AMELIA TEKWATONTI MCGREGOR

A wife, mother, grandmother, great-grandmother, elder, and treasured knowledge holder of Haudenosaunee (People of the Longhouse) ways and teachings, Amelia Tekwatoniti McGregor, a Mohawk from Kahnawà:ke Territory, is a revered community leader known for her wise counsel.

Nearly 30 years ago, Mrs. McGregor played an important role in developing a potentially life-saving health-education program. She helped create the Kahnawà:ke Schools Diabetes Prevention Project (KSDPP) in 1994 – an award-winning response to the alarming rates of Type 2 diabetes in the Kahnawà:ke community. The project focuses on the prevention of Type 2 diabetes in young people, but also contributes to research in this field, by sharing data with both its community and researchers through partnerships between Kahnawà:ke and universities.

Mrs. McGregor also helped develop its code of research ethics, setting standards in the field. In 2019, the Kahnawà:ke Schools Diabetes Prevention Project received the Organization Achievement Award from Health Promotion Canada, which recognizes organizations that have made significant contributions to addressing issues of health equity in Canadian communities. The project operates in harmony with Kanien'keha (Mohawk) values. For decades, she has shared her knowledge with the next generation, nurturing their understanding of how important it is to uphold Indigenous identity and perspective within academic institutions and the wider health-care landscape.

Thanks to the breadth and depth of her knowledge and experience, Amelia Tekwatoniti McGregor has made vital contributions to expanding the fields of Indigenous research methodology, health promotion, and community education.

Épouse, mère, grand-mère, arrière-grand-mère, Aînée et précieuse détentrice du savoir des Haudenosaunee (peuple de la maison longue), M^{me} McGregor, Mohawk du territoire de Kahnawà:ke, est une leader communautaire respectée et connue pour ses conseils avisés.

Il y a près de 30 ans, elle a joué un rôle important dans l'élaboration d'un programme d'éducation en santé susceptible de sauver des vies. Elle a contribué à la création d'un projet de prévention du diabète dans les écoles de Kahnawà:ke (*Kahnawà:ke Schools Diabetes Prevention Project–KSDPP*) en 1994 – une réponse primée aux taux alarmants de diabète de type 2 dans la communauté de Kahnawà:ke. Ce projet se concentre principalement sur la prévention du diabète de type 2 chez les jeunes, mais il contribue aussi à la recherche en partageant des données avec la communauté et les chercheurs grâce à des partenariats entre Kahnawà:ke et les universités.

Par ailleurs, M^{me} McGregor a contribué à l'élaboration d'un code d'éthique de recherche afin d'établir des normes dans le domaine. En 2019, le projet de prévention du diabète dans les écoles de Kahnawà:ke a reçu de l'organisme Promotion de la santé Canada le Prix du mérite organisationnel, qui reconnaît le travail des organisations ayant contribué de façon importante à la résolution des problèmes d'équité en matière de santé dans des collectivités du Canada. Ce projet s'imbrique harmonieusement avec les valeurs kanien'keha (mohawks). Pendant des dizaines d'années, elle a fait profiter la nouvelle génération de ses connaissances en l'aidant à bien saisir l'importance de préserver l'identité et la perspective autochtones dans les établissements universitaires et dans le paysage plus vaste des soins de santé.

Grâce à l'étendue et à la profondeur de ses connaissances et de son expérience, Amelia Tekwatoniti McGregor a apporté des contributions essentielles aux domaines en pleine expansion de la méthodologie en recherche autochtone, de la promotion de la santé et de l'éducation communautaire.

WORDS OF ADVICE FROM OUR ALUMNI

DES CONSEILS DE NOS DIPLÔMÉS

Trained as an engineer, Ivan immigrated from South Africa in 2010. He completed a degree in Biochemistry and later moved to Montreal to study medicine at McGill. He specialized in Family Medicine and now splits his time working in remote indigenous communities in Northern Quebec and with family and friends in Montreal.

Q: What is your best memory of McGill?

A: *All the small traditions we formed along the way like going to Thomson House at the end of each semester to relax and reflect with friends.*

Q: What words of advice do you offer the graduating class?

A: *Stay curious! Both fulfilment and humility are maintained by a healthy willingness to learn something new every day, no matter how small.*

Q: Complete this sentence: As a McGill graduate...

A: *You are equipped to take on the world. Be confident in your abilities and you will find that anything is within reach.*

IVAN SERWADDA, MDCM '18

Your McGill network is always nearby at McGillConnect.ca.

Ingénieur de formation, Ivan a immigré d'Afrique du Sud en 2010. Il a obtenu un diplôme en biochimie et s'est ensuite installé à Montréal pour étudier la médecine à l'Université McGill. Il se spécialise en médecine familiale et il partage son temps entre son travail dans les collectivités autochtones isolées dans le Nord-du-Québec et sa famille et ses amis à Montréal.

Q: Quel est votre plus beau souvenir de McGill?

R: *Toutes les petites traditions qu'on maintenait au long de nos études, comme aller à la Maison Thomson à la fin de chaque session pour se détendre et se réunir entre amis.*

Q: Quel conseil donneriez-vous aux nouveaux diplômés?

R: *Conservez votre soif de connaissances. L'épanouissement et l'humilité naissent d'une saine volonté d'apprendre de nouvelles choses chaque jour, aussi simples soient-elles.*

Q: Terminez la phrase suivante : En tant que diplômé de McGill...?

R: *Vous disposez des outils nécessaires pour conquérir le monde. Ayez confiance en vos aptitudes et vous constaterez que tout est à portée de main.*

AWARDS AND DISTINCTIONS PRIX ET DISTINCTIONS

DEAN'S HONOUR LIST

A graduand identified as being on the Dean's Honour List must have earned a cumulative grade point average within the top ten per cent of their faculty's graduating class.

HONOURS

Honours programs demand a high degree of specialization and require students to satisfy specific departmental requirements while maintaining a good academic standing. This category is designed to prepare students for graduate study. Joint Honours programs are available in related disciplines.

FIRST CLASS HONOURS

Graduating students registered in an Honours program who obtain a certain cumulative grade point average as established by their faculties are awarded "First Class Honours."

DISTINCTION

The notation of "Distinction," is awarded to students who have completed the required number of McGill credits for graduation and whose cumulative grade point average is in the top 25 per cent, but below the top ten per cent of their faculty's graduating class.

MEDALS AND PRIZES

Details of the various medals and prizes awarded to students may be found in the calendars of the faculties and of the School of Continuing Studies.

TABLEAU D'HONNEUR DU DOYEN

Un diplômé inscrit au tableau d'honneur du doyen doit avoir obtenu une moyenne pondérée cumulative qui le place dans le premier décile de sa promotion.

PROGRAMME SPÉCIALISÉ

Un programme spécialisé exige un niveau de spécialisation élevé. Les étudiants doivent satisfaire aux exigences propres à leur département tout en obtenant de bons résultats académiques. Cette catégorie prépare en général les étudiants à des études supérieures. Des programmes spécialisés mixtes existent dans des disciplines connexes.

MENTION « TRÈS BIEN »

La mention « Très bien » est attribuée aux étudiants inscrits à un programme spécialisé qui obtiennent une moyenne pondérée cumulative équivalente à une norme fixée par leur faculté.

DISTINCTION

La mention « Distinction » est décernée aux étudiants qui ont obtenu le nombre réglementaire d'unités de McGill en vue de l'obtention de leur diplôme, ainsi qu'une moyenne pondérée cumulative qui se situe dans la tranche supérieure de 25 pour cent pour leur promotion, mais en deçà de la tranche supérieure de dix pour cent.

PRIX ET MÉDAILLES

Divers prix et médailles sont décernés aux étudiants. On trouvera des précisions à ce sujet dans les annuaires des différentes facultés et dans celui de l'École d'éducation permanente.

MCGILL UNIVERSITY CEREMONIAL MACE MASSE CÉRÉMONIALE DE L'UNIVERSITÉ MCGILL

Commissioned by Sir Timothy O'Shea, Principal and Vice-Chancellor of the University of Edinburgh, and gifted to McGill University for the Spring 2014 convocation ceremonies, the mace was designed by students from the Edinburgh College of Arts (ECA) and manufactured in the workshops of Hamilton and Inches.

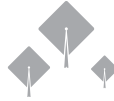

The large centrepiece of the mace, a champlevé enamelled head, was etched and enamelled in the ECA workshops under the supervision of Stephen Bottomley and features the crests of the Universities of Edinburgh, Glasgow, and McGill. It is a lasting symbol of the important historic ties between these three institutions.

The base of the mace was designed by McGill staff members Gilles McSween and Nello Marussi. It is crafted of oak and features a sliver of the "Founder's Elm," a tree located on the estate of James McGill.

Commandée par Sir Timothy O'Shea, principal et vice-chancelier de l'Université d'Édimbourg, et offerte à l'Université McGill à l'occasion des cérémonies de collation des grades du printemps 2014, la masse a été dessinée par des étudiants du Edinburgh College of Arts (ECA) et fabriquée dans les ateliers d'Hamilton and Inches.

La pièce maîtresse de la masse, une imposante tête en émail champlevé, a été gravée et émaillée dans les ateliers du ECA, sous la supervision de Stephen Bottomley. Y ont été apposées les armoiries des universités d'Édimbourg, de Glasgow, et McGill. Cette œuvre se veut un symbole durable des liens historiques importants unissant ces trois institutions.

Faite de chêne, la base de la masse a été dessinée par Gilles McSween et Nello Marussi, membres du personnel de McGill. On y trouve un éclat de l'Orme du fondateur, un arbre situé sur le domaine légué par James McGill.
