

Thirteenth Annual McGill Facial Plastic Surgery Course

- ✓ One on one instruction and teaching
- ✓ Injectable fillers and neurotoxins workshop
- ✓ Hands-on fresh frozen cadaver dissection for all participants
- ✓ Bring your difficult cases and ask the experts

May 24-26 2024

Course Director:

Mark Samaha

MSc, MD, FRCSC

McGill

Thirteenth Annual McGill Facial Plastic Surgery Course

LOCATION

McGill Medical Simulation Centre

3575 Parc Ave, Suite 5640
Montreal, QC H2X 3P9

Montreal Centre for Facial Plastic Surgery

(Injectable fillers and
Neurotoxins Workshop)
1240 Beaumont, Suite 200
Montreal, QC H3P 3E5

FACULTY

Mark Samaha, MSc, MD, FRCSC Course Director

Associate Professor
Otolaryngology - Head and Neck Surgery
Facial Plastic and Reconstructive Surgery
McGill University

Richard Rival, MD, FRCSC

Otolaryngology and Facial Plastic Surgery
Toronto, Ontario

Kal Ansari, MD, FRCSC, MACMD

Associate Professor
Otolaryngology - Head and Neck Surgery
University of Alberta

Michael Roskies, MSc, MD

Facial Plastic and Reconstructive Surgery
Toronto, Ontario

Frank P. Fechner, MD

Instructor
Facial Plastic Surgery
University of Massachusetts
Medical School

Sami P. Moubayed, MD, FRCSC

Assistant Clinical Professor
Otolaryngology - Head and Neck Surgery
University of Montreal

Alex M. Mlynarek, MSc, MD, FRCSC

Assistant Professor
Head and Neck Oncology
Otolaryngology - Head and Neck Surgery
McGill University

Jonathan R.B. Trites, MD, FRCSC, FACS

Associate Professor
Otolaryngology - Head and Neck Surgery
Dalhousie University

Michael G. Brandt, MD, FRCSC

Assistant Professor
Otolaryngology - Head and Neck Surgery
Facial Plastic and Reconstructive Surgery
University of Toronto

Andres Gantous, MD, FRCS(C)

Associate Professor
Otolaryngology - Head and Neck Surgery
Facial Plastic and Reconstructive Surgery
University of Toronto

Mark Taylor, MD, FRCSC, FACS

Professor and Interim Head
Otolaryngology - Head and Neck Surgery
Dalhousie University

Yalon Dolev, MD, FRCSC

Facial Plastic and Reconstructive Surgery
Montreal, Quebec

Visit Montreal

Spring is a great time to visit Montreal. Take advantage of the vibrant cultural scene and activities, museums, and a world renowned orchestra. Montreal has the second highest number of restaurants per capita in North America, making it a "foodie" city, with variety to please every palate. Visit Old Montreal to appreciate its stunning architecture and European charm. Enjoy the multicultural vibe that is so characteristic of this wonderful city.

Target Audience

The course provides a valuable educational opportunity for practicing physicians of all levels of experience and residents in training. The program covers aesthetic and reconstructive topics and techniques relevant to facial plastic and reconstructive surgery. The format of the course allows participants of all levels to tailor their learning experience according to their goals, from the most basic to the most complex.

Course Description

The course spans the entire spectrum of facial plastic and reconstructive surgery. It is unique in Canada in its scope, audience, size, and quality of cadaver dissection facilities and specimens.

Instructors are prominent leaders and educators in the specialty in Canada. The ratio of instructor to participant allows for one-on-one teaching and coaching. There is a total of no less than **12 hours of cadaver dissection by the participants**. There are 2 participants per cadaver stations to insure full exposure to all procedures by each participant. Exceptionally, a third participant may be added.

Didactic lectures cover a wide range of topics and emphasize a practical approach to surgical decision-making and techniques. The course is geared to facilitate interaction between registrants and faculty.

The injectable fillers and neuromodulator workshop allows for exposure to variety of techniques by different expert injectors. Tips and assistance on incorporating fillers and neurotoxins in your practice are also available. Live patient demonstrations with small groups provide easy exposure and opportunity for interactive learning.

Learning Objectives

At the conclusion of the course, the participant should be able to:

- Discuss principles and basics in facial plastic and reconstructive surgery
- Explain different approaches, incisions, and techniques in modern esthetic rhinoplasty
- Debate different treatment choices and approaches to the aging face
- Utilize technical pearls for complex problems and deformities
- Delineate sound principles in facial reconstruction, including optimal choice of reconstructive option
- Be able to incorporate fillers and neuromodulators into his/her practice and apply safe and optimal injection techniques

CME

Practicing Otolaryngologists will be eligible for up to 20 hours of Category 1 CME credits through McGill University department of Otolaryngology-Head and Neck Surgery.

Thirteenth Annual McGill
Facial Plastic Surgery
Course

CADAVER DISSECTION SESSIONS

The cadaver dissection sessions allow for close interaction with faculty, demonstrations, and a great deal of flexibility for candidates to try various techniques.

Esthetic Facial Plastic Surgery:

Fresh cadaver specimens will be used. Hands-on practice of surgical techniques as well as injection of fillers into cadaver heads, including

- Rhinoplasty - Open and endonasal
- Blepharoplasty
- Cervicofacial rhytidectomy - all techniques
- Forehead/Brow lift
- Otoplasty
- Chin implantation
- Injectable fillers

Local and regional flap reconstruction:

Prosection demonstrations and hands-on dissection of local flap reconstruction techniques, including

- Forehead flap
- Melolabial flap
- Lip reconstruction
- Deltopectoral flap
- Submental flap
- Supraclavicular flap
- Various other flaps

Friday, May 24th Lecture Session:

Location: McGill Medical Simulation Centre Lecture room:

- 7:30 - 7:50 Breakfast and registration
- 7:50 - 8:00 Welcome and introduction - Mark Samaha, MD
- 8:00 - 8:30 Local Flaps in facial reconstruction - Kal Ansari, MD
- 8:30 - 8:50 Common local flaps - the basics - Yalon Dolev, MD
- 8:50 - 9:10 Question period & break
- 9:10 - 9:30 Nasal Reconstruction - Alex Mlynarek, MD
- 9:30 - 9:50 Scar camouflage / scar revision - Michael Brandt, MD
- 9:50 - 10:20 Regional flaps in facial reconstruction - Jonathan Trites, MD

Cadaver Dissection Session:

Location: McGill Medical Simulation Centre Skills lab

- 10:30 - 11:50 Cadaver dissection by participants
Recon demonstrations: K. Ansari, A. Mlynarek, J. Trites, M. Brandt
Nasolabial flap - K. Ansari
Paramedian forehead flap - A. Mlynarek

- 12:00 - 13:00 Lunchtime Session**
 - Lecture 1: Practice management**
 - Lecture 2: Social media**

Cadaver Dissection Session (cont'd):

- 13:00 - 16:00 Cadaver dissection by participants
Flap demonstrations: K. Ansari, A. Mlynarek, J. Trites, M. Brandt
Various regional flaps (submental, pectoralis, etc.) - J. Trites
Various local flaps (rhomboid, bilobed, V-Y advancement, cervicofacial, etc.) - all instructors

McGill

Thirteenth Annual McGill
Facial Plastic Surgery
Course

Saturday, May 25th Lecture Session:

Location: McGill Medical Simulation Centre Lecture room:

7:30 - 8:00	Breakfast
8:00 - 8:20	Open Rhinoplasty - Richard Rival, MD
8:20 - 8:40	Endonasal Rhinoplasty - Mark Samaha, MD
8:40 - 9:00	Chin Augmentation - Sami-Pierre Moubayed, MD
9:00 - 9:10	Question period & break
9:10 - 9:30	Upper Lid Blepharoplasty - S. Mark Taylor, MD
9:30 - 9:50	Lower Lid Blepharoplasty - Andres Gantous, MD
9:50 - 10:10	Brow lift - Mike Roskies, MD
10:10 - 10:30	Face and neck lift - Frank Fechner, MD

Cadaver Dissection Session:

Location: McGill Medical Simulation Centre Skills lab

10:30 - 11:50 Cadaver dissection by participants

Demonstrations: F. Fechner, M. Samaha, M. Roskies, S-P Moubayed, R. Rival
Rhinoplasty - open and endonasal
Blepharoplasty - upper lid

12:00 - 13:00 Lunch Small Group Breakout Sessions: Managing difficult patients in Facial Plastic Surgery

Group 1: M. Samaha, F. Fechner

Group 2: R. Rival, M. Roskies

Group 3: M. Taylor, S-P. Moubayed

Group 4: A. Gantous, K. Ansari

Cadaver Dissection Session (cont'd):

13:00 - 16:00 Cadaver dissection by participants

Demonstrations: F. Fechner, M. Samaha, M. Roskies, S-P Moubayed, R. Rival
Blepharoplasty - lower lid
Facelift - SMAS and Deep plane
Forehead lift
Chin implant

**Sunday, May 26th
Workshop:**

Neuromodulators and injectable fillers

Location: Montreal Centre for Facial Plastic Surgery

1240 Beaumont Avenue, Suite 200, Mount Royal, QC H3P 3E5

8:00 - 8:30 Breakfast

8:30 - 10:30 Neuromodulators and injectable fillers demonstrations - live patients

Mark Samaha, MD Richard Rival, MD

Filler demonstrations

- Non-surgical rhinoplasty
- Nasojugal folds (Tear troughs)
- Nasolabial folds
- Geniolabial folds (Marionette lines)
- Temporal fossae
- Malar/submalar regions
- Buccal hollows
- Lips
- Non-surgical blepharoplasty

Neurotoxin (Dysport) demonstrations

- Frontalis (forehead)
- Corrugators (glabella)
- Orbicularis (Brows)
- Orbicularis (crow's feet)
- Masseter (Bruxism)
- Nasalis (Bunny lines)

10:30- 10:45 Wrap-up
