2. Choose “Multiple windows” and “Display number 0” and click Next

![Display settings window](image2.png)
3. Select “Start a Program” and click Next

![Session type dialog box]

4. Use the following settings and click Next:

   Start program: `/usr/openwin/bin/xterm –ls`

   Run Remote-> Using PuTTY (plink.exe)

   Connect to computer: asterix.ece.mcgill.ca

   Login as user: `first.last@[mail].mcgill.ca`

   Password: `__your_email_password__`
5. Click Next on the Additional parameters screen
6. On the last screen click finish. An xterm session will be started on asterix

Note:
If you are planning to use Cadence through X-Ming you also need to install the additional X-Ming fonts package:

http://sourceforge.net/projects/xming/files/Xming-fonts/7.5.0.25/Xming-fonts-7.5-0.25-setup.exe

Install in the same directory as X-Ming.
