Claudia Macedo Memorial SURE Award in Sustainable Engineering and Design

Established in 2014 in Honour of the late Claudia Macedo (BEng'14)

Awarded by the Faculty of Engineering to one or more undergraduate students in a BEng program in the Faculty of Engineering at McGill University who are participating in the Summer Undergraduate Research in Engineering program

MADE by McGill

Claudia Macedo (1990-2013) was a fourth-year Materials Engineering undergraduate student, whose life was tragically cut short when she was struck by a car while cycling on James Bay Road.

Claudia was involved in numerous societies and activities, had acted as president of the CIM Metallurgy and Materials Society (MetSoc) Student Chapter at McGill, had volunteered with various groups that promote engineering to young women and led workshops at conventions and festivals. She notably organized field trips, guest speakers, presentations and other educational activities for her fellow students. She lived her life to the fullest and served as a shining example for all, always willing to go above and beyond to improve the lives of her peers.

Claudia was cherished by her co-workers, colleagues and friends and will be profoundly missed: she made McGill proud. The McGill University flag was lowered in her honor on Tuesday, October 8th, 2013.

Proudly Supported By Glencore

Established in 2014 in Honour of the late Claudia Macedo (BEng'14) by Glencore (where she was in the process of completing her final Co-Op term) and others, for undergraduate students involved in a research project with the Trottier Institute for Sustainability in Engineering and Design (TISED). Awarded by the Faculty of Engineering to one or more undergraduate students in a BEng program in the Faculty of Engineering at McGill University who are participating in the Summer Undergraduate Research in Engineering program, with a preference to students in Materials Engineering.
