Introduction

This publication report was produced for the Department of Medicine of the McGill University Health Centre; it only includes publications authored by RI MUHC researchers.

The following categories of publications are included. For all categories, one of the main sources of information is investigator CV (see Annex for list in investigators having provided an updated CV). To validate CV information, other sources were consulted, depending on publication type, as per below:

<table>
<thead>
<tr>
<th>Category</th>
<th>Information Source (other than CV)</th>

Publications are grouped according to first Department of Medicine author. Authorship priority rule used to attribute publication to first Department of Medicine author is as follow:\(^9\):

- First author in authorship list, then last, then second, third, etc.

Applicability of this priority rules remains to be validated with the authors of each publication.

References are also sub-divided according to publication type group; groups are illustrated in table above with thicker borders.

Letters/comments to the editor, editorials, “In Memoriam” articles, book reviews are not included in this report. Conference presentation abstracts are also not included (though full proceedings are – see table above).

2007 printed publications that were originally published electronically in 2006 are listed in the core of this report and are identified as such. However, to avoid eventual double counting when combining counts from different years, these publications are not included in the total counts by category (see below) nor in the counts by researcher (see Annex)\(^\text{10}\).

Validation Status

Validation status is defined for each reference in this report as follow:

<table>
<thead>
<tr>
<th>Status</th>
<th>Explanation</th>

</thead>
<tbody>
<tr>
<td>V</td>
<td>Reference found in two sources</td>
<td>Reference found in Investigator CV AND in other source (PubMed, Publisher web site, etc)</td>

<tr>
<td>PV</td>
<td>Reference only partially verified</td>
<td>Chapter reference extracted from Investigator CV; book name and year of publication verified against other source (Publisher web site), BUT chapter title and authorship not available in other source</td>
</tr>
</tbody>
</table>
| NV     | Reference found in only one source | • Reference only found in investigator CV  
• Reference found in PubMed but Investigator CV not available |

Summary

The summary below does not include articles printed in 2007 that were published electronically in 2006 (though these are included in the core report).
