HEALTH AND SOCIAL SERVICES COMMUNITY NETWORK BURSARY PROGRAM¹

OBJECTIVE

The purpose of the Health and Social Services Community Network Bursary Program is to address the need for professionals with English and French language skills in health and social services in Quebec regions² by supporting students who pursue studies in health and social services and who wish to work in their home region and serve their community. The Bursary Program is part of the Retention Program as described on the [Dialogue McGill Website](#).

DESCRIPTION

Created by the McGill University Training and Retention of Health Professionals Project³, these bursaries have provided, for the last eleven years, financial support to students from Quebec regions with English and French language skills pursuing full-time studies in the area of health and social services in a government recognized educational institution.

<http://www.afe.gouv.qc.ca/en/all-publications/detail/directory-of-educational-institutions-and-programs/>

For each bursary awarded, recipients commit to working in their home region following the successful completion of their studies for a minimum of one year in a public health and social services institution.

<https://m02.pub.msss.rtss.qc.ca/>

These return-for-service bursaries are coordinated locally by the English-speaking community networks from the eligible Quebec regions on page 10. The bursaries are designed to respond to regional and local priorities for access to services in English. A list of priority service areas for each region is made available by the community network. Priority will be given to community-involved students whose field of study will lead them to a career in health and social services that will help address the priority service areas identified for the region.

The sponsoring community networks collaborate with bursary recipients requiring support to obtain a clinical practicum in their home region and in their job search post-graduation. Organizations such as Place aux jeunes en région:

<https://www.placeauxjeunes.qc.ca/emplois> are also good places for students to get support.

¹ The Health and Social Services Community Network Bursary Program is also referred to as the Bursary Program in this document.

² For the purposes of the Bursary Program, region refers to the socio-sanitary regions of Quebec
<http://www.msss.gouv.qc.ca/reseau/regions.php>

³ The McGill University Training and Retention of Health Professionals Project will hereafter be referred to as Dialogue McGill

As a means of introducing the recipient to the working environment at the CISSS and paving the way for an eventual successful workplace integration, community networks are encouraged to collaborate with the CISSS to set up a job-shadowing opportunity for the recipient at a time convenient for both parties during the academic year covered by the bursary. The Bursary Program targets students who have a demonstrated commitment to and involvement in their community. Students are required to provide references from two different individuals who can attest to their community commitment and involvement and who can evaluate their potential to commit to working in their region in the field of health and social services upon completion of studies.

Students wishing to apply for the Bursary Program must submit their application forms to the contact person at the participating community network in their region. Please refer to the *Directory of Participating Community Networks* on Page 13. The bursaries are tax exempt.

There is no maximum number of bursaries a student can receive under the Program. However, the participating community networks can create their own guidelines in this regard in response to local and regional dynamics.

BURSARY TYPES

The Health and Social Services Community Network Bursaries are broken into two types depending on the student's residence within Quebec and the location of the educational institution in which they study.

Outside Home Region:

This type of bursary is offered to students studying in an educational institution located OUTSIDE THEIR HOME REGION.

Outside Home Region - Bursary Amounts	
University	Cégep/College
\$10,000	\$5,000

Within Home Region:

This type of bursary is offered to students studying in an educational institution located WITHIN THEIR HOME REGION. Students pursuing online-only programs within their home region are also considered.

Within Home Region - Bursary Amounts		
University	Cégep/College	Vocational Training*
\$5,000	\$2,500	\$2,000

Vocational Training Deadlines

To accommodate the multiple starting dates of vocational training programs in Quebec, Dialogue McGill has opted to offer an **open call** for bursaries for those students in vocational training programs only (see the list of *eligible programs of study in Health and Social Services* on page 11). Students may apply for a vocational bursary at any time during the 2023-2024 year.

ELIGIBILITY CRITERIA

The Bursary Program is open to full-time students from Quebec regions (refer to *List of Eligible Quebec Regions* on page 10) who:

- are Canadian citizens (or permanent residents) who have resided in their home region for at least 2 years (24 months)
- have the appropriate English and French language skills to provide health and social services in a health and social services institution in Quebec
- are pursuing studies in a government recognized educational institution located INSIDE or OUTSIDE their home region
- are currently accepted into or pursuing full-time studies in a government recognized health and social services program that permits the students to work professionally in Quebec upon completion of studies; this program of study must prepare them for careers where they will be providing direct care and service; refer to list of *Eligible Program of Study in Health and Social Services* on page 11)
- are registered full-time during the 2023-2024 Academic Year
- are committed, following completion of studies, to working in their home region, or catchment area of the sponsoring community network, in a public health and social services institution for a minimum of one year per bursary awarded
- agree to participate in any follow-up, monitoring or evaluation of the Program conducted by Dialogue McGill and / or the community network

Please note that medical students are required to work in the Quebec province in a public health and social services institution for a minimum of one year per bursary awarded.

Please note that the Bursary Program is not available to students registered in independent study programs, programs that do not lead to a degree or diploma.

APPLICATION PROCESS

Students wishing to apply to the bursary program should communicate with the community Network responsible for coordinating the bursary program within their home region (please see the *Directory of Participating Community Networks*) and visit [Dialogue McGill's website](#) for all required forms and additional information.

Step 1

Students must fill out *Form 1: Student Application*, including the identification of their home region and the participating community network that will coordinate (sponsor) their bursary application within that region. Please see *Directory of Participating Community Networks* on page 16 for the complete list of participating community networks.

Step 2

Students must attach the following documents to *Form 1: Student Application*, and send the completed form with the attached documents to the contact person at the participating community network:

- most recent Curriculum Vitae
- official letter of acceptance into their program that they have received from their educational institution
- most recent academic transcript: if they are a first-year student after high school, they are to attach their latest high school transcript

Step 3

Students must provide two (2) references from within their community.

An appropriate reference provider is one who:

- has known the student for two (2) years
- can attest to the student's commitment and involvement in the English-speaking community
- can evaluate the student's potential to provide services in English while working in the field of health and social services upon completion of studies

Examples of appropriate reference providers include:

- members in the student's community who belong to government agencies or non-governmental organizations (NGO)
- persons from educational institutions (e.g., teachers)
- persons from hospital, clinic, or care facility engagement
- persons from daycare centers
- summer camp coordinators

- persons from community organizations
- volunteer supervisors; and more

Please note that the reference provider cannot be a family member, nor a staff member of the community network to which the student is applying

Students fill out section 1 of Form 2: Reference Providers and ask that their reference completes sections 2-4.

Reference Providers email the completed Form 2: Reference Providers to the contact person at the participating community network in the student's home region.

SELECTION CRITERIA

Bursary applicants will be recommended for approval by the participating community network based on the following criteria:

- compatibility of the student's field of study with the identified regional priority service areas
- student's commitment, following completion of studies, to work in their field in a public health and social services institution in their home region, or catchment area of the sponsoring community network, for a minimum of one year per bursary awarded
- quality of the references provided
- quality of the student's academic standing
- overall quality, content, and presentation of the student's application

PAYMENT MODALITIES

Payment to the Bursary Recipient

The community network is responsible for disbursing payments to the Bursary Recipient. With the exception of Vocational Training bursaries, bursaries are paid in out in two equal parts.

The first payment should be made in **mid-September** and the second in **mid-January** of the funding year following reception of Recipient Form 1: Attestation of Student's Studies.

- The Recipient Form 1: Attestation of Student's Studies is made available to the community networks once the Bursary Program application has been approved. This form will confirm the student's registration for full-time studies during the funding period as well as their satisfactory academic standing. The student must submit this signed form to the

community network within fifteen (15) calendar days after the educational institution's official registration deadline for the applicable semester.

- Upon reception of the bursary payment, the student must sign a *Bursary Recipient contract* with the Community Network that sets out their respective responsibilities. See contract template.
- The student will have to complete *Recipient Form 2: Proof of Bursary Payment: Section 2C* to confirm reception of each bursary payment received from the community network.

BURSARY RECIPIENT COMMITMENT

- The recipient must commit to completing studies in a government recognized health and social services program that permits the student to work professionally in a public health or social institution in Quebec upon completion of studies.
- The recipient must remain registered for full-time studies in a government recognized health and social services program during the period funded.
- The recipient must commit to working in their home region, or catchment area of the sponsoring community network, following completion of studies in a public health and social services institution for a minimum of one year per bursary awarded. If the recipient can only secure part-time employment, repayment time is the equivalent in hours of one year of full-time work.
- Should the bursary recipient not be able to meet their commitments, they will have to report in writing to the community network and reimburse the allocated funding in accordance with a contract signed between the community network and the recipient which stipulates:
 1. should the bursary recipient drop out of the agreed upon program of study they must reimburse the sponsoring community network, any money received, within three years following the date they dropped out;
 2. should the recipient default on their commitment by ceasing to work in the health and social services field in their home region, or catchment area of the sponsoring community network before the fixed period has expired, they must reimburse the sponsoring community network, within three years of graduation, the amount of the bursary prorated for the remaining period;
 3. should the recipient default on their commitment by not working in their home region, or catchment area of the sponsoring community network, they must reimburse the sponsoring community network the bursary amount received, within three years of graduation;
 4. should the recipient not find employment in their home region, or catchment area of the sponsoring community network, but secures employment in another eligible region, they will be deemed to have fulfilled their commitment after one year of employment per bursary received in the other region. In this case,

recipients must show proof of their unsuccessful job search in their home region, or within the catchment area of the sponsoring community network.

- The recipient must provide a digital photograph and curriculum vitae to the community network and grant Dialogue McGill, the community network and the health and social services institutions permission to disseminate, for promotional purposes, their photographic image, curriculum vitae, and information about the bursary awarded.
- The recipient must agree to allow their contact information to be entered into a database of health professionals able to provide healthcare services in English which can be made available to the health and social services institutions and on the Dialogue McGill website.
- The recipient must inform the community network with any changes in their contact information.
- The recipient must agree, upon completion of studies, to participate in any formal follow-up monitoring or evaluation of the Program conducted by Dialogue McGill or the community network.
