2**
CHEE 496	(3)	Environmental Research Project**
CHEE 510	(3)	Advanced Separation Processes
CHEE 515	(3)	Material Surfaces: A Biomimetic Approach ⁺
MIME 515	(3)	Material Surfaces: A Biomimetic Approach ⁺
CHEE 541	(3)	Electrochemical Engineering
CHEE 543	(3)	Plasma Engineering
CHEE 561	(3)	Introduction to Soft Tissue Biophysics

CHEE 562	(3)	Engineering Principles in Physiological Systems
CHEE 563	(3)	Biofluids and Cardiovascular Mechanics ⁺
MECH 563	(3)	Biofluids and Cardiovascular Mechanics ⁺
CHEE 571	(3)	Small Computer Applications: Chemical Engineering
CHEE 582	(3)	Polymer Science & Engineering
CHEE 584	(3)	Polymer Processing
CHEE 585	(3)	Foundations of Soft Matter
CHEE 591	(3)	Environmental Bioremediation
CHEE 592	(3)	Industrial Air Pollution Control ⁺
MECH 534	(3)	Air Pollution Engineering ⁺
CHEE 593	(3)	Industrial Water Pollution Control ⁺
CIVE 430	(3)	Water Treatment and Pollution Control ⁺
CHEE 594	(3)	Biocolloids in Environmental Systems
CHEE 595	(3)	Energy Recovery, Use, & Impact
CIVE 451	(3)	Geoenvironmental Engineering
MIME 470	(3)	Engineering Biomaterials
MIME 558	(3)	Engineering Nanomaterials

* BIOT 505 can only be chosen by students taking the Minor in Biotechnology.

** Students may choose only one project course:

CHEE 363 or CHEE 464 or CHEE 494 or CHEE 495 or CHEE 496.

+ Students may choose only one course in each of the following sets:

- CHEE 515 or MIME 515
- CHEE 563 or MECH 563
- CHEE 592 or MECH 534
- CHEE 593 or CIVE 430

e) Other Complementary Courses

In selecting non-departmental complementary courses, students must verify with the department concerned that they have the pre-requisites and that they will be accepted for enrolment into the desired courses. Some departments place limits on enrolment and give preference to their own students.

For course listings and regulations related to Complementary Studies (Impact of Technology on Society courses and Humanities and Social Sciences, Management Studies and Law courses), students should refer to the “Complementary Studies” section in the B. Eng. Chemical Engineering program requirements. The program requirements are listed in the Faculty of Engineering undergraduate section of the Programs, Courses and University Regulations at www.mcgill.ca/study.

f) Minors

Minors are coherent sequences of complementary courses that may be taken in addition to the courses required for the B.Eng. or B.Sc. (Arch.) degree program. Minor programs normally consist of 18 to 24 credits, allowing up to 12 credits of overlap with the degree program. The real credit cost to the student is typically 9 to 18 credits, representing one semester beyond the B.Eng. or B.Sc. (Arch.) degree program. All courses in a Minor program must be passed with a grade of C or better.

Minors are available to Chemical Engineering students in the following areas:

Arts, Biomedical engineering, Biotechnology, Chemistry, Computer Science, Construction Engineering and Management, Economics, Environmental Engineering, Environmental Studies, Management, Materials Engineering, Mathematics, Physics, Technological Entrepreneurship, and Software Engineering. For completed descriptions of these minors, see the Faculty of Engineering undergraduate section of the Programs, Courses and University Regulations at www.mcgill.ca/study (see Academic Program, Minor Programs).

As part of a pre-graduation procedure, students doing a Minor must provide proof that all requirements are fulfilled.

Note that students must pre-register early for Management courses. Preregistration forms are available from the Student Affairs Office (Room 22, Frank Dawson Adams Building).

Students intending to register for a Minor program must complete a form declaring their intent and submit it to Student Affairs Office, Rm 22, Frank Dawson Adams Building. If subsequently the plan is changed, it must be communicated in writing to the same office. Failure to do so may result in delayed graduation.

g) Course Exemptions for CEGEP GraduatesChemistry courses

Exemption can be given for two courses:

- CHEM 212 (Intro. Organic Chem., 4 credits) for Chemistry 202 at CEGEP level
- CHEM 234 (Top. Organic Chem., 3 credits) for Chemistry 302 at CEGEP level

Courses for which a student has been exempted must be replaced with another basic science course of the same or higher number of credits (e.g. Atmospheric and Oceanic Sciences, Biology, Chemistry, Earth and Planetary Sciences, Earth System Science, Mathematics or Physics) at McGill in addition to the regular elective load. See also Section D for more detail.

B. ADMISSION REQUIREMENTS

Note that the rules and the decisions on this question are handled by the Admissions Office. As part of a pre-graduation procedure, students must ensure that all admission requirements are fulfilled.

Placement Tests

Students may write a placement test only at the time of admission to McGill. They are available in Biology, Chemistry, Mathematics and Physics. Up to 12 credits of material passed in placement tests may be classified as advanced credit i.e. the credits will not be transferred to other material. A grade of C or better is required to obtain credit. Credits above 12 will be treated as exemptions.

Tests will be available only during the week of registration and the week following.

C. TRANSFERS

The following policy applies for transfer of credits.

- 1) The maximum number of credits transferred into any Engineering Minor from studies completed prior to entering an Engineering Program, and taken outside McGill, be six (6).
- 2) The maximum number of credits transferred into any Engineering Minor from studies that have received prior approval and completed outside McGill after entering an Engineering Program be six (6).
- 3) The combined total number of credits transferred into any Engineering Minor under items (1) and (2) above be six (6).

a) Transfer from Science Programs to the B.Eng. in Chemical Engineering Programs

Students who have completed all or most of the requirements for the B.Sc. in Chemistry and other chemistry-oriented disciplines (Major or Honours) may qualify for admission to a reduced B.Eng. program. A typical program is listed in this Handbook.

b) Transfer of Credits for Courses Completed Outside this Department

Students must complete a minimum of 60 credits of program-related courses at McGill.

While registered in the B.Eng. program, core courses may not be taken outside the department.

c) Summer Session Forms

Students who wish to take courses at other universities which they want counted towards their B.Eng. requirements should obtain and submit the Authorization of Courses for Exemptions and/or Advanced Credits form to the Engineering Student Center (Rm. 22, Frank Dawson Adams Building). This serves as the written approval form for the Host University upon authorization by the Academic Adviser. Once the transcript of the completed course from the Host University is received by the Engineering Student Center it is matched with the approval form and placed in the student's file.

D. RECORDING OF COURSE EXEMPTIONS OR ADVANCED CREDIT

It is the responsibility of students to request such course exemptions or advanced credit and to ensure that they are properly recorded in the department and the Faculty.

For courses completed at other institutions, Students should request exemptions or advanced credits using the appropriate form (“Authorization of Courses for Exemptions and/or Advanced Credits”) available at the Engineering Student Centre (Rm. 22, Frank Dawson Adams Building). This must be completed by the student, signed by their departmental adviser, and submitted to the Engineering Student Centre for approval by the Associate Director.

A request can only be considered granted and recorded when it appears on the transcript or course verification form.

(Please refer to <http://www.mcgill.ca/engineering/student/sao/newstudents/fallterm/credit/> for details and the process on obtaining transfer credit.)

IMPORTANT NOTES FOR STUDENTS

All pre-engineering courses must be completed preferably in the first year of studies or soon thereafter. They must not be deferred to the third or fourth years of studies.

Students are responsible to ensure that they meet the course requirements for the B.Eng. They must complete the appropriate check list (p. 28 to 30) and demonstrate to their Adviser that they meet the degree requirements in each category of courses e.g. core, technical, minor program, free complementaries etc.

Students must meet their Academic Adviser and verify their final year course selection prior to the commencement of their U-3 year. Timetable conflicts may cause difficulties in some cases if course selection is not planned well in advance.

E. EXAMPLES OF PROGRAMS

CEGEP Entry (September Admission)		
Semester 1 (Fall)		17 Prerequisites/Co-requisites
CHEE 200	Chemical Engineering Principles 1	3 -
CHEE 291	Instrumentation and Measurement 1	4 -
CHEM 212	Introductory Organic Chemistry 1	4 P - CHEM 110 or equivalent / C - CHEM 120 or equivalent
CHEE 231	Data Analysis and Design of Experiments	3 C - CHEE 291
MATH 262	Intermediate Calculus	3 P - MATH 141, MATH 133
Semester 2 (Winter)		16 Prerequisites/Co-requisites
CHEE 204	Chemical Engineering Principles 2	3 P - CHEE 200
CHEE 220	Chemical Engineering Thermodynamics	3 P - CHEE 200
CHEM 234	Topics in Organic Chemistry	3 P - CHEM 212 or equivalent
COMP 208	Computers in Engineering	3 P - MATH 140, MATH 141
FACC 100	Introduction to the Engineering Profession	1 -
MATH 263	Ordinary Differential Equations for Engineers	3 C - MATH 262
Semester 3 (Fall)		16 Prerequisites/Co-requisites
CHEE 314	Fluid Mechanics	3 P - CHEE 204 / C - MATH 264
CHEE 360	Technical Paper	1 -
CHEE 370	Elements of Biotechnology	3 -
CHEE 380	Materials Science	3 -
CHEE 390	Computational Methods in Chemical Engineering	3 P - CHEE 204, COMP 208, MATH 263 / C - MATH 264
MATH 264	Advanced Calculus for Engineers	3 P - MATH 262 / C - MATH 263
Semester 4 (Winter)		18 Prerequisites/Co-requisites
CHEE 310	Physical Chemistry for Engineers	3 P - CHEE 220 or MIME 212
CHEE 315	Heat and Mass Transfer	3 P - CHEE 314
CHEE 351	Separation Processes	3 P - CHEE 204, CHEE 220 / C - CHEE 315
CHEE 484	Materials Engineering	3 P - CHEE 380 / C - CHEE 315
CHEE xxx	Technical Complementary	3 -
CS	Complementary Studies Group B (HSSML) - 1	3 -
Semester 5 (Fall)		16 Prerequisites/Co-requisites
CHEE 400	Principles of Energy Conversion	3 P - CHEE 315, CHEE 390, CHEE 484
CHEE 423	Chemical Reaction Engineering	3 P - CHEE 310, CHEE 315
CHEE 453	Process Design	4 P - CHEE 315, CHEE 351
CHEE 474	Biochemical Engineering	3 P - CHEE 370
FACC 300	Engineering Economy	3 -
Semester 6 (Winter)		16 Prerequisites/Co-requisites
CHEE 401	Energy Systems Engineering	3 P - CHEE 400
CHEE 440	Process Modelling	3 P - CHEE 423, MATH 264
CHEE 455	Process Control	3 P - CHEE 315, CHEE 351, CHEE 423 / C - CHEE 491
CHEE 456	Design Project 1	2 C - CHEE 453
CHEE 491	Instrumentation and Measurement 2	4 P - CHEE 231, CHEE 291, CHEE 315, CHEE 423 / C - CHEE 455
FACC 400	Engineering Professional Practice	1 P - FACC 100, 60 program credits
Semester 7 (Fall)		17 Prerequisites/Co-requisites
CHEE 457	Design Project 2	5 P - CHEE 456
CHEE xxx	Technical Complementary	3 -
CHEE xxx	Technical Complementary	3 -
CS	Complementary Studies Group A (Impact)	3 -
CS	Complementary Studies Group B (HSSML) - 2	3 -
Total credits:		116

CEGEP Entry (January Admission)		
Semester 1 (Winter)		14 Prerequisites/Co-requisites
CHEM 212	Introductory Organic Chemistry 1	4 P - CHEM 110 or equivalent / C - CHEM 120 or equivalent
MATH 262	Intermediate Calculus	3 P - MATH 141, MATH 133
MATH 263	Ordinary Differential Equations for Engineers	3 C - MATH 262
FACC 100	Introduction to the Engineering Profession	1 -
CS	Complementary Studies Group B (HSSML) - 1	3 -
Semester 2 (Fall)		16 Prerequisites/Co-requisites
CHEE 200	Chemical Engineering Principles 1	3 -
CHEE 231	Data Analysis and Design of Experiments	3 C - CHEE 291
CHEE 291	Instrumentation and Measurement 1	4 -
MATH 264	Advanced Calculus for Engineers	3 P - MATH 262 / C - MATH 263
CS	Complementary Studies Group B (HSSML) - 2	3 -
Semester 3 (Winter)		12 Prerequisites/Co-requisites
CHEE 204	Chemical Engineering Principles 2	3 P - CHEE 200
CHEE 220	Chemical Engineering Thermodynamics	3 P - CHEE 200
CHEM 234	Topics in Organic Chemistry	3 P - CHEM 212 or equivalent
COMP 208	Computers in Engineering	3 P - MATH 140, MATH 141
Semester 4 (Fall)		13 Prerequisites/Co-requisites
CHEE 314	Fluid Mechanics	3 P - CHEE 204 / C - MATH 264
CHEE 360	Technical Paper	1 -
CHEE 370	Elements of Biotechnology	3 -
CHEE 380	Materials Science	3 -
CHEE 390	Computational Methods in Chemical Engineering	3 P - CHEE 204, COMP 208, MATH 263 / C - MATH 264
Semester 5 (Winter)		15 Prerequisites/Co-requisites
CHEE 310	Physical Chemistry for Engineers	3 P - CHEE 220 or MIME 212
CHEE 315	Heat and Mass Transfer	3 P - CHEE 314
CHEE 351	Separation Processes	3 P - CHEE 204, CHEE 220 / C - CHEE 315
CHEE 484	Materials Engineering	3 P - CHEE 380 / C - CHEE 315
CHEE xxx	Technical Complementary	3 -
Semester 6 (Fall)		16 Prerequisites/Co-requisites
CHEE 400	Principles of Energy Conversion	3 P - CHEE 315, CHEE 390, CHEE 484
CHEE 423	Chemical Reaction Engineering	3 P - CHEE 310, CHEE 315
CHEE 453	Process Design	4 P - CHEE 315, CHEE 351
CHEE 474	Biochemical Engineering	3 P - CHEE 370
FACC 300	Engineering Economy	3 -
Semester 7 (Winter)		16 Prerequisites/Co-requisites
CHEE 401	Energy Systems Engineering	3 P - CHEE 400
CHEE 440	Process Modelling	3 P - CHEE 423, MATH 264
CHEE 455	Process Control	3 P - CHEE 315, CHEE 351, CHEE 423 / C - CHEE 491
CHEE 456	Design Project 1	2 C - CHEE 453
CHEE 491	Instrumentation and Measurement 2	4 P - CHEE 231, CHEE 291, CHEE 315, CHEE 423 / C - CHEE 455
FACC 400	Engineering Professional Practice	1 P - FACC 100, 60 program credits
Semester 8 (Winter)		14 Prerequisites/Co-requisites
CHEE 457	Design Project 2	5 P - CHEE 456
CHEE xxx	Technical Complementary	3 -
CHEE xxx	Technical Complementary	3 -
CS	Complementary Studies Group A (Impact)	3 -
Total credits:		116

non-CEGEP Entry (September Admission)

Semester 1 (Fall)		18	Prerequisites/Co-requisites
CHEM 110	General Chemistry	4	-
MATH 133	Vectors, Matric. & Geo	3	-
MATH 140	Calculus 1*	3	-
PHYS 131	Mechanics and Waves	4	C - MATH 139 or higher level calculus course
FACC 100	Intro Eng. Profession	1	-
_	Compl. Studies	3	-
Semester 2 (Winter)		18	Prerequisites/Co-requisites
CHEM 120	General Chemistry 2	4	-
MATH 141	Calculus 2*	4	P - MATH 139 or MATH 140 or MATH 150
PHYS 142	Electromag. Optics	4	P - PHYS 131
_	Compl. Studies	3	-
_	Compl. Studies	3	-
Semester 3 (Fall)		17	Prerequisites/Co-requisites
CHEE 200	Chemical Engineering Principles 1	3	-
CHEE 291	Instrumentation and Measurement 1	4	-
CHEM 212	Introductory Organic Chemistry 1	4	P - CHEM 110 or equivalent / C - CHEM 120 or equivalent
CHEE 231	Data Analysis and Design of Experiments	3	C - CHEE 291
MATH 262	Intermediate Calculus*	3	P - MATH 141, MATH 133
Semester 4 (Winter)		18	Prerequisites/Co-requisites
CHEE 204	Chemical Engineering Principles 2	3	P - CHEE 200
CHEE 220	Chemical Engineering Thermodynamics	3	P - CHEE 200
CHEM 234	Topics in Organic Chemistry	3	P - CHEM 212 or equivalent
COMP 208	Computers in Engineering	3	P - MATH 140, MATH 141
MATH 263	Ordinary Differential Equations for Engineers	3	C - MATH 262
FACC 300	Engineering Economy	3	-
Semester 5 (Fall)		18	Prerequisites/Co-requisites
CHEE 314	Fluid Mechanics	3	P - CHEE 204 / C - MATH 264
CHEE 370	Elements of Biotechnology	3	-
CHEE 380	Materials Science	3	-
CHEE 390	Computational Methods in Chemical Engineering	3	P - CHEE 204, COMP 208, MATH 263 / C - MATH 264
MATH 264	Advanced Calculus for Engineers	3	P - MATH 262 / C - MATH 263
CHEE xxx	Technical Complementary	3	-
Semester 6 (Winter)		18	Prerequisites/Co-requisites
CHEE 310	Physical Chemistry for Engineers	3	P - CHEE 220 or MIME 212
CHEE 315	Heat and Mass Transfer	3	P - CHEE 314
CHEE 351	Separation Processes	3	P - CHEE 204, CHEE 220 / C - CHEE 315
CHEE 484	Materials Engineering	3	P - CHEE 380 / C - CHEE 315
CHEE xxx	Technical Complementary	3	-
CHEE xxx	Technical Complementary	3	-

Semester 7 (Fall)		17	Prerequisites/Co-requisites
CHEE 400	Principles of Energy Conversion	3	P - CHEE 315, CHEE 390, CHEE 484
CHEE 423	Chemical Reaction Engineering	3	P - CHEE 310, CHEE 315
CHEE 453	Process Design	4	P - CHEE 315, CHEE 351
CHEE 456	Design Project 1	2	C - CHEE 453
CHEE 474	Biochemical Engineering	3	P - CHEE 370
FACC 400	Engineering Professional Practice	1	P - FACC 100, 60 program credits
CHEE 360	Technical Paper	1	-
Semester 8 (Winter)		18	Prerequisites/Co-requisites
CHEE 401	Energy Systems Engineering	3	P - CHEE 400
CHEE 440	Process Modelling	3	P - CHEE 423, MATH 264
CHEE 455	Process Control	3	P - CHEE 315, CHEE 351, CHEE 423 / C - CHEE 491
CHEE 457	Design Project 2	5	P - CHEE 456
CHEE 491	Instrumentation and Measurement 2	4	P - CHEE 231, CHEE 291, CHEE 315, CHEE 423 / C - CHEE 455
Total credits:		142	

* Students having successfully completed a calculus course in High School may take Calculus A (MATH 150) and Calculus B (MATH 151). Students passing MATH 150 & 151 will receive exemption with credit for MATH 262 (Intermediate Calculus). In the event that the student has some prior calculus, but is not sufficiently confident to proceed with MATH 150/151, the appropriate sequence is MATH 140/141.

75-Credit Program for Students from Science Faculty Program

- 1) Chemistry Programs: Students who have completed at least the U2 level McGill B.Sc. program in Chemistry, or the equivalent, will normally have completed most of the equivalences noted below. Students who at the time of transfer have completed only part of the math equivalence may choose to take the missing courses in the Faculty of Science or to take the equivalent courses in the Faculty of Engineering. The typical 75-credit program outlined in the following page considers that the student has passed MATH 315 and the equivalent courses for MATH 262/264; that the student has 9 credits in allowable complementary studies courses and has courses with laboratory component equivalent to CHEE 291.
- 2) Biochemistry, Biology, Mathematics and Physics Programs: Students from these programs in Faculty of Science also qualify for a credit allowance, the exact number of credits depending on which of the courses on the left below have been taken.

NOTE: Science transfer students can replace up to 6 credits of Technical Complementaries with 6 credits of previously taken 400-level (or equivalent) science courses approved by the Adviser.

Faculty of Science Degree Requirements

1. <u>Chemistry</u>	<u>Cr</u>
CHEM 212 Intr.OrgChem.	4
CHEM 222 Organic Chem. II 4	
CHEM 204 and CHEM 214	6
or (CHEM 223 and CHEM 253)	
and (CHEM 243 and CHEM 263)	6
2. <u>Mathematics **</u>	
MATH 222 Calculus III	3
MATH 315 or MATH 325	3
MATH 314 or MATH 248	3
3. <u>Computer Science</u>	
COMP 250 Intro. Comp. Sci.	3
4. <u>Courses in Complementary Studies</u>	*9
5. <u>Courses with Identifiable Lab. Component not Counted</u>	
6. <u>400-Level Science Courses</u>	

(Chemical) Requirements

1. <u>Chemistry</u>	<u>Cr</u>
CHEM 212 Intr.Organic Chem.	4
CHEM 234 Topics in Org. Chem.	3
CHEE 310 Phys.Chem.For Eng.	3
2. <u>Mathematics</u>	
MATH 262 Inter. Calculus	3
MATH 263 Ord.Diff.Eqs.Eng.	3
MATH 264 Adv.Calculus Eng.	3
3. <u>Computer Science</u>	
COMP 208 Comp. in Eng.	3
4. <u>CS Complementaries</u>	9
5. <u>Chemical Engineering</u>	
CHEE 291 Instrum. Meas. 1	4
6. <u>Technical Complementaries</u>	<u>6</u>

Total Credit Allowance 41

* Courses in Complementary Studies must be clearly identified.

**Note that the Mathematics equivalents will only be considered as a package: credit for individual courses will not be granted

For students of high academic standing who qualify for an equivalence of 41 credits as detailed above, the following 75-credit program applies, provided there are no timetable conflicts.

Semester 1 (Fall)		15	Prerequisites/Co-requisites
CHEE 200	Chemical Engineering Principles 1	3	-
CHEE 314	Fluid Mechanics	3	P - CHEE 204 / C - MATH 264
CHEE 370	Elements of Biotechnology	3	-
CHEE 231	Data Analysis and Design of Experiments	3	C - CHEE 291
FACC 300	Engineering Economy	3	-
Semester 2 (Winter)		14	Prerequisites/Co-requisites
CHEE 204	Chemical Engineering Principles 2	3	P - CHEE 200
CHEE 220	Chemical Engineering Thermodynamics	3	P - CHEE 200
CHEE 315	Heat and Mass Transfer	3	P - CHEE 314
CHEE 351	Separation Processes	3	P - CHEE 204, CHEE 220 / C - CHEE 315
CHEE 360	Technical Paper	1	-
FACC 100	Introduction to the Engineering Profession	1	-
Semester 3 (Fall)		16	Prerequisites/Co-requisites
CHEE 380	Materials Science	3	-
CHEE 423	Chemical Reaction Engineering	3	P - CHEE 310, CHEE 315
CHEE 453	Process Design	4	P - CHEE 315, CHEE 351
CHEE 390	Computational Methods in Chemical Engineering	3	P - CHEE 204, COMP 208, MATH 263 / C - MATH 264
CHEE 400	Principles of Energy Conversion	3	P - CHEE 315, CHEE 390, CHEE 484
Semester 4 (Winter)		18	Prerequisites/Co-requisites
CHEE 401	Energy Systems Engineering	3	P - CHEE 400
CHEE 440	Process Modelling	3	P - CHEE 423, MATH 264
CHEE 455	Process Control	3	P - CHEE 315, CHEE 351, CHEE 423 / C - CHEE 491
CHEE 456	Design Project 1	2	C - CHEE 453
CHEE 491	Instrumentation and Measurement 2	4	P - CHEE 231, CHEE 291, CHEE 315, CHEE 423 / C - CHEE 455
CHEE 484	Materials Engineering	3	P - CHEE 380 / C - CHEE 315
Semester 5 (Fall)		12	Prerequisites/Co-requisites
CHEE 474	Biochemical Engineering	3	P - CHEE 370
CHEE 457	Design Project 2	5	P - CHEE 456
FACC 400	Engineering Professional Practice	1	P - FACC 100, 60 program credits
CHEE xxx	Technical Complementary	3	-
		Total credits:	75

Programs of those who have studied Chemistry at other universities must be examined in detail to determine how many credits, up to the maximum of 45, may be allowed in their case.

Although the above program, in some instances, does not respect the course pre-requisites, they are upheld where possible. Students admitted with advanced standing should, with their Adviser, plan a program in the awareness of the possible difficulties of taking courses out of the pre-requisite sequence. The Adviser must approve this action.

APPENDIX A COMPLEMENTARY STUDIES FOR CHEMICAL ENGINEERING STUDENTS 2012-2013

Six credits (9 credits for students from Quebec CEGEPs) of Complementary Studies are required in addition to the core courses of the chemical engineering program; of these, 3 credits must be chosen from Group A "Impact of Technology on Society Courses" below, and the remaining 3 (6 for students from CEGEPs) credits must be taken from Group B. Non-CEGEP students need to take an additional 3 credits of pre-engineering courses from A, B or C below.

Group A - Impact of Technology on Society Courses

(Consult the University Calendar for updates)

ANTH 212	(3) Anthropology of Development
BTEC 502	(3) Biotechnology Ethics and Society
CHEE 430	(3) Technology Impact Assessment
CIVE 469	(3) Infrastructure and Society
ECON 225	(3) Economics of the Environments
ECON 347	(3) Economics of Climate Change
ENVR 201	(3) Society and Environment
GEOG 200	(3) Geographical Perspectives: World Environmental Problems
GEOG 203	(3) Environmental Systems
GEOG 205	(3) Global Change: Past, Present and Future
GEOG 302	(3) Environmental Management 1
MECH 526	(3) Manufacturing and the Environment
MGPO 440	(3) Strategies for Sustainability
MIME 308	(3) Social Impact of Technology
PHIL 343	(3) Biomedical Ethics
RELG 270	(3) Religious Ethics and the Environment
SOCI 235	(3) Technology and Society
SOCI 312	(3) Sociology of Work and Industry
URBP 201	(3) Planning the 21 st Century City

Group B - Humanities and Social Sciences, Management Studies and Law

1. Humanities and Social Studies
2. Administrative Studies, Law and Social Sciences
3. Language

If you are not proficient in a certain language, 3 credits will be given for one 6-credit course in that language. However, 3 credits may be given for any language course that has a sufficient cultural component. You must have this course approved by a faculty adviser. See the Faculty Announcement in the Undergraduate Programs, Courses and University Regulations 2012/2013 for details of acceptable courses in Group B.

The above list is subject to revision; please consult the latest Programs, Courses and University Regulations at: <http://www.mcgill.ca/study/> Faculty of Engineering Undergraduate "Academic Programs" section.

APPENDIX B: TECHNICAL COMPLEMENTARY COURSES		<i>A course may be cancelled if numbers warrant</i>		
Course #	Title	Fall 2012	Winter 2013	Summer 2014
CHEE 363	Projects in Chem. Eng. 1 *	X	X	X
CHEE 458	Computer Applications			
CHEE 464	Projects in Chem. Eng. 2 *	X	X	X
CHEE 487	Chem. Proc. In the Electronics Ind.			
CHEE 494	Research Proj. & Seminar 1	X	X	X
CHEE 495	Research Proj. & Seminar 2	X	X	X
CHEE 496	Environmental Research Project	X	X	X
CHEE 510	Advanced Separation Processes	X		
CHEE 515	Material Surfaces: A Biomimetic Interface Phenomena		X	
CHEE541	Electrochemical Eng.	X		
CHEE 543	Plasma Eng.			
CHEE 561	Intro. Soft Tissue Biophys.	X		
CHEE 562	Eng. Principles in Physiolog. Sys		X	
CHEE 563	Biofluids and Cardiovascular Mech. (or MECH 563)		X	
CHEE 571	Small Computer Applications			
CHEE 582	Polymer Sci. and Eng.			
CHEE 584	Polymer Processing		X	
CHEE 585	Foundations of Soft Matter			
CHEE 591	Environmental Bioremediation		X	
CHEE 592	Industrial Air Pollution Control (or MECH 534)			
CHEE 593	Industrial Water Pollution (or CIVE 430)	X		
CHEE 595	Energy Recovery, Use and Impact		X	
CIVE 451	Geoenvironmental Engineering		X	
MIME 558	Engineering Nanomaterials	X		
MIME 470	Engineering Biomaterials		X
