

Post-Exposure to Non-Human Primates Risk Identification Matrix

First aid should be administered immediately following exposure. In order to determine necessary medical care, if exposure occurred Monday-Friday between 8:00-16:00, the exposed individual should complete this form before contacting the Occupational Health Program Administrator at 514-398-4766. If exposure occurred outside of these hours, the exposed individual should complete this form and then give the information to their Supervisor or PI to contact the Occupational Health Physician on her cellular phone.

To reach the supervisor on call outside of regular hours, contact the Call Centre at 514-359-5651.

Name: _____ Date: ____ / ____ / ____

McGill ID: _____

Classification (PI, PDF, Grad., Tech, etc.): _____

Location where incident occurred: _____

Form filled out by: _____

Supervisor: _____

Animal Identification

YES NO

- | | | |
|---|--------------------------|--------------------------|
| 1. Was the animal a macaque monkey (rhesus monkey, cynomolgus monkey)? | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. If the animal is not a macaque monkey, is the animal housed with macaques? | <input type="checkbox"/> | <input type="checkbox"/> |

Type of Exposure

- | | | |
|--|--------------------------|--------------------------|
| 3. Is the injury the result of an animal bite? | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. Is the injury the result of a cut or scrape from the animal? | <input type="checkbox"/> | <input type="checkbox"/> |
| - Superficial laceration | <input type="checkbox"/> | <input type="checkbox"/> |
| - Deep laceration (refer to the hospital) | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. Did the open wound come in contact with a cage or other piece of equipment? | <input type="checkbox"/> | <input type="checkbox"/> |
| 6. Area of the body where the injury occurred: _____ | | |
| 7. Is the injury the result of a needle prick? | <input type="checkbox"/> | <input type="checkbox"/> |
| 8. If the injury resulted from a needle prick, was the needle used for: | | |
| - Blood | <input type="checkbox"/> | <input type="checkbox"/> |
| - Brain tissue | <input type="checkbox"/> | <input type="checkbox"/> |
| - Mucosal tissues (from the eye, nose or mouth) | <input type="checkbox"/> | <input type="checkbox"/> |
| - A lesion, growth or sore from the animal | <input type="checkbox"/> | <input type="checkbox"/> |
| 9. Were any biological fluids from the animal splashed in the face? | <input type="checkbox"/> | <input type="checkbox"/> |

First Aid

- | | | |
|---|--------------------------|--------------------------|
| 10. Was there a delay between the exposure and the start of first aid treatment? | <input type="checkbox"/> | <input type="checkbox"/> |
| - Time of delay (+/- 5 mins.): _____ | | |
| 11. If contact with eyes: were the eyes flushed with water for at least 15 minutes? | <input type="checkbox"/> | <input type="checkbox"/> |
| 12. If there is a cut: was it flushed with water and disinfected for at least 15 minutes? | <input type="checkbox"/> | <input type="checkbox"/> |
