

McGill Clinical Education

# Supervisory Practice Modules

## 5 Online Modules

To Build and Reinforce your Skills in Supervision

## Both a proven self-study tool and a useful teaching companion

The McGill Clinical Education Supervisory Practice Modules in English result from a collaboration with the Consortium national de formation en santé – Université d'Ottawa ([www.cnfs.ca/uOttawa](http://www.cnfs.ca/uOttawa)). The first four modules are a translation of the French modules (<http://formations.cnfs.ca/formation-a-la-supervision>) developed by the Consortium with some revised content by Dialogue McGill. Module 5 is new material that was prepared exclusively by Dialogue McGill with participation of McGill Health and Social Services Schools.

**Just choose when and where and click:** <http://www.mcgillclinicaleducation.ca/>

Funding and production of the modules were made possible by the support of Health Canada and Dialogue McGill.
