Rainbow Youth Health - Expression of Interest

Creating Safer Spaces for LGBTQ2S+ Emerging Adults in Health Care

Wabano Centre for Aboriginal Health

299 Montreal Rd, Ottawa, Ontario

Nov 8 17:00 – 21:00

Nov 9 8:30 – 16:30

The Mental Health Commission of Canada (MHCC) and Wisdom2Action (W2A) are committed to supporting the mental health and wellness of LGBTQ2S+ emerging adults. LGBTQ2S+ emerging adults face particular challenges that put their mental health at greater risk, including significant barriers to health care access. In an effort to support the larger goal of increasing health sector access and improving the service user experience for LGBTQ2S+ emerging adults, MHCC and W2A are hosting a pan-Canadian forum aimed at creating safer spaces in health care settings.

Created and hosted in partnership with LGBTQ2S+ emerging adults between 18 and 25 years of age, the forum provides a platform for young people to centre their voices. Attendance is open to LGBTQ2S+ emerging adults from 18 – 25 years of age interested in improving health care services, with priority given to people with lived experience of mental health problems or illnesses and/or substance use issues. Please feel free to forward this event to your networks and contacts!

[Submit your expression of interest to attend!](#)

Please note that completing the Expression of Interest does not guarantee attendance at the event. Spaces are limited and the MHCC reserves the right to confirm final registration to ensure fair representation across diverse LGBTQ2S+ identities.

Survivors: Breaking the Silence on Child Sexual Abuse

Oct 16 12:00 – 13:15

Montreal Institute for Genocide and Human Rights Studies

1250 Guy St., Montreal, QC H3H 2T4

Free

Eirliani A Rahman is Program Director at the Kailash Satyarthi Children's Foundation. After resigning from the Singapore Foreign Service, she set up her own not-for-profit YAKIN (Youth, Adult survivors & Kin In Need) aimed at helping child victims and adult survivors of child sexual abuse.

“Survivors” was published by Marshall Cavendish Asia in November 2017, chronicling the true stories of 12 brave survivors of child sexual abuse: 5 men and 7 women from Germany, India, Indonesia, Myanmar, Singapore, South Africa, the UK and the US.

The session will include a survivor from Germany reading excerpts from his chapter in the book. We will be talking about the psychological impact of abuse both in the short and long-term; how to protect your children and wards from danger; signs to look out in an abused child; and how to be supportive to a survivor regarding the trauma. Research Seminar - Relationships Matter: Examining the pathways to long-term supportive relationships for youth ‘aging out’ of care with Melanie Doucet

Oct 17 12:00 – 13:00

Wendy Patrick room (room 118), 3506 rue University, Montreal

Child welfare legislation in Canada requires youth in long-term government care to transition to adulthood and become self-sufficient at the age of majority. Due to this cut-off of services, youth exiting care tend to have limited support networks, and most of their connections during their time in care are formal, paid for and have an expiry date. Melanie Doucet – a PhD Candidate at the McGill School of Social Work and also a former youth in care - led a collaborative photovoice project in the fall of 2017 alongside 8 former youth in care in the Greater Vancouver area between the ages of 19 and 29. The ***Relationships Matter for Youth 'Aging Out' of Care*** project aimed to take a closer

look - through the power of images captured by the young co-researchers and accompanying captions they developed - at supportive relationships in the lives of young people from care and how those relationships can be developed and nurtured over time.

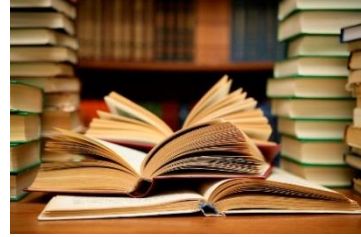

Cookies & coffee will be served. For more information on CRCF's research seminars, please click [here](#).
