Position Available
Grader/Marker

Course: EPIB 621 - Data Analysis in Health Sciences
Instructor: Dr. Lawrence Joseph
Term: Winter 2019
Number of Positions: 4
Total hours: A maximum of 65 hours (each)
Start/end dates: January 7, 2019 to April 12, 2019
Rate/hour: $18.00 per hour
Duties: Grade assignments and exams.

Requirements:
Biostatistics, Statistics, or Epidemiology students with good statistical knowledge (for example, who have taken and done well in EPIB 621 or equivalent) are welcome to apply. Knowledge of R is required. Some previous experience with Bayesian analysis and a program like WinBUGS is an asset. The work will consist of grading five assignments and two exams for approximately 20 students. Very complete solution sheets will be provided in advance so that solving the problems yourself is not necessary, you just need to compare the students’ answers to those on the solution sheet and provide a grade. Extensive commenting on the assignments is not necessary since the students will also be provided with the solution sheets.

Apply to:
Please send your CV along with a cover letter to Dr. Joseph at: lawrence.joseph@mcgill.ca.

Application deadline: until position is filled
