17:30					

#### Required Courses

#### NOTES:

\* For EDPE 684, all students must register for both a Lecture section (001) and a Laboratory section (002). You must have completed EDPE 682 in your Masters Degree to be eligible to take this course in Fall Year 1 of the doctoral program. See Winter schedule for alternate courses.

#### EDPC 780 D1/D2

\*\* For EDPC 780 D1/D2, only those students who have met clinical hour requirements in their Master's Degree may potentially obtain permission from the Director of Clinical Training to register for this course in their first year of study. Those who do not meet requirements will need to first complete EDPC 782D1/D2 in their second year of study (leaving 780 for third year).

\*\*\* For EDPC 780 D1/D2, register in both sections. If you are registered in Section 001 (CRN 5706), please register in Section 002 (CRN 5707).

#### Required Courses

#### NOTES:

Students who have completed the MA Counselling Project in ECP, will have already completed one of these Statistics courses, EDPE 682 OR EDPE 687. Therefore, they must enroll in the *remaining* course. For questions please contact your Program email: counsellingpsych.education@mcgill.ca.

\* For EDPE 682, all students must register for both a Lecture section (001) and a Laboratory section (002)

\*\* For EDPC 780D1/D2, only those students who have met the clinical hour requirements in their Master's degree may potentially obtain permission from the Director of Clinical Training to register for this course in their first year of study. Those who do not meet requirements will need to first complete EDPC 782D1/D2 in their second year of study (leaving 780 for third year).

\*\*\* For EDPC 780D1/D2, register in both "clinical teaching" and "tutorial" sections. If you are registered in Section 001 (CRN 5115), please register in Section 002 (CRN 5116) as well.
