

The Redwood Graduate TISED Fellowship

Established In Honour of Richard G. Redwood (1936-2011)

The Redwood Graduate TISED Fellowship was established in 2014 by McGill alumnus Feng Lu, (MEng'90), to recognize and promote academic achievement among graduate students at the Faculty of Engineering.

MADE
by McGill

“Professor Redwood vigorously guided me throughout my years at McGill, but even more, he and his family showed great care and attention to his students.”

- **Feng Lu (MEng'90)**, Fellowship Benefactor

Richard G. Redwood passed away on October 26, 2011. He had a remarkable career and made significant contributions to McGill University as an excellent teacher, researcher and administrator.

He joined the Department of Civil Engineering in 1965 as an Assistant Professor, and quickly rose through the ranks, serving two separate terms as Chair of the Department for a period of nine years. His main field of expertise was the behaviour and design of steel structures. He was recognized as an international expert in this area and played a key role in the development of the Canadian code of practice for the design of steel structures for buildings and for bridges. Many of his former graduate students have gone on to play leadership roles in industry and academia. His colleagues have benefitted from his undeniable integrity and his carefully measured advice.

After retiring from McGill in 1997, Richard was appointed Emeritus Professor and discovered that he had hidden talent - he became a gifted artist who studied and painted in San Miguel de Allende in Mexico.

Proudly Supported By Alumnus Feng Lu (MEng'90)

One of the first donors to make a generous gift to the Fellowship was the late Mrs. Elizabeth Redwood, in honour of her late husband. The fellowship is awarded annually, on the basis of academic merit, to outstanding Civil Engineering graduate students engaged in research at McGill's Trottier Institute for Sustainability in Engineering and Design (TISED).

If you would like to make a contribution to the Redwood Graduate TISED Fellowship please contact the Advancement Team [here](#).
