DEAN'S MESSAGE

First, a warm summer welcome to all of our MCLL members! It is with tremendous enthusiasm that I encourage you to peruse our summer slate of programming and to take part in some of the lectures offered through our Wonderful Wednesdays series.

As MCLL's silver jubilee year comes to a close, I would like to express my pride in MCLL and in its valuable contributions to the mandate of the McGill School of Continuing Studies (SCS). As a growing and dynamic unit, MCLL is a testament to the importance of extending opportunities for learning and friendship to older adults who are finally able to take some time for themselves. The growth in membership that we have experienced this past year confirms that we are on the right path. Indeed, the volunteer- and peer-based model is exemplary and bespeaks the generosity and openness of our members.

The contributions made by MCLL members to the broader SCS efforts are all appreciated. The conversational exchanges held with English Second Language learners, the Friday lectures which allow for a diversity of McGill voices to showcase their efforts to a broader audience, and the continued financial gifts made by MCLL members in support of the School's pedagogical mission all make a significant difference.

Thank you for sharing your love of learning with us.

A handwritten signature in black ink that reads "Judith Potter". The signature is fluid and cursive, with a large loop at the beginning.

ABOUT MCLL

The McGill Community for Lifelong Learning brings together like-minded men and women from different horizons, for the pleasure of interacting with one another and learning in a vibrant environment. The program features study groups involving different levels of participation and extending over 5 to 10 weeks, as well as lectures, workshops and outings. Topics include art, current events, history, literature, music and science. There are two membership options (see *Practical Information* section) and many opportunities for volunteering.

À PROPOS DE LA CACM

La Communauté d'apprentissage continu de McGill réunit des hommes et des femmes d'horizons différents, tous désireux d'échanger avec d'autres et d'apprendre dans un cadre inspirant. La plupart des activités se déroulent en anglais; la description est en français ou dans les deux langues lorsque l'activité est en français ou bilingue. Le programme comprend des groupes d'étude d'une durée de 5 à 10 semaines, dont le niveau de participation est variable, ainsi que des conférences, des ateliers et des sorties. L'art, l'actualité, l'histoire, la littérature, la musique et la science sont parmi les sujets abordés. Il y a deux formules d'adhésion (voir ci-dessous) et les occasions d'implication bénévole sont nombreuses.

LECTURES AND OUTINGS

MCLL's summer program, referred to as "Wonderful Wednesdays", is lighter than the fall, winter and spring programs. There are no study groups and no workshops. Lectures and outings are usually held at 10 a.m. and 1 p.m. on Wednesdays, save for a few exceptions. Full members (those who have taken a study group in the last two terms) need only pay the per-event fee (\$7 in advance or \$10 at the door). Non-members pay the associate membership fee (\$20) plus the per-event fee. Reservations are highly recommended.

PRACTICAL INFORMATION

THE MCLL DIFFERENCE

Peer learning and active participation are two cornerstones of MCLL's curriculum; these principles differentiate its programs from traditional university courses and classes. The form of participation varies according to the subject matter and the approach chosen by the moderator. The level of involvement can range from mere presence, to advance preparation/research, participation in group discussions and presentations to the class (as defined by study group styles A, B, C, D, E and F). Two forms of membership are offered: full and associate.

FULL MEMBERSHIP

Full members pay a flat \$100 per term (\$75 for a single 5-week study group). This allows one to register for one or two study groups per term, with the possibility of joining additional study groups when there is room. Full members receive a McGill ID and e-mail address when they first register; they keep the same ID number as long as they are members. The member's card is renewed twice a year; privileges include free access to the McGill libraries, free IT assistance and discounts at some McGill facilities. A "fee waiver" form is available on request.

ASSOCIATE MEMBERSHIP

Associate members pay a flat \$20 per term. This allows one to take part in social activities held by MCLL and to register for lectures, workshops and outings.

FEES FOR LECTURES, WORKSHOPS AND OUTINGS

Full and associate members pay \$7 per activity, provided they reserve in advance. Their guests pay \$10. The fee is \$10 for those paying at the door (if there is room).

REGISTRATION

Members may register in person or by mail (with a single cheque payable to McGill University); cash is not accepted; returning members may also register online.

ADMISSION

The number of participants per study group is limited. Since some study groups are extremely popular, registrants are asked to list up to four choices. Registration forms turned in at the office are numbered in order of receipt and processed in the same order. Registrations made online are processed at online time and accepted/rejected based on the space available at the time.

REFUNDS

Full and associate membership fees are refundable before the start of the second week of the term. Lecture fees may be exchanged for vouchers.

STUDY GROUPS

Study groups are offered Monday to Thursday at 9:30–11:30, 11:45–13:45, 14:00–16:00 and, on occasion, 16:15–18:15. While most study groups extend over 10 weeks, some have a shorter duration. All are held on the 2nd floor, in rooms 225, 241, 243 and 245. Schedules are posted on the notice boards.

LECTURES

Most lectures are presented on Fridays at 10:00–12:00 or 13:00–15:00; in the summertime, lectures are presented on Wednesdays only, at the same times. Lectures are held either on the 2nd floor or in room 1041. Schedules are posted on the notice boards.

TECH-SAVVY WORKSHOPS

These workshops are held on the 2nd floor or in lab 1285 on the 12th floor. “Brainy Bar” patterned on Apple’s Genius Bar is conducted in partnership with the School of Continuing Studies’ Intensive English Language and Culture (IELC) program. Tech-Savvy workshops are usually presented on Fridays at 10:00–12:00 or 13:00–15:00, although some Brainy Bar sessions are held on Mondays at 13:00–15:00.

OUTINGS

Occasional outings to various locations in and around the City of Montreal are held on a Friday or Saturday in the fall, winter and spring, and on Wednesdays in the summer.

FACILITIES

MCLL premises are located on the 2nd floor at 688 Sherbrooke St. West (a few activities are held in a large lecture room on the 10th floor or in computer labs on the 12th floor). There is a kitchen and a lounge (with a small library, a computer and a telephone) for the use of members; Wi-Fi is available. The office is open from 9 a.m. to 4 p.m., Monday to Thursday.

ACCESSIBILITY

There is an elevator from the ground floor to the 2nd floor. Members who use a wheelchair or walker should identify themselves at the front desk on the ground floor.

EMERGENCY PRECAUTIONS

Evacuation procedures are clearly posted in the classrooms. Members should have with them at all times the coordinates of a person who could be reached in case of emergency; they should also leave that information at the office.

VOLUNTEERING AT MCLL

Volunteering greatly enhances the MCLL experience. Application forms are available in the office. Volunteer positions range from moderating to serving on Council, working in the office, taking attendance at lectures or performing a range of other tasks.

ORGANIZATION

MCLL is part of McGill's School of Continuing Studies. A Council, elected from among members, provides overall direction as well as day-to-day management. The organization is entirely self-financing; while it draws most of its revenues from registrations, it also benefits from the generosity of individual donors and foundations.

HISTORY

MCLL was founded in 1989. It is patterned on a model developed at Harvard and the Massachusetts Institute of Technology (MIT), based on peer-learning and active participation. The model is applied in a variety of ways in the context of study groups, lectures, workshops and outings. Its hallmark is that members assume responsibility for sharing their knowledge and experience with others. The result is a rich and dynamic learning environment.
