## MONTEREGIE WEST COMMUNITY NETWORK (MWCN)

Linguistic and Cultural Adaptation Activities

Meet with public partners to discuss the possibility and interest in setting up 2 more "Conversation Clubs" during lunch time for the benefit of health professionals who wish to have the opportunity to practice and improve their English skills. Add one more community volunteer to the two already recruited to lead the Conversation Club. Promote this activity within the health institutions in their internal newsletter and within organizations. Offer bi-monthly conversation clubs every year. Possibly organize English volunteers to pair up with those attending so that there could be more interaction and sharing which would help the English volunteers improve their French as well as the French Health professionals who could benefit from sharing each other's culture. Objective: 10 Conversation Clubs in fall and winter bringing together 6 to 10 participants.
