

# Extra Support for Struggling Students

Struggling students can often feel lost in a large class.

A bit of extra support goes a long way.

I reach out to those that receive <60% on a midterm and congratulate those that improve after struggling.

Hello,

I am reaching out today because it looks like you are struggling with Chem 212 after our second midterm.

There is still time to get caught up, but you need to start soon.

Your TAs (Ali, Julie, and John), TEAM students, and instructors, are available if you would like to meet one-on-one and make a plan for finals. Please do not hesitate to get in touch and arrange a meeting with any of us or drop by the tutorials/FRezCa.

Our goal is to help you get the most out of this course and succeed.

Take care,  
LCP

Great job on improving your grade for MT2!

I know there is always more to do, so please let us know if you need extra help/advice as you prepare for finals.

Take care  
LCP
